A MESSAGE TO THE INDIANA HIGH SCHOOL ATHLETIC ASSOCIATION

By
William R. Curry, President, Board of Control

Since the founding and organization of the Indiana High School Athletic Association in 1903 by a group of High School Principals, this association has earned a reputation for being firm but fair in the supervision and administration of the high school athletic programs of this great state.

Under the astute guidance of past commissioners, our present professional staff and the many members of Athletic Council and Board of Control, both past and present, this association has moved steadily forward to promote better athletic programs for the youth of Indiana. These people have given unselfishly of their time and talents to make the I.H.S.A.A. what it is today.

Today the I.H.S.A.A. is being challenged on many fronts. This challenge is not peculiar to the I.H.S.A.A. alone, but includes most other areas of authority where decisions must be made and some do not like the answer they receive.

It is incumbent on all of us to do all in our power to support the I.H.S.A.A. and to keep the control of high school athletics in the hands of people who understand it best, educators. Again, of course, we must recognize that not everyone is in agreement with everything that is done but we must keep everything in proper perspective, recognizing that without control of the high school athletic program by school oriented individuals, athletic programs will degenerate into utter chaos.

In recent years the I.H.S.A.A. has made more positive and substantive changes than any similar period in its history. Some of these are: Extensive use of advisory committees made up of coaches, principals and athletic directors; increase in number and improvement of State Championship Series, including, but not limited to, baseball and football; recognition of need for girls athletic programs; permitting high school coaches to coach “All Star” teams; bringing academic requirements more into line with today’s curricula. These, along with many others, are designed to keep the I.H.S.A.A. in a position to meet the needs of today and anticipate those of tomorrow.

We in the school-community of Indiana have expected and received the unqualified support of the I.H.S.A.A. in our endeavor to provide quality athletic programs. For us to give the I.H.S.A.A. anything less would be a gross dereliction of duty on our part.

With this in mind I feel sure that we can move ahead with what is already an outstanding high school athletic program to make it the best in the nation.

CONSTITUTION OF

INDIANA HIGH SCHOOL ATHLETIC ASSOCIATION

Preamble

The principals of the secondary schools of Indiana recognizing the need for a voluntary association of schools to plan, organize and regulate a wholesome, amateur program of interschool athletic competition in which school members of such association would participate, hereby consent and agree to establish the following as the Constitution of the Indiana High School Athletic Association.

Article I — Name

The name of this association shall be the “Indiana High School Athletic Association.” (The abbreviation of this name is understood to be “IHSAA.”)

Article II — Purpose

The purpose of this Association shall be to encourage, regulate and give direction to wholesome amateur interschool athletic competition between the schools who are members of the Association. All such interschool athletic competition coming under regulation by this Association shall be subordinate to and complementary to the academic or curricular functions of the member schools which are their primary purposes. To assure that the program of interschool athletic competition remains steadfast to and complementary to the academic or curricular functions of education of the member schools, the Association shall cooperate with agencies vitally concerned with the health and educational welfare of secondary school students; furnish protection against exploitation of member schools or their students; determine qualifications of individual contestants, coaches and officials; and provide written communications to establish standards for eligibility, competition and sportsmanship.

Article III — Membership

Section 1.

a. All Memberships Are Voluntary. Any secondary school in the state may become a member of this Association by meeting the requirements, by subscribing to these rules and regulations, and by paying the annual dues of one dollar and fifty cents ($1.50) to the Commissioner on or before September 15 of each year. Memberships expire on September 15 of each year unless the annual dues are paid.
b. Any member that is at any time unable to voluntarily comply with any and all rules and regulations and final decisions of the Association, its officers or representatives, by virtue of any order or injunction issued by any court without a hearing, is automatically suspended from membership for the duration of such disability.

c. If at any time the Association, its officers or representatives are prohibited or restrained from carrying out any rule, regulation, decision or action of or for said Association in relation to any member by order or injunction issued by any court or action of any intervening authority without a hearing, such member, in relation to which the Association, its officers or representatives, are so prohibited or restrained is automatically suspended from membership for the duration of such prohibition. When a membership has been suspended the school affected shall be considered as not belonging to the Association. All game and officials' contracts shall be null and void as far as this Association is concerned. The principal of the affected school must make a written request for reinstatement. Approval requires Board action.

d. Any suspension from membership under Section 1b or 1c shall continue until such time as written evidence is received by the Association showing that:
1. The suspended school and the Association, its officers and representatives, are again free and able to exercise their own free will and volition without restraint or direction from any authority, or
2. The case is dismissed after a hearing, or
3. After a hearing the court orders otherwise.

Section 2.

Full membership in this Association shall be open to all public, private, parochial, and institutional high schools of the state offering and maintaining three or four years of high school work, provided they meet the requirements of the Association and also subscribe to its rules and regulations. A school to be eligible for membership in the IHSAA must be accredited by the State Department of Public Instruction.

Section 3.

Preparatory membership may be extended to any school accredited by the State Department of Public Instruction offering and maintaining school work on the ninth and tenth or tenth grade level with the understanding that such preparatory membership shall extend the privilege of participating in single athletic games, contests, tournaments and meets with other preparatory members. Teams from preparatory members composed of ninth and/or tenth grade students may compete against teams composed of ninth and/or tenth grade students from full members and junior members composed of ninth grade students in single games, contests, tournaments and meets without special restrictions as to the number of teams entered, trial runs, or geographical location within the state.

