## State Finals Appearances by Team (Alphabetical)

From 1975-1981, the state finals consisted of individuals representing various schools competing in a state singles tournament and doubles tournament. Those schools were credited with a state finals appearance if they had a singles player or doubles team competing in the state finals tournament. Beginning in 1982, the state finals tournament changed to a format of four full teams competing head-to-head for the state championship. In 2010, the tournament format changed adding four more teams for an eight-team state finals field.

## State Finals Appearances by Team (Numerical)

From 1975-1981, the state finals consisted of individuals representing various schools competing in a state singles tournament and doubles tournament. Those schools were credited with a state finals appearance if they had a singles player or doubles team competing in the state finals tournament. Beginning in 1982, the state finals tournament changed to a format of four full teams competing head-to-head for the state championship. In 2010, the tournament format changed adding four more teams for an eight-team state finals field.
