TO THE INDIANA HIGH SCHOOL ATHLETIC ASSOCIATION

Lee O. Baird, President I. H. S. A. A., July 1, 1926, to Jan. 1, 1927.

It has been a distinct pleasure to me to have had the privilege of serving as a member of the “Board of Control” of the Indiana High School Athletic Association, an organization without an equal to be found in the High School athletic world today.

The growth of the Indiana High School Athletic Association has been rapid and healthy, until at this time the peak has been reached with practically all Indiana High Schools holding membership in the organization. With the membership now at the maximum, greater effort can be made toward broadening the field of endeavor of the organization. The organization is founded on right principles, the plan of operation is secure. With a Permanent Secretary devoting full time to the welfare of the membership, a Board of Control as an administrative body, a Legislative Body as a builder of a constructive program of the highest character, this organization will continue to give to the boys and girls of Indiana that fine athletic and physical program to which they are entitled.

From its inception, the purposes and aims of the I. H. S. A. A. have been definite and clear cut, and the placing of responsibility for the accomplishment of these purposes and aims has been just as definite.

The aim of securing clean, competitive, athletic contests with good sportsmanship on the part of athletes, students, schools and communities, is being realized to a greater degree than ever before, and the elimination, of the “win at any cost,” “fan control” ideas, is slowly but surely being brought about.

Real physical training for all boys and girls, in which each participates to the limit of his or her ability, is the further aim of the I. H. S. A. A., and in the past few years this has received greater consideration from school officials than ever before as evidenced by the employment of physical directors, fair-minded coaches, teachers and officials, who will stand firmly at all times for the best interests of the boys and girls.

One year ago the Principals of Indiana, feeling that a better method of legislation was necessary for the best interests of the I. H. S. A. A., voted and established a Legislative Body, and they have watched with keen interest the auspicious start this body has made.

It has been characterized by careful, calm deliberations, and with unwonted zeal has adhered to the ideals and purposes of the I. H. S. A. A. It has been unusually careful to eliminate any element of legislation, which would inure to the benefit of the few and to the
detrimen of the many. It has put into operation some noteworthy lines of endeavor.

As it has always been the aim of the I. H. S. A. A. to protect and conserve the health and physical well being of the boys and girls, the Legislative Body has ordered a careful check and study of the effects of the 1927 tournaments on the health and physical conditions of the boys participating. Much that is of value to the I. H. S. A. A. program should be learned. Also to further aid in this aim, the Legislative Body has ruled that beginning January 1, 1927, all students participating in athletics shall file a Parents and Physician's Certificate of physical fitness. This, if done in a thorough and painstaking manner, will relieve the school officials of much criticism for the playing of students in poor physical condition. This aim will be successful to the same extent, that these certificates are the results of careful and competent examinations secured by school officials.

The Legislative Body, cogolant of the fact that in some school communities there is a feeling that athletic funds are poorly managed, directed that a system of accounting suitable for such use be prepared and recommended to the schools of the association.

As a future problem, the Legislative Body recognized the fact, that under the present plans of organization of Indiana Schools, the Junior High School usually comprising grades 7 to 9 or some combination of such grades, is an athletic outcast. It is the duty of the principals of this association to give much thought to this problem, so that a fair and equitable participation may be granted to this ever growing group of schools, and that the I. H. S. A. A. may be doing its utmost to bring its program to all the boys and girls of Indiana.

It has been my experience as a Board member, that many times principals are inclined to condemn the rules and regulations of their Association, because a special case applicable to their school only, prevents their seeing the application of such, when considered in the interest of the Association as a whole. The rules and regulations of the I. H. S. A. A. place all athletic responsibility directly on the High School Principal and the Board of Control in its administration has also held the Principal liable for the conduct of all athletic affairs in his school. To some this seems unfair to the student body, but membership in the I. H. S. A. A. includes this responsibility on the part of the Principal, the student body, and the school for a strict observance of the rules and regulations of the I. H. S. A. A. It is hoped, that in a greater way than ever before, the Principals will assume the RESPONSIBILITY and LIABILITY of I. H. S. A. A. membership.

As a retiring member of the Board of Control, permit me to thank all those, who by their kindly support and helpful suggestions, have made service so pleasant and I trust it has been worthy of the great work of the I. H. S. A. A.
TO THE INDIANA HIGH
SCHOOL ATHLETIC ASSOCIATION
G. G. Eppley, President I. H. S. A. A., Jan. 1, 1926—July 1, 1926.

The I. H. S. A. A. is a constructive organization. The welfare of the boy and girl is considered first.

The Legislative body, a part of the I. H. S. A. A., is proving its value to that organization. Questions are discussed fully. The educational point of view far outweighs that of all others. Requiring all basketball and track athletes to pass a physical examination is just as necessary as it is to have all football players pass a physical examination. The health of the participant is one of the first things to be considered in athletic competition. A study of Junior high school athletic problems is also very necessary at this time. Members of the legislative body are serious in their study of athletic problems. Changes should be made if necessary, but changes should not be made for the advantage of some ineligible athlete or some particular school to the disadvantage of ninety-five percent of the I. H. S. A. A. membership, is the policy of the legislative body.

The Board of Control and Permanent Secretary have had many difficult tasks. The future seems much brighter. Ineligibility and trouble between schools have required at least ninety percent of their time while in session. Sportsmanship programs among the schools and within the schools are doing much to eliminate trouble and misunderstanding.

The Annual meeting of the I. H. S. A. A. was certainly worthwhile. The whole program seemed to bear out the fact that athletics should be constructive and that physical education and athletics cannot be separated. In his address the founder of basketball favored a well developed program of many sports.

Athletic clinics are doing much to develop efficiency in athletic management, and a better understanding among those attending the clinics.

The I. H. S. A. A. is not as yet perfect. Only a few well developed athletes are given a chance to perform in some schools. If students are to become desirable citizens, then the masses should be developed and not the few who need very little development. Not all athletes are basketball players. A student may have the ability to become an athlete in some other sport and yet be a failure in basketball. If basketball is the only sport offered, he will sit in the bleachers. There are several sports, for instance, volleyball, horseshoes, handball, and
wrestling, which are less expensive and require fewer players than are required by basketball. One sport does not give a student a complete development. Students should participate in several sports, even if they are not skilled in more than one. It might be well for each school to consider as many of the following sports as possible: swimming, football, baseball, tennis, indoor baseball or kitten ball, speed ball, soccer, hockey, golf, horseshoes, handball and wrestling. There are very few students who would not enjoy one or more of the above sports. Perhaps no school can afford the equipment for all of these sports, but most schools can well afford to promote more sports than they do. Students should be encouraged to learn at least one or two sports which can be played throughout their lifetime. Too many athletes change from being participants to spectators when the one or two sports which they have learned become too strenuous for their age.

We have done almost nothing in developing a physical program for the girls who are just as important as the boys. Very few school men seem to know much about girls athletics and as a result girls have been allowed to be spectators only, in some schools. A woman physical director is just as necessary as a man physical director. Too many times we try to make one, a man, serve in the capacity of both. This is not fair to the girls who need a woman instructor. Some schools use a few of their girls to carry on too keen and strenuous a competition with other schools without first considering the health of the girls participating. Girls should play girls' games just as much as boys should play boys' games. This does not mean that there are not some games which can be played by both boys and girls. Girls' athletics should be studied carefully.

Many schools would prove themselves of more value to their communities if they invited the adults to participate in the various sports fitted for them. It is worthwhile to consider the health of an individual after he has graduated from high school. Many athletic directors would find it profitable to their communities and to themselves if they encouraged and promoted summer playground work. What would be better than a school for the whole community with the whole community participating twelve months in the year?
I. H. S. A. A. PROGRAM

(We believe in boys and girls.)

1. Real physical training for all boys and all girls built around drills, rhythms, games, contests, competitive activities and legitimate sports rather than around formal gymnastic exercises or around highly organized military training.

2. Incorporation and use of the valuable elements in formal gymnastic exercises and in military training as contributory measures to a materialization of real physical training.

3. Physical training as an integral and vital part of the school curriculum and athletics as an integral and vital part of physical training.

4. Belief in games and contests between schools and just as strong belief in games and contests between classes, groups, clubs and leagues within the schools so that all boys and all girls may secure their physical chances.

5. Education of the public regarding the ideals, program and policy of the I. H. S. A. A., and also in the idea that an opportunity furnished by facilities in the way of gymnasiums, playfields, equipment and a competent personnel in adequate numbers to direct is all that is necessary to secure general and voluntary participation in this program by boys and girls.

6. Physical training and athletics as elements only in the proper training of boys and girls. These things are extremely valuable but must be considered as contributory to scholarship, high ideals, real sportsmanship and to the building of the proper habits of real living in a democracy. A proper sense of relative values will save us.

7. General recognition of the possibilities for real training for boys, girls and adults in athletic contests and in the many competitive activities in a real physical training program. Real situations filled with real opportunities for real training in the elements of real citizenship arise in athletic activities. An adequate and competent personnel to direct will turn these situations into habits that will function in right thinking and in right acting.

8. Clean amateur athletics, fair competition, honest dealings, and real sportsmanship at all times. These things bar the recruiting of players and remove the money-changers from our gymnasiums and playfields.