Such schools are not eligible to enter teams in state tournaments or meets. It must be clearly understood that a preparatory membership is a membership in the Association that requires the principal to subscribe to all of the rules and regulations of the Association. It is further understood preparatory membership is available only to schools that will become eligible for full membership within a two year period. At the end of the two year period the preparatory membership will be reviewed by the Board.

They may receive tickets for the state final championship basketball tourney and other state final meets at the discretion of the Board.

Students may participate on the following bases:

a. A student must meet the eligibility rules of the Association in all respects.

b. Students in the ninth and/or tenth grade in a school having preparatory membership may compete against only ninth and/or tenth grade students from other member schools.

c. Schools having preparatory memberships in the Association may not use students below the ninth grade on their high school athletic teams in interscholastic games.

d. Schools having preparatory memberships may not compete with schools who do not hold membership in the Association, if such schools are eligible for membership.

e. The principal in a school holding membership is responsible to the Association for the conduct of athletics in that school.

Note: Schools holding preparatory memberships are subject to all rules and regulations of the Association with the modifications given above.

Section 4.

Junior membership may be extended to any school accredited by the State Department of Public Instruction offering the ninth grade, but not eligible for full, preparatory or associate membership. Junior membership shall extend the privilege of participating in single athletic games, contests, tournaments and meets with other junior members. Junior membership also shall permit teams from junior members composed of ninth grade students to compete against teams composed of ninth grade students from full, preparatory and associate members in single games, contests, tournaments and meets without special restrictions as to the number of teams entered, trial runs or geographical location within the state. Schools holding junior memberships are not eligible to enter teams in state tournaments or meets. It must be clearly understood that a junior membership is a membership in the Association that requires the principal to subscribe to all of the rules and regulations of the Association. Junior members may share in the distribution of tickets to the state final championship basketball tourney and other state final championship meets on a limited basis as determined by the Board.
Section 5.

Associate membership may be extended to any high school accredited by the State Department of Public Instruction and operating as a boarding school, with the understanding that:

a. Associate membership shall extend the privilege of participating in single athletic games and contests and invitational tournaments and meets, but not in any tournaments or meets conducted for the purpose of determining an official state championship in the Association.

b. Associate members are bound by all rules and regulations of the Association with the exception that a student who changes schools without a corresponding change of residence on the part of his parents is eligible as to residence immediately, provided there is no undue influence involved in any way.

c. Associate members are not privileged to share in the distribution of tickets to championship tournaments and meets or in the distribution of surplus funds to member schools.

Section 6.

Each member school shall have one vote.

Section 7.

The Board shall be judge on all memberships.

Article IV — Administration and Legislation

Section 2. Classes

a. For the purposes of election and representation only there shall be five classes of high schools in each Association district. These classes may be modified by authority of the Council.

   **Class I**—Schools having enrollments of 1-250

   **Class II**—Schools having enrollments of 251-450

   **Class III**—Schools having enrollments of 451-750

   **Class IV**—Schools having enrollments of 751-1300

   **Class V**—Schools having enrollments of 1301 and above.

b. The determination of the class of any high school shall be based on the enrollment, in grades nine through twelve, as certified in the latest September Annual Report required by the Division of Inspection of the State Department of Public Instruction.

Section 3. Athletic Council

a. The twenty-five district-class units shall at all times be entitled to representation in the Council.

b. All elective terms of Council members shall be for five years, beginning on July 1 following election, or for the remainder of an unexpired term in case of a vacancy.

c. Candidate eligibility shall be limited to (1) any administrator or full-time teacher from a member school in good standing or (2) any superintendent who has no more than one member high school under his supervision.

   To qualify as a nominee (1) such person shall be from the class of school from which the selection is to be made in that particular year, (2) his name must be submitted on an official nominating petition requested in writing from the Commissioner. This must be signed by five member school principals in his Association district, at least two of whom shall be in his class of school, (3) he must file completed petition with the Commissioner no later than November 15 prior to the election.

   The Commissioner shall send printed ballots listing all such names to all principals of member schools in good standing in that district, who constitute the electorate. The person receiving the highest number of votes shall be declared duly elected by the Board, who shall constitute the canvassing board. In case of a tie for the winner, the vote shall be taken again, printed ballots listing only the names of those tied to be sent out by the Commissioner with a return date designated by the Board.

d. Removal from an Association district, withdrawal from the teaching profession, resignation, suspension of his school, or a lapse in membership of his school in the Association shall
constitute a vacancy to be filled in the manner hereinafter provided. A person elected to represent a certain class member school, who changes to a school of a different class or whose school changes from class to class due to a decrease or increase in enrollment, shall continue to serve out his term as long as he remains in his original district.

c. Vacancies in the Council may be filled by the Council, the appointees to serve until the successors chosen at the next annual election take office. Such persons must be from the same district and class member school as the member originally chosen.

