

## **GIRLS and BOYS BASKETBALL**

### **Controlled Scrimmage Rules and Regulations**

#### **I. Date**

Each basketball playing school may choose to participate in an inter-school controlled scrimmage after five days of practice and no later than the second calendar day prior to the first scheduled game.

Only one scrimmage shall be held by a high school. JV players and freshmen players may be utilized, provided that they have been included in the practices prior to the scrimmage and that their plays are included as part of the scrimmage time limit. All players must have full eligibility to participate. There shall be no separate freshman or junior varsity scrimmages organized.

#### **II. Contractual Agreement**

Schools who choose to participate in a scrimmage must schedule another Indiana team. Schools are implored to use good judgment and attempt to scrimmage against a team that is similar to their talent and skill level.

There shall be a contract between the two schools, which will include the location, time and any financial arrangement between schools.

Spectator admission into the scrimmage would be an option of the participating schools. Both schools must be in agreement with financial arrangements prior to the scrimmage.

#### **III. Coaches**

Each team may have the head coach and two additional coaches on the court during the scrimmage. All other coaches will be on the sideline or in the bleachers.

Each team shall have the opportunity to videotape/film the scrimmage. Only one person from each team will be allowed to videotape/film the scrimmage. Scouting should not be allowed at the scrimmage. **The scrimmage videotapes shall not be exchanged with other coaches for the purpose of scouting. The purpose of the scrimmage is evaluating your own squad.**

Coaches should communicate with each other prior to the scrimmage. This should be done to assure players are competing against players of the same comparable talent level and so that coaches are in agreement as to the format of the time schedules. Coaches of the two teams shall select in advance either Option A or Option B.

#### **IV. Players**

Only those players who have participated in five days of practice and who have full eligibility shall be allowed to participate in this scrimmage.

#### **V. Time**

The maximum amount of time allowed for the scrimmage is 2 hours to 2 hours and 15 minutes. (This includes the warm-up time and breaks.)

#### **VI. Officials**

Two officials shall be provided by the home team. The clock will run according to rules listed below. The clock will stop for injuries. Officials should go through all signals, but the clock operator should not stop the clock for fouls, violations, etc. This does not apply to the parts of quarters specified as "clock would stop."

Officials are responsible for seeing that the clock runs according to the listed rules and that no more than the maximum time of each segment is played. This is a very important point. The scrimmage officials are responsible for enforcing all the specified rules, including the time rules of the scrimmage. No one has the authority to supersede the officials' decision on any aspect of the scrimmage.