9. Elimination of the "win at any cost" ideal and substitution of the "play hard and win by fair means only" ideal. The former ideal is far too low for boys and girls, too low for communities and too low for our country.

10. Clean, competent and fair-minded coaches, physical directors, managers, teachers and officials who are vitally interested in the welfare of boys and girls and who have backbone enough and of sufficient rigidity to stand firmly at all times for the best interests of boys and girls.
FUNDAMENTAL PRINCIPLES AND BELIEFS 
OF THE I. H. S. A. A.

1. Commercialism is antagonistic to the best interests of clean amateur athletics.

2. Professionalism should play no part in school athletic activities.

3. Athletics and physical training should be managed in accord with other educational aims and values.

4. School athletic activities are educational activities and should be managed by school authorities.

5. The training of all and the exploitation of none should be considered fundamental in physical education.

6. Provision for spectators, as well as participants, is highly desirable, as the educational values in moral, civic and social ways gained by having men, women and children interested in clean sport are valuable.

7. Physical training and athletic activities should be dignified by being assigned a prominence in the curriculum on a par with other work.

8. Intelligent leadership and sympathetically efficient management will do much more than critical denunciation.

9. Athletics is one of the greatest of forces for the development of school morale and school spirit, when properly handled.

10. Athletics should have its proper setting in physical training activities. Physical training should have its proper setting in physical education, and physical education should have its proper setting in the whole health program.

11. Games, contests, competitive activities, sports, drills, folk dances, rhythms and marches are basic in physical training work, because such are natural and free and furnish real genuine interest without which the highest development does not take place.

12. Artificial exercises have a certain value, but such value is not comparable to the values secured in free play, organized play and in well conducted contests, sports and games.
Basket Ball

There is no way of knowing the exact number of basketball games played by High School varsity teams during the season, but we are safe in setting the approximate number at ten thousand (10,000) for boys in 1925-1926. In addition there were many games played by second teams and third teams as inter-school contests. To all of these must be added the intra-mural games of which there were many. Most of the varsity teams participated in one tourney in addition to the twenty games permitted on the regular schedule and in addition to the state championship tourneys arranged by the Board of Control. When it is considered that the 10,000 games of basketball were attended by crowds ranging from 250 to 5,000 and even 14,000 at the state tourney, it is easily seen that basketball is an extremely popular sport not only to the players but to the fans as well.

Many games were played by girls although this competition was largely intra-mural. Some schools had inter-school games for girls and there were a few girls' tourneys held. All girls games were played according to girls' rules. The need here is one calling for women trained to coach and officiate in girls' games.

SECTIONAL, REGIONAL AND FINAL TOURNEYS

At the end of the season, sectional, regional and final tourneys were held to decide the state championship in basketball for boys. No such tourneys were held for girls. These tourneys ended the basketball season for the year for both boys and girls. There were 64 sectional tourneys with 719 teams participating on March 6 and 7. Each of these tourneys was played to a winner and the 64 winners were the eligible representatives for the regional tourneys.

There were eight (8) regional tourneys and each tourney was played through the semi-final games, thus leaving two teams to enter the state final tourney. These games were played on Saturday, March 14.

The sixteen (16) winners of the eight (8) regional tourneys met in a final tourney at Indianapolis on March 19 and 20, and the Marion High School team won the tourney and the State Championship in I. H. S. A. A. Basketball for 1926. All schedules for all tourneys were drawn by lot and the halves in all games were fifteen minutes in length.

Richard Williams of Central High School, Evansville won the Gimbel Prize for Mental Attitude, the five members of the Board of Control making the selection.

The following data and reports give complete information regarding the basketball tourneys for 1926.
ANNOUNCEMENT OF I. H. S. A. A. SECTIONAL, REGIONAL AND FINAL BASKETBALL TOURNYES, 1926

THE FIFTEENTH ANNUAL

The Board of Control has completed the details for the State Championship Basketball Tourneys and announces the scheme in full.

Sectional Tourneys, March 5-6

The following bases were used in selecting centers:
(1) Location—geographical and with reference to schools desiring to participate. (2) Railway, interurban and automobile facilities. (3) General conditions,—attitude of local authorities, floors and entertaining facilities.

Schools have been assigned by counties with a few exceptions and these exceptions are clearly indicated. The name of your county locates your center unless assigned otherwise. The scheme is arranged to have no less than 8 teams and no more than 16 teams in each tourney and the assignment of all schools is given below. The Board of Control reserves the right to readjust the scheme if conditions arise making changes advisable or necessary. The numbers indicate the probable number of schools in each case. These may not be absolutely accurate in all cases but they are very nearly correct. Correct information can not be available until the entry blanks have been received and accepted by the Board of Control.

MANAGEMENT—The general management of these tournees rests solely with the Board of Control. Local arrangements have been delegated to the Center Principals. Two officials for each tourney will be selected by the Board and none but fair, disinterested and competent men will be chosen. All schedules of hours, floor, teams and officials will be made out and printed by the Board. All schedules will be drawn by lot by the Board of Control and no changes will be made in them.

OPEN CONTEST—The tournées are open to all members of the Association, irrespective of their season’s record.

PROTESTS—All protests against teams or individuals must be made in writing by the Principal and filed with the Permanent Secretary on or before 11 A. M. Wednesday, February 24. Protests must be accompanied by evidence. Eleventh hour protests are usually unfair as such do not give the team or individual time to meet the protest.

ENTERTAINMENT—Teams are limited to eight men, but ten men can be certified. The Center Principals have contracted with the Board to entertain nine men (which MUST include the faculty manager) from each competing school. Entertainment will begin, if necessary, at 7 a.m. Friday, March 5 and continue, if necessary, to 8 a.m. Sunday, March 7. Printed schedules will be sent to each competing school in plenty of time to arrange for making the trip. All competing schools are requested to ask for no longer entertainment than is necessary, but all schools are entitled to entertainment throughout the tourney. Fairness by all parties must prevail in this matter of entertainment.

EXPENSES—An entrance fee of one dollar ($1.00) for each team must accompany the entry blank, which money will go into the treasury of the I. H. S. A. A. to defray expenses of the tournées incurred by the Board of Control. The Center Principals have contracted to make settlement according to the following scheme:

1. All legitimate expenses except for transportation shall be paid from the gross receipts.

2. The Center High School shall receive one hundred dollars ($100).

3. The transportation shall be paid. (The Board of Control has decided on four (4) cents per mile per man for the round trip. Mileage should be considered as the most direct distance between the school building of the participating school and the gymnasium in which the tournée is held).

4. The Center High School shall receive one hundred dollars ($100).
5. The I. H. S. A. A. shall receive five per cent. (5%) of the fourth balance.

6. One-half of the fifth balance shall be divided pro rata among the participating schools, the center school sharing.

7. One-half of the fifth balance shall be divided on the basis of season ticket sales in the local communities on or before Thursday, March 4.

8. The Board of Control shall pass on all reports by the Center School and all reports by the participating schools.

9. The Center School shall furnish a complete financial report to the I. H. S. A. A. and to each participating school soon after the tourney.

PRIVILEGES—All competing players, one attendant, and one faculty manager for each team are to be admitted free to all games.

ELIGIBILITY—The eligibility of each player must be certified to by the Principal of the school sending the team. Certificates must be made on the regular blanks furnished by the Permanent Secretary and all data must be given as indicated. Entries will close Monday, February 22. It is recommended that these be sent between February 10 and 20. All students must be eligible when they participate as well as when they are certified so entry blanks should not be sent early.

ADMISSION FEE—The admission fee to all tourney games shall be forty (40) cents for single session tickets and one dollar fifty cents ($1.50) for season tickets and no more shall be received for said tickets. No more tickets shall be sold than the capacity of the house will justify. All requirements of the State Fire Marshal should be met.

PRIZES—No prizes of any kind are to be awarded to any school or individual from any source.

DISTRIBUTION OF TICKETS—An equitable distribution of season tickets shall be made among the competing schools based on distance, enrollment in High School, and probable attendance from the competing schools. Season tickets should be ready for distribution on Monday, March 1. Center Principals and participating Principals should communicate with each other on March 1. This responsibility is mutual. All Principals have duties in this matter. Any unfair methods or prices higher than those mentioned in this announcement should be reported to the Board of Control with evidence. The division on season ticket sales shall be made on the basis of such tickets being sold and paid for on or before Thursday, March 4. All schools must observe this provision.

WARNINGS—Entries close Monday, February 22 and cannot be changed or received afterwards. An entrance fee of one dollar ($1.00) must accompany each entry blank. Special privileges will not be granted to anyone. Send all entry blanks and money to Arthur L. Trester, Anderson, Indiana. All data must be given on entry blank. Get all right the first time and on time but do not send blanks too early.

GIMBEL PRIZE FOR MENTAL ATTITUDE

In 1917 Jake Gimbel of Vincennes presented to the I. H. S. A. A. Board of Control a proposal to give a prize each year at the State Basketball tourney to the boy among the teams represented that showed the best mental attitude throughout the tourney. Mr. Gimbel did not have in mind the quality of the playing of any boy on any team, but did have in mind the qualities that belong to a real gentleman. He clearly recognized the mental and moral strain under which the players play during the tourney and he also recognized the numerous opportunities for the players to lose control of themselves and to do something not conducive to true sportsmanship.