d. The Council shall choose a Board of five members from the membership of the Council. Their term of office shall be from July 1 to June 30 following their selection. All five classes of member schools shall be represented on the Board except as hereinafter stated for members who change their school class after being elected. Expiration of membership on the Council shall automatically terminate membership on the Board. Temporary vacancies on the Board may be filled by the Board from the membership of the Council, but only until the next meeting of the Council, when the Council shall itself choose the successors.

e. No member of the Council shall be eligible for a longer term on the Council than the one he is serving until the expiration of his term.

f. All elections shall take place each year between December 1 and December 10, all votes being mailed to the Commissioner on ballots prepared by him. Such ballots shall be open for inspection by the candidate or the principal of any member school.

i. There shall be held an Annual Meeting for the explanation and interpretation of rules and regulations, for inspirational address by recognized leaders, for committee reports and such other business as may come before the meeting. Penalties for violations of the above rule will be determined by the Board after all the evidence and circumstances have been considered.

In any athletic contest no oxygen shall be administered by mechanical medicinal means except in genuine cardio-pulmonary emergencies and then only by a doctor licensed to practice medicine in the State of Indiana.
Section 10.

There shall be no interschool athletic contests played or practices held on Sunday. Calling one or more team members together on Sunday for the purpose of studying scouting reports or viewing films of games will be considered a violation of this rule.

Section 11.

In order to protect the health and safety of all participants, when a member school is involved in a strike situation which prevents regularly scheduled supervised practice sessions of normal length and frequency, prior to participation there shall be (1) the required 10 pre-season practices, if applicable; (2) a minimum of 4 separate days of school approved practices following 5 to 10 consecutive interrupted school days; (3) a minimum of 6 separate days of school approved practices following 11 or more consecutive interrupted school days.

Section 12.

No games shall be played with high schools of this state not belonging to this Association unless such high school is not eligible for membership in the Association. This rule does not prevent a member of the Association from playing high schools outside of the state nor from playing non-high school teams within the state, provided all players on the IHSAA teams are eligible in every way and also provided there are no high school students of Indiana on the opposing teams. No athletic contest shall be held with any high school of another state that is not a member in good standing of its State High School Athletic Association, if eligible for membership.

Section 13.

Withdrawal of a school athletic team from an athletic contest in progress, unless by mutual consent of both schools will jeopardize the standing of the school in the Association.

Section 14.

The use of audio-visual equipment for coaching purposes during athletic contests in any sports which are under jurisdiction of the Association shall be limited or prohibited:

a. All mechanical means of communication such as walkie-talkies, telephones, etc., between the coach and any other individual stationed at strategic points in the gym is hereby prohibited in all basketball games.

b. All mechanical means of communication such as walkie-talkies, telephones, etc., between the coach and any other individual stationed at any position other than in or behind the natural coaching position (between the 35 yd. lines) is hereby prohibited in all football games.

c. Filming, telecasting or video taping for scouting purposes of any season contest by any party other than the two participating schools shall be prohibited.
RULE 10 — CONTESTS REQUIRING SPECIAL ATTENTION

Section 1.

All interstate meets and tournaments involving three or more schools must be sanctioned by all of the states concerned, and the National Federation of High School Associations. Written requests must be submitted to your Association at least 30 days in advance. The IHSAA and National Federation do not sanction participation in basketball tournaments involving one or more schools from another state.

**Q.1** May a member school schedule and play single games with teams and schools in Indiana not members of the IHSAA?

A. Yes, provided these teams and schools are not schools eligible for membership and also provided the members of the IHSAA observe all of the rules of the IHSAA. There should be no high school students on the non-member teams, except school teams not eligible for membership.

**Q.2** What is the difference between a preliminary game and a regular game?

A. There is no difference as far as the IHSAA is concerned, as the same Association rules and regulations govern.

**Q.3** May a member school schedule and play games during the week?

A. The IHSAA has no ruling in regard to this matter, but recommends that mid-week games not be scheduled or played except in emergencies.

**Q.4** May schools hold or sanction Sunday practices?

A. No.

**Q.5** May a member school of the IHSAA schedule and play single games with high schools of other states?

A. Yes, provided the high schools of these other states, if eligible for membership, are members in good standing in their state high school athletic associations. The principal is obligated to check this matter carefully.

**Q.6** Does the IHSAA stipulate any price for tickets to other than regular games or meets held strictly under the supervision of the Board of Control?

A. No, other than a recommendation that reasonable prices be made at all times for all games.

**Q.7** Does the omission of an admission charge make any difference as to the designation of a contest as a game?

A. No, games are “inter”-contests or “inter”- scrimmages with or without admission charges.

**RULE 11 — CONTRACTS**

**Section 1.**

The Association’s “Official Contract for Games” must be used for all interschool athletic contests and must be countersigned by the Principals of the schools involved. See contract form for further stipulations.
Contracts with Officials

Section 2.

"Contract For Contest Official" forms must be completed and properly signed for specific dates by the Principal and official involved. See contract form for further stipulations.

* * * *

Q.1 Does the suspension or termination of membership of either school in the IHSAA render game and/or official contracts null and void?

A. Yes, See contracts.

Q.2 May a member school cancel a contract for an official or game without making settlement?

A. No, contracts are binding and a settlement by mutual consent or according to the stipulations of the contract must be made.

Q.3 Is there any penalty for the cancellation of a contract by an official?

