### About the Draw

To conduct the random drawing for the football state tournament, the IHSAA places ping-pong balls representing each school in a given sectional into a lottery-style air mix machine. A fan in the bottom of the machine blows the balls around the inside of the transparent container and air then forces each ball up through a tube in random order. For example, the first ball retrieved from the machine will be the visiting team in game one with the second ball representing the home team in game one. The third ball to come out is the visitor in game two and the fourth ball the home team in game two. That same method is followed through all 48 sectionals. **In the case of five-team sectionals in Class 5A, the first two teams drawn will play the opening weekend of the tournament with the fifth team drawn receiving the bye and an automatic road game in the semifinal round against the opening game winner. The third and fourth teams drawn will play in the other semifinal game. In seven-team sectionals, the seventh team drawn receives the bye and an automatic road game in the semifinal round.**