The Board of Control accepted the proposal of Mr. Gimbel and the awarding of this prize known as the "Gimbel Prize for Mental Attitude" has been an annual affair, calling for much favorable comment. The prize and the things it represents are cherished by the players and schools of Indiana. The prize has meant much to real sportsmanship and self-control in the High Schools of the State and it is a prize sought for by all schools. The school to which the winner of this prize belongs claims the winner as their own and accordingly the whole school and the whole community are proud. In a number of cities similar prizes are being given to the players who show the best mental attitude within their own schools. The Gimbel prize and these other similar prizes have exalted in a very real sense the qualities belonging to a gentleman in the minds of our boys and girls.

The following boys have won the prize:

- Claude Curtis
- Ralph Esarey
- Walter Cross
- Harold Laughlin
- Ralph Marlowe
- Reese Jones
- Maurice Robinson
- Philip Kessler
- Russell Walter
- Richard Williams

These boys have been chosen by committees appointed by the management of the State Tourney and these committees have made their choices by observing the boys and by consulting the officials. Only one boy can receive the prize each year, but several boys have been worthy each year. It will be interesting to follow these boys down through the years. Schools should take an interest in these boys as the I. H. S. A. A. desires to be proud of them always.

TRACK AND FIELD

Fifteen sectional track and field meets were held on Saturday, May 15 and the final meet was held at Technical High School, Indianapolis on Saturday, May 22. The winning relay teams and all men winning first and second places in each event in the sectional meets constituted the entrants in the final meet. In case of a tie for first place in any event all contestants so placed were entitled to enter the final meet, but in case of a tie for second place in any event the right to enter the final meet went to the winner of the badge who was determined by lot.

All of the sectional meets were run off in quick time and the final meet with 93 teams was completed by four o'clock in the afternoon. Trials were conducted in the morning for the final meet but all sectional meets were run off in the afternoon. The speed and efficiency with which the meets were conducted made them more interesting to all concerned and no doubt results will be encouraging in the size of future crowds. Spectators desire to spend less time at track meets and they desire full and complete information at all times regarding events and individuals.

There were 139 teams and 1,522 boys entered in the 15 sectional meets, and 93 teams and 346 boys entered in the final meet. Forty teams representing the same number of schools, secured points in the final meet. This shows a wide distribution of winning schools and individuals. The winners by schools and individuals may be found in the results of these meets as printed elsewhere in this book.

Kokomo High School won the final track and field meet held at Technical High School, Indianapolis with 21½ points, and therefore won the I. H. S. A. A. State Championship in Track and Field for 1926. This High School has won the State Championship for three consecutive years under the coaching and training of Chester Hill, Athletic Director of the Kokomo High School.

Abbott of Kokomo set a new record for the I. H. S. A. A. in running the 880 yard race in 2:03. The old record of 2:04 was held by White of Union City and Spradling of Frankfort. The Michigan City team set a new record for the I. H. S. A. A. in running the Half Mile Relay in 1:34. Crumpacker, Farrar, Slaven and Horan made up the team. The old record of 1:35.2 was held by Technical High School, Indianapolis.

Numerous dual meets, invitational meets and county meets were held under High School auspices. Relay meets were very popular and an increasing number of them were held over the state. Although the season was not a good one, as far as the weather was concerned, track and field work took quite a jump in the High Schools of the state and the future looks promising for this kind of work. In addition to providing good training for the season, coaches are finding that the work offers excellent training for football and basketball playing.
SECTIONAL TRACK AND FIELD MEETS, MAY 15

The following bases were used in selecting centers:

(1) Location—geographical with reference to schools desiring to participate, (2) Transportation accommodations, (3) General conditions—attitude of local authorities, tracks, fields, entertaining facilities, etc., (4) Existing organizations.

Schools have been assigned by counties, and the accompanying scheme gives the Centers and the counties assigned to each Center. The name of your county locates your Center. The Board reserves the right to readjust the scheme, if necessary. The numbers indicate the schools from each county that have expressed a desire to enter. Entry blanks are necessary, however.

Management—The management of these meets rests solely with the Board of Control. Local arrangements have been delegated to the Center Principals. All officials will be selected by the Center Principal.

The Center Principal shall arrange a program for his meet from the list of entries sent to him by the Permanent Secretary. All meets shall begin at 1:00 o'clock and follow the order of events here given. Places on the track must be assigned by lot. Spalding's National Collegiate Athletic Association Track and Field Rules shall govern except as modified in this announcement regarding scoring, eligibility, events and order of events.

Open Contest—These meets are open to all members of the Association irrespective of their season's record.

Protests—All protests against teams or individuals must be made in writing and filed with the Permanent Secretary on or before May 6 at 11 a. m. Protests must be accompanied by evidence.

Entertainment—Two men for each event, four men for each relay team and a faculty manager from each competing school will be entertained by the Center Principal. Entertainment will begin if necessary at 9 a. m. Saturday, May 15, and continue if necessary to 8 p. m. Saturday, May 15. All competing schools are requested and expected to ask for no longer entertainment than is necessary. Only actual contestants and their faculty manager from each school will be entertained. Since track and field meets usually produce little revenue, all schools are requested to be exceedingly careful in their expenditures.

Expenses—An entrance fee of One Dollar ($1.00) for each team must accompany the entry blank to be retained by the I. H. S. A. A. Traveling expenses must be paid by the competing schools.

Privileges—All contestants, one rubber and one faculty manager for each team are to be admitted free to the meet.

Eligibility—The eligibility of each player must be certified to by the Principal of the school sending the team. The regular blank of the I. H. S. A. A. must be used and all data must be given. Entries
positively will close Thursday, May 6. This means that they must be in the hands of the Permanent Secretary, complete in every detail, on that date.

Admission Fee—The admission fee to all meets shall be not more than fifty (50) cents.

Prizes—Suitable ribbons shall be given to the winners of first, second and third places in each event, and to each member of the winning relay teams.

Warnings—Entries close Thursday, May 6, and can not be changed afterwards. An entry fee of One Dollar ($1.00) for each team must accompany the entry blank. Special privileges will be granted to no one. Send all entry blanks and money to the Permanent Secretary.

FINAL MEET—INDIANAPOLIS, MAY 22

Entrants—The winning relay teams and all men winning first and second places in each event in the Sectional Meets shall constitute the participants in the Final Meet, with the following exceptions: In case of a tie in first place all of the contestants so placed may enter the Final Meet. In case of a tie in second place the right to enter the Final Meet goes to the winner of the badge who is determined by lot. One entry fee and one entry blank covers both the Sectional and Final Meets.

Entertainment—The Indianapolis High Schools have contracted with the Board to entertain all actual contestants according to the plan just given above. Entertainment will begin if necessary at 8 p.m. Friday, May 21 and continue if necessary to 8 p.m. Saturday, May 22. All competing schools are requested and expected to ask for no longer entertainment than is necessary. Traveling will be at the expense of the competing schools. Since track and field meets usually produce little revenue all schools are requested to be exceedingly careful in their expenditures. Only actual contestants and the faculty manager from each school will be entertained. Simon P. Roach, Shortridge High School, is the Chairman of the State Meet Committee.

Trial Events—Trials will be held beginning at 9:00 o'clock Saturday morning in the following events: 100 yard dash, 220 yard dash, 120 yard hurdle, 220 yard hurdle, pole vault, shot put, broad jump and high jump.

Races—The following events will be run in two races in the afternoon: 440 yard run, 880 yard run and one mile run. Points and medals will be given for first, second, third, fourth and fifth place winners in each of the two races for each event. The afternoon events will begin at 1:30 o'clock.

Privileges—All contestants, one rubber and one faculty manager for each team are to be admitted free to the Meet.
Admission Fee—The admission fee to the Meet shall be fifty (50) cents.

Management—The management, protests and privileges will be governed according to the regulations pertaining to the Sectional Meets.

Prizes—The Indianapolis High Schools will award the winning school a shield or cup; the winning relay teams, plaques; and medals of gold, silver and bronze to the winners of first, second, third, fourth and fifth places in each event.

FOOTBALL

There were 90 football teams this year and the interest seemed to be increasing for this sport. The growth in the number of teams and the number of players per team throughout the State shows clearly that football is growing in favor among the High Schools in the membership. In 1922 there were only 60 High School football teams in the State. During the season of 1926 there were 3068 High School boys playing football. No State Championship has ever been decided in football in Indiana as there is no satisfactory way of deciding such a championship.

The following schools participated in football during the season:

A number of fine football fields and stadiums have been constructed in Indiana High Schools in recent years, thus providing for permanency in football in the future.

**EVANSVILLE**

The public schools of Evansville own three large athletic fields. The stadium at Reitz High School is a natural one and seats 12,000. The one at Bosse Field seats 10,000, and the Enlow stadium at Bosse High School seats 4,000 with bleacher capacity for as many more. The Enlow stadium was dedicated October 29, 1926. The field and stadium cost $90,000 and were constructed by the Board of Education. Probably no city in the country is as well supplied with stadiums as is Evansville.

**SOUTH BEND**

The Board of Education purchased a plot of 20 acres at a cost of $70,000. Probably $25,000 additional has been expended on the field and the field house. The field is enclosed by a six-foot cyclone wire fence and contains four football fields, a quarter-mile cinder track, a two hundred yard straightaway and a field house. The field was dedicated October 9, 1926.