A. The IHSAA expects all approved officials to abide by their contracts and will handle on its merits any case of violation by the school or official.

Q.4 If contracts specify that first teams shall participate, can second teams be used?

A. No, it is recommended that contracts specify the ranking of the teams.

Q.5 If game contracts do not clearly specify the ranking of the teams what ranking is understood as binding?

A. First team ranking.

Q.6 Who is the proper official to sign contracts for games?

A. The member school principal always. This authority shall not be delegated. IHSAA contracts (forms A and B) call for the signature of the Principal.

RULE 12 — ENROLLMENT AND ATTENDANCE

Section 1.

No student, who has been enrolled as a high school student in any school, shall be permitted to participate in any interschool contest as a member of any member school until he has been enrolled in such school for 365 days, unless the parents of such student actually change their residence to the second school district or territory. (See Rule 21).

When enrolling in grade 9 a student may choose either a public school or a non-public school. Once he attends, he cannot make another choice without affecting his eligibility.

Section 2.

A student enrolled in one high school of a city or school corporation shall not be eligible in another school of the same city or school corporation until he has been enrolled in the other school for one calendar year, unless there are definitely marked school districts or territories and his parents actually change their residence to the new school district or territory.

Section 3.

Students finishing the courses offered in high schools maintaining less than four years of high school work and transferring, are not bound by sections 1 and 2 above. (See Q.6 below)

Section 4.

The fact that a transfer has or has not been issued, or that the student pays or does not pay his tuition, has no bearing except when the omission of a transfer or payment of full tuition is done for the purpose of unduly influencing a student to enroll for athletic reasons.

Section 5.

No student who has transferred from another high school shall be certified for interschool athletics until the principal has on file an Association Athletic Transfer Blank, signed by the principal of the school from which the student transferred.

Section 6.

A high school student who is regularly enrolled in three or more high school credit courses may, with prior written approval of his high school principal, enroll in or attend an accredited institution of higher learning for credit that is either acceptable for high school graduation or for college credit. The credit may be counted toward high school eligibility (3 semester hours or the equivalent shall be counted as equivalent to one high school credit).

During a vacation period, a high school student with remaining athletic eligibility may enroll in or attend a program in an accredited institution of higher learning that may give him college credit provided he has prior written approval of his high school principal, a copy of which must be placed on file in the office of the Association.

It is clearly understood the approval is for his attendance. The student is responsible for conducting himself in a manner that in no way violates the rules or the spirit of the rules of the Association.

Note: An accredited institution is one that grants credits that count toward a Baccalaureate Degree.

Section 7.

Enrollment eligibility shall be limited to eight semesters with the understanding that a student who enrolls in the ninth grade for the
first time at the beginning of semester two may choose either his first or ninth semester for enrollment eligibility. A mid-year student who participates in any sport during his first semester becomes ineligible for all sports during his ninth semester.

Section 8.

Any student who has been enrolled more than fifteen (15) school days between September 1 and December 1 for four previous times, shall be ineligible for all fall sports.

Section 9.

Any student who has been enrolled more than fifteen (15) school days between December 1 and March 1 for four previous times shall be ineligible for all winter sports except a student who entered high school for the first time during the second semester of a school year and who did not participate in any game during this semester, shall not be ineligible for basketball until he has been enrolled thereafter fifteen (15) or more school days between December 1 and March 1 for four times.

Section 10.

A student who has participated in one or more interschool athletic contests, and who is forced to withdraw from school for the semester during the first fifteen (15) school days because of a disability incurred in connection with athletics, shall not be considered as having participated for that semester. The disability shall be certified to by a physician licensed to practice medicine in Indiana.

Section 11.

Any student who has been enrolled more than fifteen (15) school days between March 1 and June 1 for four previous times, shall be ineligible for basketball, track, golf, tennis and other spring sports with the following exception: a student who entered high school for the first time at the beginning of semester two, may be enrolled five times of fifteen or more school days each between March 1 and June 1 and be eligible for spring sports during the last four times provided he did not participate in spring sports during his first semester of enrollment.

Section 12.

A student who withdraws from school for the semester within the first fifteen (15) days of school without having participated in an interschool athletic contest, shall not be considered as having had an opportunity to participate that semester.

Section 13.

In order to be eligible for athletic competition during any semester, a student must have entered some high school within the first fifteen (15) school days of the semester in which the contest occurs.

Section 14.

Students whose parents change their place of residence during a semester, may complete the semester in the school in which they have been enrolled, then enter the school in the new district or territory in which their parents reside with residence eligibility in each school during enrollment therein.

A student who resides with his parents and attends high school in their residence district or territory may remain as a student with eligibility in athletics in this high school even though his parents move to another school district or territory, provided no undue influence is attached to the case in any way. (This rule is primarily to enable seniors to remain in the school in which they enrolled and remain eligible to compete in athletics when it is impractical for them to move with their parents.)

In every instance when the parents of an underclassman move, or plan to move, the principal must inform the parents of the IHSSAA rule and if the athlete remains in the school after the end of the semester in which his parents move from the school district, it shall be the duty of the principal to obtain Association approval before he is certified for athletic eligibility. The principal shall report the circumstances and reasons why he remained in the school district on the form (Form J) prepared for that purpose. This report shall be sent to the Association office and to the principal of the high school in the district to which the parents moved. A student is not eligible during his next semester until his residence eligibility report has been approved by the Association ( Eligibility approval should be requested prior to the semester in which eligibility is desired.)

Section 15.

Change of residence as used in these rules shall mean a bona fide move about which there is no question. If the case is that of a change of residence of parents, the change shall be definite and complete.

Section 16.

Foreign exchange students and students of parents assigned to foreign countries may be considered for residence eligibility by the Board.

* * * * *

Q.1. What is a five-year man?

A. Students who have been enrolled in high school for more than fifteen (15) school days between September 1 and December 1, or between December 1 and March 1, or between March 1 and June 1, for four previous times are ineligible respectively for football, basketball, wrestling and spring athletics, with the following exceptions:

A student who enters high school for the first time at the beginning of semester II of any school year, may be enrolled four times of fifteen (15) or more school days each between December 1 and March 1 following this first semester of his enrollment, and he may be eligible for basketball for these four seasons provided he does not play in any game during his first semester of enrollment.
A student, who enters high school for the first time at the beginning of semester II, may be enrolled four times of fifteen (15) or more school days each between March 1 and June 1 following this first semester of enrollment, and may be eligible in spring athletics for these four semesters, provided he does not participate in spring athletics during his first semester of enrollment. Participation in a sport in a school year counts as participation in that sport for one school year.

Q.2 May a student, who has been in high school four full years, but who has not participated in any athletics participate in athletics?
A. No, enrollment rather than participation is the determining factor in such cases.

Q.3 Which is the determining factor in eligibility—enrollment or participation?
A. Either one may cause ineligibility. Both are factors and must be considered.

Q.4 If a student changes high schools, when is he eligible?
A. See Rule 21.

Q.5 What is considered enrollment in a semester?
A. Attendance for any length of time or enrollment that may be considered attendance for any length of time (See exceptions under Sections 10 and 12 above)

Q.6 When are students, who finish the work given in one member school, eligible in another school?
A. Students finishing the work in a member school giving less than four years of high school work are just as eligible in a new school as they were in the old school. Students who complete the ninth grade in a junior high school in a school corporation that also maintains a senior high school are not considered eligible if they enroll in a high school outside their regular high school district.

Q.7 Does the fifteen (15) day enrollment requirement mean school or calendar days?
A. School days.

Q.8 If a student fails in all subjects for a semester does this count as one of his eight semesters of eligibility?
A. Yes.

Q.9 Is a student, who has been out of high school for a semester or more and who has played independent ball during that time eligible when he enters school at the beginning of a semester?
A. Yes, unless he violated his amateur standing in some way by playing on the independent team and provided he is eligible in all other ways.

Q.10 Are all students, who attend school outside the school district in which their parents live, required to present legal transfers or pay the regular tuition?
A. Check this matter with the Fiscal Officer of the State Department of Public Instruction. The report on aggregate attendance calls for definite information about transfers and tuition cases.

Q.11 If a student misses school for a few weeks in order to work is he eligible during this time and when he returns?
A. This is a school problem and must be answered by the consideration whether regular school work to the extent of twenty hours is being maintained or not. Usually students who miss school are not passing in their school work.

Q.12 When is a student, who intends to enter high school, eligible?
A. When he actually enrolls, provided all other requirements have been met. See question 15 below.

Q.13 How long may a student be enrolled in a semester then drop out without the semester being counted under the Scholarship Rule?
A. Within the first fifteen (15) school days of the semester, provided he was eligible when he withdrew.

Q.14 If a student is passing in four regular high school subjects when he drops out during a semester, may he be considered eligible under the Scholarship Rule at the beginning of his succeeding semester of enrollment?
A. No, such a student would not meet the requirements of passing in four regular high school subjects throughout the last semester of enrollment (See exception, under Sections 10 and 12 above)

Q.15 Between the first day of practice and the 1st day of school a student
1. Turns in his completed Parent and Physician slip
2. Participates in practice.
3. Then enrolls in a different school without a corresponding change of residence by parents. Is he eligible?
A. No, he is considered as declaring his intent to enroll where he first practiced and is ineligible for one calendar year.

RULE 13 — GRADUATES

Section 1.
A graduate of any high school is ineligible for participation in interschool athletics.

a) This limitation shall not apply to the graduate who is participating in the spring sports program. He remains eligible until the end of that sport season.
Section 2.

Students meeting requirements for graduation in three and one-half years in a high school with a regular four-year course shall be eligible to participate in school athletics the last half of the fourth year, provided they are enrolled and meet all other eligibility rules of the Association.

Section 3.

The Board shall drop from the list of licensed officials names of persons who are visibly unfair and incompetent in their officiating or who do not serve the ideals and policies of the Association. Disbarment letters shall be given to such officials and their names shall be published in the bulletins of the Association. The Board has the authority to refuse licensing of officials for just cause.

Section 4.

There shall be an annual registration of Association officials each year. The date of registration and membership fee shall be determined by the Board.

Section 5.

Licensed officials in the Association will be classified into two groups: Registered and Certified.

Section 6.

Women may become licensed officials with the Association.

Section 7.

High School students are not eligible for licensing as Association officials.