Some of the High Schools who have constructed play-fields in past years are: Gary, LaPorte, Mishawaka, Elkhart, Goshen, Port Wayne, Peru, Lafayette, Terre Haute, Technical, Indianapolis; Marion, Elwood, Muncie and Rushville. Manual Training High School, Marion, Elwood, Muncie and Rushville. Manual Training High School, Indianapolis, received a gift recently sufficiently large to provide the school with a fine athletic field. Practically all of our High Schools are owners of adequate gymnasiums but we are not so well supplied with play-fields. The next few years should see many play-fields provided for Indiana High Schools.
BASEBALL

This sport suffers as a High School sport because the fall season is short and the spring season is short. Then, too, professional baseball has the front seat usually. In the fall the professional baseball season is coming to a close, and in the spring the High School has difficulty in competing with the professional playing.

The game was played, however, by many schools last spring, and also this fall. In several counties there were baseball leagues that scheduled games to be played during the week after school hours. Much interest was shown in these games.

The I. H. S. A. A. recognizes that High School boys have many opportunities and desires to play on independent teams during the summer months, so the following statements have been made:

High School students may play on independent baseball teams during the summer months, when school is not in session, without jeopardizing their standing in the I. H. S. A. A., providing they do not play under assumed names, and also providing they do not accept remuneration, directly or indirectly, for their playing.

Reasonable meals, lodging and transportation may be accepted by the students, if such are accepted in service rather than in money, or in some other material form. The I. H. S. A. A. expects all High School students to conduct themselves at all times in a way that will honor their High School, the I. H. S. A. A., and themselves.

These statements will enable principals to know the eligibility of their students, as a professional in one sport is a professional in all sports, as far as eligibility in the I. H. S. A. A. is concerned.
TENNIS

TENNIS IN NORTHERN INDIANA

G. G. Eppley, Secretary Northern Indiana Tennis Association.

Four years ago tennis was almost unknown in Northern Indiana. The following schools have had teams during the past year: Froebel and Emerson of Gary, East Chicago, Whiting, Hammond, LaPorte, Michigan City, Valparaiso, South Bend, Nappanee, Mishawaka and Elkhart.

Tournaments have been held within the schools for both boys and girls. Tournaments have been held with teams competing from the various schools. Complete schedules have been played by most of the schools. The Froebel High School boys’ team played ten matches with other school teams, winning all ten contests by a wide margin. The Froebel second team played two contests and won both. Many High School players of Northern Indiana have been ranked in the Western and even in the National rankings. Some of the Froebel boys have ranked near the top in both Western and National. The success of tennis in the Froebel school has been due to their basketball and tennis coach, Homer T. Orsborne, who is also president of the Northern Indiana Tennis Association.

Clubs have been formed in many of the schools. Froebel High School has a club of over one hundred boys, girls and faculty members. The fifty-cent dues paid by the members supports tennis in that school.

The growth of tennis among the school girls of Northern Indiana has also been very rapid. The Roosevelt girls’ tennis club of East Chicago organized by their physical director, Miss Evelyn Litz, has a membership of over seventy girls. At the Washington school in East Chicago Miss Bertha Wall has organized a club of over forty girls. Club tournaments were successful in each High School.

Different kinds of playing courts are used in the various towns. Gary, East Chicago and Hammond each have more than twenty tennis courts. The hard court predominates in Gary. It is in most cases under the control of the schools. Clay courts are the most popular courts at the present time. The Northern Indiana Tennis Tournament was held on the clay courts of East Chicago. These courts are considered almost perfect. The courts in East Chicago, Whiting and Hammond are mostly under the control of the Depart-
ment of Public Parks. The courts in Hammond are a combination of fine gravel and clay. Whiting has four clay courts and four courts with a marble dust finish. For all purposes each city should have at least two hard courts. The remaining courts should be clay. Much care should be given in the upkeep of tennis courts.

Tennis teams should be as large as possible. Three singles and two doubles or five singles and two doubles is advisable. There can be no tie match under these circumstances. Teams should be large enough to prevent one or two good players from winning the whole match.

Tennis is a sport unappreciated by those who do not understand the game. It is known as the game of sportsmanship. No game except basketball requires more endurance than some of our tennis matches. Tennis is a game which can be played throughout life. It is a game which is growing more popular each year.
APPROVAL OF OFFICIALS

The scheme introduced recently to use approved officials only has increased the quality of our officiating many fold. At present there are 3,000 approved officials of the I. H. S. A. A. scattered over the whole state and certified for the different sports. While approval for the most part has had to be made from recommendations yet continued approval in the I. H. S. A. A. is dependent upon the work of the official. The fact that an official has been approved does not mean that he will remain approved. Disbarment cards will be issued to officials for cause and their names will be published in our bulletins. Reports on the work of officials are wanted by the Board of Control, as it is only in this way that a good list of officials can be secured. The I. H. S. A. A. now has a list to work from, and it will take the concerted efforts of all Principals to make the list as it should be.

A number of “clinics” or conferences have been held over the state in which discussions were held regarding the rules of the games, the officiating, the rules of the I. H. S. A. A., the handling and the control of the crowds, and the rules of real sportsmanship. The results have been very encouraging. In all probability a blank contract form for officials, the amount to be supplied by the parties concerned, would assist materially in this work. We now have such a blank contract.

As the scheme for approval now stands, an approved official remains approved as long as his work is good. There is no annual certification nor annual fee for officials. The initial fee is one dollar ($1.00). The following cards are now used:

The following letter has been sent to each approved official:

To I. H. S. A. A. Officials:

The enclosed approval card is word proof that you have allied yourself with one of the biggest and best State High School Athletic Associations in the United States. A sense of modesty prevents us from claiming more for the I. H. S. A. A. We sincerely trust that you have also allied yourself with the spirit and the high ideals of this Association of nearly eight hundred High Schools. We sincerely congratulate you, therefore, on belonging, as you now do, to an Athletic Association that was founded and has been nourished on the principles of fair competition and clean amateur sportsmanship for High School boys and girls. In a very vital sense you have accepted the role of teaching young people and adults the ideals, standards and values of clean sportsmanship. You have signed a statement saying that you know the rules of the games and the rules of the I. H. S. A. A. You have also said that you will officiate according to these rules and these ideals.

Scandals have been numerous and widespread in collegiate and professional circles during the years, but the old I. H. S. A. A. has a record that is clean and unmarred. The small irregularities that have arisen have been handled as golden opportunities to spread our gospel of right relationships and clean competition. Evils have been used as stepping stones to better things. In order, therefore, that you may know and appreciate the responsibility that you have assumed, our ideals and standards with a few suggestions are here given:

IDEALS AND STANDARDS

1. The I. H. S. A. A. stands for a real physical training program for all boys and all girls, built around drills, games, competitive activities and legitimate sports, rather than around formal gymnastics or organized military training.
2. The I. H. S. A. A. stands for physical training as an integral part of the school curriculum, and athletics as an integral part of physical training.
3. The I. H. S. A. A. stands for fair competition, clean sportsmanship, real amateurism, honest dealings, no gambling, no commercialism, no proselytism, and no recruiting.
4. The I. H. S. A. A. stands for scholarship and behavior, believing that athletics and physical training should never be secondary and contributory to these things.
5. The I. H. S. A. A. stands for the training of boys and girls in such a way that will make for real citizenship in a real democracy.

SUGGESTIONS

1. The main duty of an official is to officiate in a fair, courteous, and competent manner, according to the rules of the game, and the rules of the I. H. S. A. A. Officials who lecture, pay compliments, accept and render favors, pursue salesmanship campaigns, proselytize and recruit players cover too much territory.
2. Gambling or arranging conditions so that gambling may take place has no place in the make-up of a real official.
3. The officiating of a contest in such a manner that future contracts may be secured because of favors shown, is a record that I. H. S. A. A. officials must not possess.
4. Contracts should be binding on both parties, whether verbal or in writing, but written contracts are recommended.
5. Incompetence has no place whatever in the I. H. S. A. A.
6. Respect should be secured in no other way.
7. Officials should not place themselves under obligations by accepting hospitality and favors from either side of the contest. It is wise to eliminate every argument, real and otherwise, regarding your fairness.

Your work will be watched with interest, and we trust that you will work for the best interests of the I. H. S. A. A., an Association which stands firmly for the highest ideals of clean sportsmanship. You have promised as much on your application card, and all officials will stand or fall on the basis of their records. School officials will be urged to inform us about your work, and we solicit information from you about school officials. We believe in fair dealing, and in cases of dissatisfaction officials and school authorities will be given a fair hearing.

Yours for real officiating in the I. H. S. A. A.

Permanent Secretary, I. H. S. A. A.
BRIEF HISTORY OF I. H. S. A. A.

The first attempt to organize the High Schools of Indiana in a single organization for the purpose of handling athletic activities was made in a meeting of the Northern Indiana Teachers' Association held at Richmond, in April, 1903. At this time there was a conference of High School Principals, and the conference ended with a body of suggested rules and regulations, called the Richmond Agreement. Due to the fact that there was no central organization having executive power, the Richmond Agreement did little more than point the way toward something better.

Principal J. B. Pearcy, of Anderson, issued a call for a meeting of High School Principals interested in a State Athletic organization for December 5, 1903. At this meeting a provisional constitution was adopted. At a similar meeting on December 29, 1903, a final constitution was adopted and a Board of Control of three members was chosen to administer the affairs of the I. H. S. A. A.