Section 8.

Licensed officials may not play with or against high school students during the school year.
Q.10 What is the policy of the Association toward the decisions of officials?
A. The decisions of officials are considered final and binding.

Q.11 Does the Association regulate the pay of officials?
A. The pay of officials in tournaments and meets arranged by the Board is regulated. In single games, the Principals and officials are expected to have contracts agreed upon prior to the games. The Board will adjudicate difficulties according to contracts.

Q.12 When was the licensing plan established?
A. First in 1922—Registered and Certified classifications in 1945.

Q.13 Are Registered officials eligible to officiate for member schools?
A. Yes, Registered officials are eligible to officiate the sport or sports in which they are licensed.

Q.14 What is the difference between a Registered and a Certified official?
A. A Registered official is an official who has been licensed by the Association (1) for less than three years or (2) for three or more years but does not have on file six satisfactory rating cards.

Q.15 May a licensed official promote an All-Star High School Contest?
A. See Rule 10, Section 3.

Q.16 Does the Board have a regulation regarding the playing of a licensed official with or against high school students?
A. Yes, licensed officials shall be placed on probation for one calendar year if the evidence shows that they participated in such games with knowledge of the rule against such playing by high school students.

RULE 16 — PARTICIPATION

Section 1.

Any student of a member school who participates in an athletic contest as a member of any other similar team the same season, shall be ineligible to compete under these rules for the remainder of that season.

Section 2.

A student, who has played in one or more interschool games in any season shall be regarded as having engaged in athletics for that season. (See Exception, Rule 12, Section 10)

Section 3.

A student who participates in an interschool contest when ineligible becomes ineligible only in that sport for the remainder of that sport season unless facts were purposely withheld or misrepresented. Such deliberate action makes the student ineligible in all sports for the remainder of that semester and all of his next semester in school.

NOTE: Such action shall always be subject to review by the Commissioner and Board.

Section 4.

A member school student who participates for demonstration purposes, or otherwise, in a coaching school or clinic outside the State of Indiana becomes ineligible for interschool athletics for a period of time as may be decided by the Board. Such participation within the State of Indiana requires advance approval by the Commissioner.

Section 5.

A member school student who participates in an athletic contest or demonstration during a season as an individual or on any other than his school team, becomes ineligible in that sport for the remainder of the season. (See Rule 9, Section 9 for seasons).

Section 6.

A ninth, tenth, eleventh or twelfth grade student may not participate in a contest with or against a student enrolled in a grade lower than the ninth.

Section 7.

Participation of students in an athletic contest with or against players not belonging to their school constitutes a game. A "scrimmage" or practice by students with or against teams or players not belonging to their school is considered a game. A tryout or demonstration of athletic ability as a prospective student-athlete for a college shall be considered a violation of this rule.

* * * *

Q.1 Is an alumni game considered a game?
A. Yes, such must be counted as one of the games permitted on the regular schedule.

Q.2 What is considered an "inter" game or an "interscrammage"?
A. Participation of students in an organized athletic contest with or against players not belonging to their school constitutes a game. An organized "scrimmage" or practice by students with or against teams or players not belonging to their school is considered a game.

Q.3 Is a game between the faculty members and the member school students of the same school considered an intramural game or interschool game?
A. An intramural game.
Q.4 What constitutes an “intramural” contest?
A. When all participants on both teams are members of your school, e.g., faculty, students, class tourney will-be-has-been, etc.

Q.5 Is an intramural contest interpreted by the Association as a practice or a game?
A. A practice.

Q.6 When may a student (athlete or non-athlete) participate in an intramural sport without affecting his eligibility?
A. 1. Only during that sport season for basketball, football, and wrestling.
2. At any time during the school year for other sports.

Q.7 Are the same standards of eligibility required for intramural games as for interschool games?
A. No, the Association has no requirements for intramural.

Q.8 Is a game between the alumni and the high school students considered an intramural game or an interschool game?
A. Inter-school game.

Q.9 May students participate in interschool contests after their school is closed?
A. Due to the great variation of time in which member schools close in the spring, (a) students may represent their schools in meets and tourneys sponsored by the Association; (b) they may participate in scheduled contests where one of the two schools is still in session; (c) they may participate in a contest where both schools are closed, provided it was a regularly scheduled contest; (d) graduating seniors may participate in contests according to the above conditions, even though they may have received their diplomas, and (e) provided their team is competing in conference contests.

Q.10 May a student play on any team other than a member school team?
A. A student becomes ineligible in his school for the entire season of that sport in which he participates as a member of any team other than his school team. There is an additional penalty for participation out of season as set out in the rules regarding football, wrestling and basketball.

Q.11 What is considered participation in a sport for a season?
A. Playing in a part of one game or contest in a sport constitutes participation in that sport for that season. (See exception under Rule 12—Section 10)

Q.12 May member schools play against College, Y.M.C.A. and independent teams?
A. Yes, in single games, but not in tourneys, meets and leagues. In single games the member schools must obey all of the rules of the Association and there must not be any high school students on the opposing teams.

A. Yes, Association rules and regulations govern interschool athletics only.

Q.14 Does a student become ineligible in all sports, if he plays on a team other than his school team in one sport?
A. No, a student becomes ineligible only in the sport in which he participates as a member of a team other than his school team unless he violates his amateur standing or some general rule of the association and then he becomes ineligible in all sports. Playing basketball out of season makes a student ineligible for all sports until the date of the State Final Tourney of the following year. Playing football out of season makes the student ineligible for all sports until the following November 30. Wrestling out of season makes the student ineligible for all sports until the date of the State Final Wrestling Tourney of the following year.

Q.15 If a student participates in a bowling league or tournament during the school year, does he make himself ineligible in other sports?
A. No, providing he does not violate his amateur standing.

RULE 17 — PENALTIES

Section 1.
Penalties imposed by the Association upon players, member schools or officials for violations will be determined by the Commissioner or the Board or both. The type and duration will be determined in accordance with the nature and extent of the offense.

Section 2.
FORFEITURES
a. When an ineligible student participates in team contests, the game must be forfeited.
b. When an ineligible student participates in contests where individual points are awarded, only the points scored by the ineligible student are forfeited.
c. When an ineligible student participates in an Association tournament series contest, he must be disqualified immediately when discovered.
d. Championship honors will be forfeited for withholding known requested data during investigations.

Section 3.
The Board may issue a warning, probation or suspension of membership to any member school for any reason it deems necessary in
order to enforce its decisions or the Constitution and By-Laws. Provided, that in case of a penalty of suspension of membership, the Board shall hold a hearing at which the affected member school or schools may be heard.

A WARNING is an official notice that an unexcusable, unethical or unsportsmanlike action has occurred, is a matter of record, and such an occurrence must not be repeated.

PROBATION is a more severe type of warning. The school may continue its regular schedule and participate in tournaments only after filing a written report with the Commissioner listing measures to be taken to alleviate the problem.

SUSPENSION is termination of membership for any of, but not limited to, the following reasons:

a. Violations of the Constitution or By-Laws.
b. Failure of the principal to assume direct responsibility for the school's interschool athletic program.
c. Refusal to abide by the decisions of the Commissioner or Board.
d. Violation of the Undue Influence Rule.
e. Violation of contracts with other schools.
f. Violation of game officials contracts.
g. Using an ineligible player knowingly.
h. Failure to provide adequate police protection.
i. Removing team from field or floor because of dissatisfaction with the officiating.
j. Failure to control the spectators and players' bench.
k. Failure to adequately protect officials and visiting team.
l. Violation of practice and playing seasons.
m. Mutual agreements to violate the rules of this Association.

Note: Being on probation or previous warnings are not a prerequisite. All game and officials' contracts shall be null and void. Following the termination of suspension, the principal must make a written request for reinstatement.

Q.1 This question is often asked: "What will be the penalty for violation of such and such a rule?"

A. Penalties in the Association are not assigned in advance, as this democratic organization is built on the idea that the observance of its rules and regulations is more to be desired than the enforcement of them. The Association believes that the essence of proper and willing observance is higher than enforcement and that we should resort to enforcement only when observance fails.

RULE 18 — PROTESTS

Section 1.

When a contestant, official, game or decision is protested, the game shall be played as scheduled and the protest, with evidence, then filed with the Commissioner.

Section 2.

In cases of disputes or protests involving a student, the Principal of the school involved must furnish the Board the following data on the contestant in question: number of years of participation; date and place of birth; average mark in each subject for the preceding semester; average mark in each subject from the beginning of the current semester; etc. Other pertinent information will be requested as needed.

Section 3.

In cases of disputes or protests involving school personnel, contracts, etc. the Principal filing the protest must submit all known details in writing to the Commissioner who will determine the action to be taken.

Section 4.

If, after receiving such protests, it is determined that information has purposely been withheld until an "advantageous" time, the Board may, at its discretion, deny the protest.

RULE 19 — SCHOLARSHIP

Section 1.

Each contestant must have and be maintaining for the current semester, a passing grade in each of four or more subjects requiring a minimum of twenty regular high school recitations per week, exclusive of rhetoricals, physical training, military drill and deportment; in his last preceding semester in school, he must also have met the same requirements throughout the entire semester.

Military Science and Tactics may be accepted for scholarship eligibility, provided it is approved by the State Department of Education as a full-time, solid subject; that it may be counted toward graduation from high school; and that it cannot be substituted for required courses in physical education.

Note: Schools having lengthened periods must meet the time equivalency.

Interpretation

The part of Rule 19, Section 1 reading, "... a passing grade in each of four or more subjects requiring a minimum of twenty regular high school recitations per week" is interpreted to mean—"a passing grade in each of four regular high school subjects having a full semester value and for which a full semester credit is given." The combination of four subjects, not excluded in this
Rule, which total credit value is equal to two full semester credits, may be counted toward eligibility for two and only two of the four regular high school subjects of full semester credit value, provided the four combined subjects remain the same subjects throughout the semester in which they are counted.

A regular high school course granting two credits for the semester due to the fact that additional time and study are required to meet academic requirements, may be counted as equivalent to two subjects.

Section 2.

Students enrolled for the first time must comply with the scholarship requirements of the rules, the average standing required for the preceding semester being obtained from the records in the last secondary school attended.

Section 3.