The first Board of Control was made up of Principals George W. Benton, Shortridge High School, Indianapolis; Superintendent Lotus D. Coffman, Salem, and Principal J. T. Giles, Marion. These men thought and planned well, and we are enjoying the fruits of their vision.

There were fifteen (15) High Schools belonging to the I. H. S. A. A., March 1, 1904, and now there are seven hundred and seventy-seven (777) High Schools belonging. The membership has had a gradual growth through the years, and now the limit is recognized as the limit in the number of High Schools in the State.

A study of the men who have served on the Board of Control through the years will show clearly that the activities of the I. H. S. A. A. have been in good hands. The titles and addresses are given as they were when the men were board of control members. A complete list of the several Board members of the I. H. S. A. A. follows:

Principal Geo. W. Benton, Shortridge H. S., Indianapolis.
Supt. Lotus D. Coffman, Salem.
Principal J. T. Giles, Marion.
Principal C. W. Knouff, Wabash.
Principal E. E. Ramsey, Bloomington.
Supt. L. N. Hines, Hartford City.
Principal Isaac E. Neff, South Bend. (Deceased).
Principal Arthur L. Trester, Alexandria.
Principal E. W. Montgomery, Mt. Vernon.

In the beginning, one member of the Board of Control served as Secretary, but it soon became very evident that this office furnished enough work for a special man. It was also seen that the future of the organization demanded that the office of Secretary be made more permanent than the office of Board Member. Accordingly, at the annual meeting in 1906 the office of Permanent Secretary was established, and Principal J. T. Giles was chosen by the Principals to be the first Permanent Secretary. Principal Giles resigned on December 28, 1912, and Principal Isaac E. Neff was chosen by the Principals to succeed him. Principal Neff resigned March 15, 1913, and the Board of Control appointed Principal Arthur L. Trester to serve as Permanent Secretary until the next annual meeting in December, 1913. At this meeting, Principal Trester was chosen by the Principals as Permanent Secretary.

The Board of Control consisted of three members, chosen by the Principals in their annual meetings, until the annual meeting of October 27, 1916. At this meeting it was decided to divide the State into five districts for administrative and representative purposes, and
that each district should have one representative on the Board of Control, chosen by mail ballot from his own district by the Principals of his district.

In September, 1925, by a referendum vote the Principals passed a legislative body proposal calling for four members from each of the five (5) I. H. S. A. A. districts. The five members of the Board of Control and the fifteen other members elected by the Principals in a mail vote constitute this legislative body. Prior to this scheme all legislation was done at the annual meeting or by referendum voting by mail. This Legislative Body of twenty members passes on all proposals submitted by the High School Principals. It is the law making body of the Association. The scheme is considered a step in advance in state administration and legislation in athletic activities.

The primary purpose of the organizers of the I. H. S. A. A. to manage and to foster High School athletics on a high plane has been held up as an ideal by the Association through the twenty years of the life of the I. H. S. A. A. New and advanced steps have been taken whenever conditions made them necessary. It became increasingly evident as time went on that the I. H. S. A. A. should assume a larger and larger initiative in real physical education for all boys and all girls, and that physical education should be interpreted in the light of other educational aims and ideals. Accordingly, the I. H. S. A. A. now has a program, not only for the managing and fostering of High School athletics, but for the stimulation of communities and schools to the end that real physical education be given all boys and all girls throughout the grades and the High School.
GYMNASIUMS

For a number of years each successive year has seen a large increase in the number of High School gymnasiums in Indiana. It has not been many years since a gymnasium in a High School in Indiana was considered a fad, a luxury and a misappropriation of money. A few of the larger High Schools had training gymnasiums for boys and girls but very few indeed were the High Schools that had gymnasiums with provisions for spectators. In several cities there were halls, armories and coliseums that were used occasionally by the High Schools in meeting the needs and desires for handling in some adequate way the element of games and sports. Since these facilities were under the direct control of persons outside of schools and since the number present at contests, although small, was usually made of non-school people, conditions were far from satisfactory. The halls were not school property and often were not under school control. The crowds were not crowds that were particularly interested in school control and in school ideals.

In recent years, however, the value of physical education and the large part that the element of play should hold in any system of physical education has made possible the building of hundreds of gymnasiums in our State. Practically all of the more than seven hundred seventy High Schools belonging to the I. H. S. A. have gymnasiums of their own or have access to such under their direct control. All new High School buildings in Indiana are provided with gymnasiums and many have been the gymnasiums added to old High School buildings or built separately on the same tracts of land.

The methods of building these gymnasiums in Indiana have been many and varied according to local financial conditions and according to how well the idea of Physical Education for all boys and all girls has been sold. The following schemes have been the most commonly used:

1. The bonding of the school city for an addition to the existing building to include school class-rooms and a gymnasium.

2. The bonding of the school city to cover a part only of the cost, the remainder to be secured by donations without any expectations of a return.

3. Money raised by popular subscription and interest-bearing notes given by the building committee or holding committee to be met out of gate receipts through a series of years.

4. Donations of considerable amounts by one or a few citizens.

Of course, these schemes have taken on different aspects in different communities but in all cases there has been a new and encouraging alignment of the schools and the citizens. Cooperation of a new type has been brought to the front and communities have found perfectly legitimate ways to build gymnasiums to serve as integral units of the school system and of community welfare.
In the building of these gymnasiums in our State their multiple use for school purposes and for community purposes has been kept in mind. As a result we find these buildings should be designated as community buildings rather than school gymnasiums. They serve in a very real and a much needed way the demands of the schools for physical education, for auditorium work and for classroom activities and the demands of the community for an auditorium to accommodate meetings of large numbers as well as for play purposes for adults when not used by the schools. A fine spirit of adjustment between the school and the community has been necessary and has been prevalent. The inter-relationships of the school and the community have been brought to the front and good has resulted to both parties. Community and school welfare have been fostered in such a way that the school claims and supports the community and the community claims and supports the school. In truth the school should be shown to be what it was intended to be, a part of society set aside to do some of the work necessary for society but which society can not do as a whole. Furthermore, it has been shown that school is not something aside from society but the school is an integral part of society.

It is very evident at the present time that the following principles should be kept in mind in the construction and use of gymnasiums and playfields for schools and communities. These principles will not apply in all communities alike as conditions are very different in different communities. Needs in one place would mean luxuries in another place and vice versa, but in the main these principles will be found worthy for study and planning:

1. Provision for buildings, playfields and teaching personnel should be made for all boys and all girls in our schools to the end that physical education of the right type may be given as a regular and an integral part of the school program.

2. Provision for the accommodation of spectators should be made in all gymnasiums and on all playfields. Spectator ship is not a disease but a training medium for the young and the old when properly conceived.

3. Gymnasiums and playfields should be considered not only as facilities for physical exertion and maneuvering but as laboratories for mental, moral, physical and social training for the participants and the spectators.

4. Gymnasiums and playfields should serve the school population with their numerous needs and demands first of all and then should be opened to the adult population for civic, social and recreational purposes throughout the entire year.

5. The teaching personnel should be chosen with the greatest care and should be adequate as to numbers. Physical education for all means not a few but many trained leaders.

6. The work of the school during the school year in gymnasiums and on playfields should merge into the recreation and playground work of the summer and the summer work should dovetail into the work of the school in the fall. In other words an all year program, preferably under the same supervision and administration, is necessary and desirable in all communities.

7. The training of all and the exploitation of none should be the guiding principle underlying all of this work.

8. The introduction of games and sports rather than the stressing of formal work is highly important. We are rapidly moving from the idea of effort to the idea of interest in all physical education work.

9. The element of competition and the idea of winning are legitimate and should be encouraged but we must stop short of the "win at any cost" ideal because nobody wins and everybody loses under such an ideal.

10. "Gambling" is not an athletic activity and has no place on the program of physical education. Gymnasiums and playfields must not provide shelter and seats for the money changers. They do not deserve standing room.

11. Gymnasiums should be arranged for a number of games such as handball, baseball, volleyball, etc., and for the administration and supervision of physical examinations, tests, remedial work and the more meaning-ful elements in the formal types of physical education work. Apparatus and equipment should be such as will be used for actual and workable results. Locker rooms, toilet rooms, shower rooms, dressing rooms, inspection rooms, etc., should be carefully planned.

12. Basketball is the game that is played as much or more than any other indoor game and the I. H. S. A. A. has established, by custom and practice, a playing court for this game having dimensions of 50 ft. by 70 ft. between the baskets with from 5 ft. to 10 ft. extra on the ends and sides. Such a floor can be used for a number of team games such as volleyball, tennis and indoor baseball. Some indoor track and field work can be done also.

In the following paragraphs will be given some information regarding some of the gymnasiums of the State. Pictures of these buildings will be found in this book and detailed information about the buildings, their construction and use may be secured by writing to the High School Principals.

LOGANSPORT GYMNASIUM, 1926

The plan for financing the construction is in brief as follows:

A stock company known as the Logansport Gymnasium Corporation was incorporated under the laws of the State and sold one thousand and fifty-one hundred dollar shares of six percent stock, non-taxable, to construct the gymnasium. The directors of this association are the Superintendent of Schools, the High School Principal, the President of the School Board and six business men.
A contract was entered into between the Gymnasium Corporation and the School Board whereby the School Board leased the building for ten or fifteen years paying an amount, decreasing as the stock is paid off, equal to six percent of the outstanding stock for the use of the building.

The gross receipts from the games are to be divided in the ratio of sixty to forty. Sixty percent of the gross receipts go to pay off the outstanding stock, forty percent to the support of high school athletics. At the end of ten years the Board of Education will have the option of retiring the outstanding stock or of letting the outstanding stock run five more years, at the end of which time, the School Board retires the stock and the building becomes the property of the School City.

The building is "stadium" in form with wooden seats mounted on reinforced concrete steps. Seventeen rows of seats surround the playing floor. The playing floor is 50x75 feet with four feet out of bounds on sides and ten feet on ends. Seating capacity, 4,000, seating and standing 5,000.

The vocational work of the school will be housed in this building in the rooms under the permanent bleacher seating.

VINCENNES COLISEUM, 1926

The building was constructed by a corporation of school and business men incorporated as the Vincennes Public School Athletic Association. The building, excluding the heating system, cost $100,000. The school city installed the heating plant at a cost of $15,000. Portable bleachers, light fixtures, electric score boards, etc., were installed by high school organizations. The Vincennes Kiwanis Club installed a three manual Mohler pipe organ. Another interesting feature is a panel of bricks, each brick labeled and representing the Indiana city or town which contributed it to the Coliseum. In the collection are several bricks of historical interest.

The building is constructed of steel, concrete, brick, and wood, with exterior stone trimmings. The outside dimensions are 176 feet in length and 140 feet in width. It has five entrances and exits and is so arranged that 80 percent of the crowd can reach their seats without going onto the playing floor. The total seating capacity is 6,000. There are 414 opera chairs, and the other seats consist of permanent and portable bleachers built entirely around the main floor.

There is a portable stage 52x24 feet. A clear coliseum space of 125x30 feet can be obtained by removing the portable bleachers and the stage. The basketball playing floor is 50x74 feet. Space under the permanent bleachers provides for trophy room, physical director's office, ticket offices, three shower rooms, official's room, kitchen and serving room, ladies room, checking room and class rooms.
HANDLING ATHLETIC FINANCES

One of the most important duties of a High School Principal is the proper handling of the funds of the extra-curricular activities of his High School. Gate receipts must be efficiently collected, honestly accounted for and judiciously expended. It is not only good business to have a definite policy regarding financial affairs in extra-curricular activities but it means much to handle all such affairs in such a way that no cloud of doubt and suspicion has a chance to raise its head.

It seems absolutely necessary that all High Schools have a financial accounting system for extra-curricular activities that is adequate in completeness, accuracy and clearness. The High School Principal, as well as others concerned, can form a very good notion of what is being done in extra-curricular activities if the books concerned with the receipts and expenditures are well kept and easily available. Even a hasty examination of the finances sometimes will readily furnish the High School Principal with a guiding control that is valuable in many ways in his administration of the activities within his High School.

The following scheme is outlined with the idea in mind that it may prove helpful in some places. The scheme can be adjusted to suit the peculiar problems of each High School.

In all High Schools of whatever size there should be a member of the faculty chosen and designated by the school authorities as a financial secretary and treasurer to handle all extra-curricular activity funds. This person should be chosen with care, instructed with care and then held to strict account for all receipts, expenditures and reports. In all probability this financial treasurer and secretary should not be an athletic coach as such men have enough to do to coach the athletic teams. Then, too, the salary and expenses of the coach should bear no relation to the gate receipts. He should be employed as a regular teacher in the regular way by the school trustees and should be paid out of school funds as other teachers are paid.

The financial secretary and treasurer should be under bond and the bond should be paid for out of the funds handled. He should be available at certain hours of each day for the work under discussion and he should be given adequate time to do his work well and on time. Lack of time should never be a valid excuse by the financial secretary and treasurer as he should be given time to do his work. An adequate system should be established suitable to the funds, the school and the activities so that all accounts will be available, auditable and ready for report making at any time. The system need not be intricate nor complex. It should be simple yet ample for all needs. The scheme as suggested can be adjusted and modified to suit High Schools of different sizes and having few or many extra-curricular activities. It will work for athletic funds alone.

One book, loose-leaf or otherwise, arranged with columnar sheets so that the proper headings can be written should be provided. All money should be kept in one fund in the bank and the account should be entered in the name of the High School Extra-Curricular Fund. Interest accruing should be distributed according to the activities. Since there is one fund, it will be necessary to provide space in the first pages of the financial book for a controlling account and spaces for activity accounts such as athletics, class play and orchestra. The
MINUTES OF MEETINGS OF BOARD OF CONTROL

Indiana, Ind.
Nov. 20, 1925

The Board of Control met in the Claypool Hotel, Indianapolis at
seven (7) o'clock Friday evening, November 20, 1925. With the
exception of Coach John Adams, all members of the Board and the
permanent Secretary were present.

The Junior High School question was discussed and it was de­
decided to continue the policy of considering ninth year students eligible
for either but not for both the Junior and the Senior High School
teams during a sport season with the understanding that a 9A stu­
dent, being regularly promoted to the 10B class at the end of semester
one could play on the Junior High School teams while in the 9A class
and then play on the Senior High School teams when promoted to the
10B class.

Knightstown—Cyrus Boyer carried General Science in High
School in 1921-1922 receiving credit in eighth grade Physiology for
his work.

Decision:—The credit considered a grade credit and not a
High School credit.

Franklin—Lawrence J. Tidrick, an approved official in the I. H. S.
A. A., wrote a letter to a Principal. A reasonable interpretation of
the letter clearly indicated a bent attitude regarding the proper way
to secure games.

Decision:—Referee placed on probation as an approved of­
icial in the I. H. S. A. A. until June 1, 1926.

Rensselaer—During some celebration ceremonies on Monday
morning, November 16, about one hundred Rensselaer High School
students made the trip to Kentland High School without permission
from Rensselaer or invitation from Kentland. Some of these students
entered the Kentland High School but complied with a request from
Superintendent Roudeush to leave the building.

Decision:—Rensselaer High School placed on probation un­
til June 1, 1926 and Principal Clearwaters instructed to read the
following statement to the Rensselaer High School student body
and to the Kentland High School student body on or before Mon­
day, November 30, 1925:

"The Board of Control of the I. H. S. A. A. deeply deplores
the conduct of about one hundred (100) of the High School
students..."
students of the Rensselaer High School in their extension of their celebration activities to the Kentland High School on Monday, November 16, 1925. These students had no excuse nor right on the basis of sportsmanship or on any other basis to make such a trip and such conduct places a blot on the fair name of the I. H. S. A. A. and the 780 High Schools composing the association.

In addition to the penalties assigned by the school authorities and parents of Rensselaer, the Board of Control of the I. H. S. A. A. places the Rensselaer High School on probation in the I. H. S. A. A. until June 1, 1926 and instructs Principal Clearwaters to read this statement in full to the Rensselaer High School student body and to the Kentland High School student body on or before Monday, November 30, 1925.

Slight violations of the rules and regulations of the I. H. S. A. A. by the Rensselaer High School will seriously jeopardize the standing of this school in the I. H. S. A. A."

Sheridan-Noblesville—A football game was scheduled at Sheridan for Friday, October 30, 1925 and the officials had been agreed upon. The teams were ready to play and the officials were absent due to a misunderstanding about the date of the game. Noblesville withdrew her team as an agreement could not be reached about the use of approved officials in the crowd. An “agreement” was reached in conference afterwards to play the game on November 25, 1925. Some questions arose after the “agreement.”

Decision:—“Agreement” for game between Sheridan and Noblesville November 25, 1925 considered binding and game ordered played accordingly.

Laporte—Coach Leitzman presented by letter the proposition of an I. H. S. A. A. Honorary Athletic Fraternity for High School students.

Decision:—The Board considers the scheme all right for individual schools but believes that it should not be made a State matter.

Moores Hill-Lawrenceburg—Principals of Moores Hill reported officiating of L. F. Ackerman of Washington as too loose in a basketball game. Letters from all parties submitted.

Decision:—Referee Ackerman warned and instructed to follow the rules in all games.

Harrison County—Practically all, if not all, of the High Schools in the county have violated some rule of the I. H. S. A. A. The violations have been: (1) Using officials not approved, (2) Playing eighth grade boys on High School teams, (3) Playing boys who played on teams other than the High School teams, and (4) Playing boys whose scholarship was below the I. H. S. A. A. standard.

Decision:—All schools in the county placed on probation until June 1, 1926 with the understanding that slight violations of
the rules of the I. H. S. A. A. will jeopardize their standing in the association and with the further understanding that all of the Principals of the county shall have a meeting to study carefully the rules of the I. H. S. A. A. on or before Saturday, December 5, 1925 and shall report the results of the meeting to the Permanent Secretary with questions regarding any of the rules on or before Wednesday, December 9, 1925.

Richmond—Scott Porter played football when ineligible due to enrollment.

Decision:—Principal Cline instructed (1) to send explanatory letters to the opposing Principals in all games in which the boy played while ineligible, (2) to forfeit all games to the opposing Principals, and (3) to request all opposing Principals to inform the Permanent Secretary that such a letter has been received.

Anderson—Sharon Roighard played football when ineligible due to scholarship.

Decision:—Principal Weidler instructed (1) to send explanatory letters to the opposing Principals in all games in which the boy played while ineligible, (2) to forfeit all games to the opposing Principals, and (3) to request all opposing Principals to inform the Permanent Secretary that such a letter has been received.

Hope—Roland Hitchcock played basketball when ineligible due to enrollment.

Decision:—Principal Roberts instructed (1) to send explanatory letters to the opposing Principals in all games in which the boy played while ineligible, (2) to forfeit all games to the opposing Principals, and (3) to request all opposing Principals to inform the Permanent Secretary that such a letter has been received.

New Castle—The New Castle Courier requested that the Board permit a contest of some kind to select the best and best spirited athlete in the county.

Decision:—Board affirms all former decisions that contests, prizes and awards concerning athletes should be strictly under High School auspices.

Deaf and Dumb School (Indianapolis)—This school applied for membership in the I. H. S. A. A.

"The I. H. S. A. A. rules governing the playing of basketball by players and teams were intended to provide sufficient basketball and to furnish uniform standards for all members of the I. H. S. A. A. These rules not only cover the playing season and the number of games but they specify the penalty for violation.

The interim between the sectional tournneys and the final tournney should not be considered as a time for violations by players and teams even if the season is closed. High School players and teams jeopardize their own standing and the standing of their High Schools by playing on teams other than regularly organized and officially managed High School teams at any time during the season.

The basketball season for all players and all teams ends on the final day of the state final tourney and the basketball season for all teams and all players ends with the end of the season in the school.

All of these statements apply to inter-school or inter-institution games and not to intra-school games."

---
regular I. H. S. A. A. contracts were signed by Principal Harris for the South Side High School. All contracts for all of the sixty-four sectional tourneys and the eight regional tourneys have the same wording. The tourneys were held under I. H. S. A. A. auspices and control.

Principal Harris included an item of "Personal Service" to the amount of $25.00 in his sectional tourney report and an item of "Personal Service" to the amount of $50.00 in his regional tourney report. Mr. Harris was informed, upon receipt of each report, that in all probability the items for "Personal Service" would not be sanctioned by the Board of Control, whose duty it was, according to contract, to pass on all reports. It was also suggested to him that he make the proper distribution of the money in question according to contract and according to the I. H. S. A. A. report forms furnished him.

The proper distributions were not made by Principal Harris and the case was presented to the Board of Control on Saturday, March 27th, 1926. Principal Harris was instructed by the Board of Control to make the proper distributions on or before Saturday, April 3, 1926. Bulletin Number XI, dated April 8, 1926 carries the decision in full. Such distributions were not made and Principal Harris informed the Permanent Secretary, in response to an invitation to present his case to the Board of Control at one o'clock on April 24 in the Claypool Hotel, Indianapolis, that he had no case with the Board of Control.

Decision—South Side High School (Fort Wayne) suspended from the I. H. S. A. A. until April 24, 1927 and further until the decisions of the Board of Control of the I. H. S. A. A. regarding the distribution of the items for "Personal Service" are met in every way.

The Permanent Secretary was instructed to make the necessary distributions and settlements with the visiting schools at once so that all future settlements will be made with the I. H. S. A. A. The Board of Control considers this case an I. H. S. A. A. case and not a case between schools as far as settlement is concerned.

G. G. EPPLEY, President.

BOARD OF CONTROL MEETING

Indianapolis, Indiana, May 22, 1926.

The Board of Control met at ten o'clock in the Claypool Hotel, Indianapolis. Members Eppley, Baird, Adams and Fortner, and the Permanent Secretary were present.

The Brook Tourney was reviewed and no cause for action by the Board of Control was found.

Frankfort—Principal Howard reported on April 29, 1926 that Aaron Lucas played basketball after the State Tournament. The boy was used in track meets with Logansport and with Lebanon and Monticello.

Decision—Principal Howard instructed to forfeit all points made by Aaron Lucas in the above track meets to the opponents, requesting the opposing Principals to notify the Permanent Secretary that such information had been received.

Aaron Lucas declared ineligible for all spring athletics in 1926 and for basketball until January 1, 1927.

Clifford-Mt. Auburn—This case concerned the damage done to some clothing belonging to the players on the Clifford basketball team by some acid from the storage cells for lighting purposes in the dressing room at Mt. Auburn. The evidence showed that the happening was purely accidental and that both parties were placed in similar positions as far as expense is concerned.

Decision—Each school pay its own expenses caused by the accident.

Each member of the Board was given a copy of the Auditor's Report of the I. H. S. A. A. by Ernst and Ernst, Certified Public Accountants.

G. G. EPPLEY, President.

MINUTES OF BOARD OF CONTROL MEETING

Indianapolis, Ind., Sept. 10, 1926.

The Board of Control met in the Claypool Hotel, Indianapolis at eight (8) o'clock Friday evening, Sept. 10, 1926. All members and the Permanent Secretary were present.

Milroy—Lowell Moore, a student in the Milroy High School, was declared ineligible for all High School athletics on December 31, 1925 for 1925-1926 with the understanding that his status would be decided by the Board of Control before he could be considered eligible in any future school year in High School.

Decision—The Permanent Secretary was instructed to declare the boy eligible as far as the former suspension is concerned, upon the proper application from him and his present High School Principal requesting re-instatement.

Fort Wayne (South Side High School)—Superintendent L. C. Ward appeared before the Board of Control and asked for reinstatement of the South Side High School in the I. H. S. A. A. on the grounds that the conditions in the school were being made to conform to I. H. S. A. A. rules and regulations.

Decision—Former decisions of the Board of Control affirmed.

The program of the annual meeting was considered and it was decided to substitute for the financial report usually made at this meeting the printing of the audit by Ernst & Ernst, Certified Public Accountants of Indianapolis.

Discussion was given to ways of lessening the strenuousity of basketball tourneys and of improving the whole tourney scheme.

   University of Wisconsin.

III. Some Phases of Physical Education.
   Dr. Jas. Naismith,
   Director Physical Education for Men,
   University of Kansas.

The addresses were excellent and evidently were appreciated by the 800 or 900 men and women present. Many favorable comments were made by the Principals regarding the quality of the talks and the character of the program. Such meetings not only set us to thinking seriously about Physical Education and Athletics, but they elevate our standards regarding our activities in this work.

The Permanent Secretary would appreciate your suggestions for the program next year. If you know of some good speakers, kindly send their names and addresses. If the character of the meeting needs to be changed in any way, suggest the changes soon. It has been suggested that the Physical Education section and the I. H. S. A. A. section meet together next year. This should prove profitable to both sections.

MINUTES OF I. H. S. A. A. BOARD OF CONTROL MEETING
Indianapolis, Ind., October 21, 1926.

All members and the Permanent Secretary were present.

Columbus—Orrill Jordan, an eighth grade student, played basketball on the Newburn High School team during the school year 1922-1923.

Decision—The participation of Orrill Jordan in 1922-1923 counts as one year of High School participation in basketball.

Crown Point—Principal Grinstead used Clyde Patterson and Orval Oram in a game of football with East Chicago on September 18, 1926; and also used Clyde Patterson in other football games this season. These boys withdrew from the Crown Point High School on April 16, 1926 and did not make up the work of that semester prior to the opening of the present semester of school.

Decision—The Crown Point High School suspended from the I. H. S. A. A. until June 1, 1927. Clyde Patterson and Orval Oram ineligible until they have passed in three regular High School subjects for one entire semester.

Edinburgh—Louie Hamner enrolled in the Waldron High School this semester, received work assignments and remained there two days. He then enrolled in the Mt. Auburn High School, a school which he had formerly attended.

Decision—Louie Hamner ineligible in the Mt. Auburn High School until he has been enrolled there for one entire semester. This requirement can not be met until the end of semester two of the present school year.

Farnam—Darrel Stump enrolled in the Ridgeville High School this semester and withdrew October 7, 1926. He then entered the Farnam High School, his parents having moved to Michigan.

Decision—Darrel Stump ineligible in the Farnam High School until he has been enrolled there one entire semester. This requirement can not be met until the end of semester two of the present school year.

Hopewell—William Sharp enrolled in the Franklin High School this semester. He then entered the Hopewell High School on the first day of the semester.

Decision—William Sharp ineligible in the Hopewell High School until he has been enrolled for one entire semester. This requirement can be met at the end of semester one of the present school year.

Hartford City—Joseph Ellis entered the Hartford City High School in March, 1926 from Spencer. The father purchased an elevator and mill in Hartford City. Mr. Ellis, Joseph and another son went to Hartford City at that time and have been living there since that time. The mother is in a hospital in Indianapolis.

Decision—Joseph Ellis eligible for athletics in the Hartford City High School due to a change of residence of his parents to Hartford City.

Henryville—James Sauer entered the Jeffersonville High School this semester. He then entered the Henryville High School on the first day of the semester.
Decision:—James Sauer ineligible in the Henryville High School until he has been enrolled one entire semester. This requirement can be met at the end of semester one of the present school year.

Leesburg—Harold Mendell and Charles Miller finished the two-year course in the Guilford, Dearborn County High School last year and entered the Leesburg, Kosciusko County High School this semester. They are making their home with Principal Curtis while in Leesburg.

Decision—Harold Mendell and Charles Miller ineligible in the Leesburg High School until they have been enrolled one entire semester, as there is a four-year High School in the township in which Guilford is located. The eligibility status of these boys for semester two will be decided later.

Mount Vernon—Francis Deig attended several classes at the Reitz Memorial High School, Evansville this semester, having attended the Mount Vernon High School last year. He then entered the Mount Vernon High School.

Decision:—Francis Deig enrolled in the Reitz Memorial High School this semester and, therefore, will not be eligible in the Mount Vernon High School until he has been enrolled one entire semester. This requirement can not be met until the end of semester two of the present school year.

Muncie—Charles Secret entered the Muncie High School this semester from New Castle due to a change of residence of his parents to Muncie. The boy passed in only two subjects in the New Castle High School during the second semester of 1925-1926. During the summer he received an outline from a teacher in Commercial Geography, an entirely new subject for him. He passed an examination on the work prior to the opening of school this semester, but he did not meet the teacher regularly during his work in the subject.

Decision—The credit given the boy in Commercial Geography at New Castle is not considered a credit made in the regular manner and, therefore, can not be counted toward eligibility.

Petersburg:—Lewis Foreman entered the Lawrenceville, Illinois High School this semester, attended there eight days, his parents then living at Allendale, Illinois. He then entered the Petersburg High School, which he had formerly attended, the parents returning to Petersburg October 15, 1926. The boy played in a game of football prior to the return of the parents to Petersburg.

Decision:—Lewis Foreman ineligible in the Petersburg High School until the end of semester one of the present school year.

The Board adjourned to meet at the Fowler Hotel, Lafayette, Indiana at 10:00 o'clock Saturday morning, November 29, 1926.

Statistical Health Data in Games.

Lee Baird, Muncie.

The consensus of opinion among the Legislative Body Members was that some of the proposals had much merit but that they should not be passed as worded nor until complete information is secured and careful study is given to them.
FUTURE PROCEDURE

MINUTES OF I. H. S. A. A. LEGISLATIVE BODY CONFERENCE

Claypool Hotel, Indianapolis, Sept. 11, 1926

Meeting called to order at ten A.M. by President Lee O. Baird.

Roll call showed the following Legislative Body Members present:

District No. II—Ray Kuhn and D. F. Mitzner. (Paul Buroker and C. F. Albaugh were absent at roll call but were present later).

District No. III—L. E. Michael, Waldo Wood and J. Ord Fornier. (George Reitzel was absent at roll call but was present later).

District No. IV—L. A. Lockwood, Harlie Garver, Don Essex and Lee O. Baird.

District No. V—R. C. Puckett, Harold Axe and C. W. Deckard. (John Adams was absent at roll call but was present later).

The President made a few statements concerning the fact that the conference was for discussion purposes and not for legislation, as a meeting for legislation was scheduled for October.

The Claypool Hotel, Indianapolis at eight (8) o'clock Wednesday evening, October 20, 1926 was set for the legislative meeting of the Legislative Body.
I. H. S. A. A. LEGISLATIVE BODY COMMITTEE REPORT ON
INTERPRETATIONS REGARDING MEMBERSHIP ON
LEGISLATIVE BODY

I. High School Principals, Faculty Members and Superintendents
are eligible for election to a place on the Legislative Body.

II. Members of the Legislative Body are eligible for re-election
to the Legislative Body and for election to the Board of Control at
the expiration of their terms.

III. Board of Control members are eligible for election to the
Legislative Body at the expiration of their terms.

IV. No member of the Legislative Body or the Board of Control
shall be eligible for a longer term on the Legislative Body than the
one he is serving until the expiration of his term.

V. Removal from an I. H. S. A. District, withdrawal from the
teaching profession or a lapse of membership in the I. H. S. A. shall
constitute a vacancy and in such cases the remaining members of the
Legislative Body shall choose a member from the district wherein the
vacancy exists to serve until the member chosen at the next election
for the unexpired term assumes office.

VI. In all elections in a district in which two or more members
are to be elected the candidate receiving the largest number of votes
shall be elected for the longest term, the one receiving the second
largest for the second longest term and the one receiving the third
largest for the third longest term."

It was decided that Roy Roudebush, Superintendent of Schools at
Kentland when elected to the Legislative Body and now Asst. Super­
tintendent of Public Instruction, automatically lost his place on the
Legislative Body. A member to fill his place will be chosen by the
Principals at the next election in December.

The Proposals submitted by the Principals and printed in Bulletin
Number III were carefully considered and the following legisla­
tion was made:

I. A committee of three members of the Legislative Body of the
I. H. S. A. shall be appointed by the President to make a study of
the physical effects of the 1927 state basketball tournament on the
individual player. The expenses incurred in this study are to be paid out
of the funds of the I. H. S. A. as approved by the Board of Control.

(NOTE—R. C. Puckett, Chairman, Evansville, L. E. Michael,
Clinton and C. F. Albaugh, LaFontaine were appointed by the
President to serve on this committee).

II. On and after January 1, 1927 a student, who participates in
any interscholastic football, basketball or track contest, shall have on
file in the Principal’s a certificate of physical fitness and a certificate
giving the written consent of the father, mother or guardian for such
athletic participation as is specified therein. The physical examination
shall be made during the season of each of the three sports by a
regularly licensed physician.

Previous to the participation, the Principal shall certify to the
I. H. S. A. A. that the certificates required in this proposal are on file
in his office.

This proposal shall repeal sections 1 and 2 under Football Certifi­
cates in the Constitution.

III. The President shall appoint from the Legislative Body two
members to serve with the Secretary on a committee, the purpose
of which shall be to develop a uniform system of accounting which shall
be applicable to athletics and other school activities and flexible
enough for use in any size school. Directions for use of the system
should be included with the books, which shall be printed by the
committee and distributed at actual cost of printing to such princip­
als as desire to use them. The committee shall be allowed a budget
of $200.00 for use in planning the accounting system.

(NOTE—George Reitzel, Chairman, Danville and Harlie Gar­
er, Union City, were appointed by the President to serve on this
committee.)

IV. In connection with the consideration of the Junior High
School question it was decided to appoint a committee of three mem­
bers of the Legislative Body to study it and report the findings at
the meeting of the Legislative Body in October, 1927.

(NOTE—J. Ord Fortner, Chairman, West Terre Haute, D. F.
Mitzner, Bluffton and L. A. Lockwood, Rushville, were appointed by the
President to serve on this committee.)

The Legislative Body went on record as being opposed to summer
camps for football players, as such training makes for unfair com­
petition in that many schools cannot afford to give such work.

The policy of the Board of Control in requesting schools to limit
the giving of prizes and awards to athletes was heartily sanctioned
by the Legislative Body. Although no rule was passed, it was very evi­
dent that the members agreed that the giving of prizes and awards
should be kept within the hands of the school authorities and should
be limited to prizes and awards having symbolic value rather than
intrinsic worth.

It was decided that the I. H. S. A. A. should assist groups in every
reasonable way to improve the work of game officials by conferences
and demonstrations.

President Lee O. Baird was selected by the Legislative Body to
present the actions of that body to the Annual Meeting at ten o’clock
on October 21, 1926.

The meeting adjourned to meet at the time of the State Teachers’
Association in Indianapolis, October 1927.

LEE O. BAIRD, President.
ARTHUR L. TRESTER, Perm. Sec'y.

QUESTIONS AND ANSWERS REGARDING
THE I. H. S. A. A. RULES AND REGULATIONS

In order that the rules and regulations of the I. H. S. A. A. may be as clear as possible, it has been thought advisable to print for general distribution these questions and answers. The correspondence of the Permanent Secretary has been gone over carefully and has furnished these questions and answers almost entirely. The questions are real ones, as they have been asked by High School principals, coaches, superintendents, teachers and school board members, who are on the firing lines in their respective communities and schools. The answers have been given according to the rules of the association and the interpretations of the Board of Control. It is hoped that this bulletin will clarify our rules and regulations, as well as establish working ideals and policies for the I. H. S. A. A.

We must remember, however, that the letter of printed rules and regulations will not suffice. The following appeared in Bulletin VII, November 27, 1922, and is given here so that it may permeate all that we do:

"THE SPIRIT MAKETH ALIVE. The rules and regulations of the I. H. S. A. A. have been couched in words meant to secure loyal and fair-minded support of her members for clean sportsmanship, honest dealings and fair play, but these rules can be evaded if the spirit as well as the letter is not observed. School officials may grant credits for work not done, may neglect to investigate records, may mutilate and even destroy records, may change the regular schedules for the ending of one semester and the beginning of the next, and may do many other things without violating the letter of the rules and regulations of the I. H. S. A. A., but such can not be done according to the spirit of the high ideals of the I. H. S. A. A. No school official is a loyal supporter of the association who practices such things, and students in the care of such officials surely learn to live by fraud and deceit. The I. H. S. A. A. never attained its present high standing by such practices. If it were not for the fact that the large majority of the members of the I. H. S. A. A. live not only according to the letter, but also according to the spirit of her rules, she would die by suicide. We, as school officials, must be honest in our dealings, if we intend to secure honesty in boys and girls. Clean athletics follows clean coaches and clean school officials. Boys and girls deserve real leadership. There is no vitality in rules and regulations. The spirit alone maketh alive."