In each of the subjects representing the minimum requirement of work specified in Section 1 above, the following shall govern:

a. for the current semester the average of the period grades up to the time of certification must be passing;

b. for the current or school grading period the average of the daily or weekly grades must be passing;

c. if the average of the period grades at the beginning of any grading period is below passing in any subject, the pupil is ineligible as far as that subject is concerned for the entire grading period.

Note: Each school will establish consistent grading periods within a semester and within the school year. Student scholastic eligibility will be determined at the time when grades or credits have been made a matter of final record in the principal's office but no later than noon of the fifth school day following the end of such determined grading periods. The principal shall certify these specific dates to the Association on his membership card.

Section 4.

Scholastic deficiencies caused by the inability of a student to take or pass four regular subjects in the previous semester may be made up in night school, summer school, or correspondence school and counted toward eligibility provided:

a. it be done in a regularly approved school or according to procedures approved by the State Department of Public Instruction.

b. no more than two credits be given for work done during the summer months.

c. all work be done and the credits be made a matter of final record in principal's office prior to the opening date of the semester in which eligibility is desired. This does not apply to incompletes.

d. all work and credits be bona fide in every way and certified as such by the high school principal. In all other cases, the record at the end of the semester shall be final. Deficiencies in one semester cannot be made up in a subsequent semester for qualification purposes during that semester.

Section 5.

An incomplete or condition at the end of a grading period or semester counts as a failure until deficiency has been removed, providing such is removed before the end of the following grading period or summer, whichever comes first.

Section 6.

Innovative course credits may be approved by the Board provided:

a. written request is made by the principal concerned and courses are described in detail,

b. courses are approved by the State Department of Public Instruction,

c. the local Board of Trustees counts such credits toward graduation and

d. total class time is equivalent to a regular course.

Section 7.

A student who withdraws from school for the semester within the first 15 days shall not be considered ineligible as to scholarship at the beginning of his next semester of enrollment, provided he was eligible when he withdrew.

Section 8.

Any student who carries at least fifteen hours of regular high school work is a high school student, provided such a student has been promoted to high school in the regular way and according to good school procedure.

Q1. May back work be made up and counted toward eligibility?

A. Yes, for incompletes only.

Q2. Is a student, who has made sufficient credits to graduate at the end of semester one, eligible for athletics during semester two?

A. Yes, provided he is eligible in all other respects and does not actually graduate at the end of semester one. Such a student must be enrolled and carry regular work during semester two.

Q3. May a credit in “Physical Fitness” be counted toward eligibility in athletics?

A. No. See Section 1 above which specifically excludes “physical training” as a subject to count toward eligibility in athletics. The Board has ruled that “Physical Fitness” comes under the term “physical training” as used in this section.
Q.4 Does summer school credit in a school other than his home school jeopardize the standing of a student?
A. No, provided the work is accepted by the State Department of Public Instruction and the home school authorities recognize the work of a non-home school for credit. In fact, the Association recommends summer school work of an approved type for students needing credits.

Q.5 If a student fails to pass in four regular high school subjects during semester two, may he count work done in summer school toward eligibility?
A. See Section 4 above.

Q.6 Does the Association have a passing grade for scholarship?
A. No, the passing grades of the schools are usually honored, but the Board reserves the right to check the validity of grades and credits and to act on their findings.

Q.7 To determine eligibility, what constitutes the last semester?
A. The last semester for any student is the last semester in which the student was enrolled in any school for any length of time after the first fifteen (15) school days.

Q.8 At the end of the second grading period in a semester, is a student eligible if he makes passing grades in four regular high school subjects for this period?
A. Yes, providing he meets the scholarship requirement for the previous semester.

Q.9 Is a “condition” or an “incomplete” considered a “pass” in the Association?
A. No. See Section 5 above.

Q.10 Is a student, who carries three regular high school subjects and one or more eighth grade subjects, considered a high school student?
A. Yes, a student who carries fifteen hours of regular high school work is a high school student, providing such a student has been promoted to high school in the regular way. Such a student would be considered enrolled in high school but would not be eligible because of insufficient subject matter.

Q.11 Is a student who has been ineligible for a semester on account of scholarship eligible for the night of the last day of the semester?
A. Only when the principal has previously certified that date for checking eligibility. See Rule 19, Section 3 Note.

Q.12 What constitutes scholarship eligibility?
A. In order to be eligible for a current semester a student must have passed in four regular high school subjects in his last semester of enrollment in any high school and he must be maintaining a similar amount of work for the current semester. This statement for semesters applies to grading periods of the semester also.

Q.13 If a student becomes ineligible on account of scholarship at the end of a semester, does this make him ineligible for one whole semester afterwards?
A. Yes.

Q.14 If a student becomes ineligible at the end of a grading period in a semester, when can he become eligible?
A. At the end of the following grading period on the date previously certified by the principal for checking eligibility. See Rule 19, Section 3 Note.

Q.15 If a student becomes ineligible on Friday at the end of a grading period, is he eligible for that night?
A. See Rule 19, Section 3 Note.

Q.16 If a student becomes eligible on Friday at the end of a grading period, is he eligible for that night?
A. See Rule 19, Section 3 Note.

Q.17 When is a student maintaining his work during a semester?
A. When he is passing in four regular high school subjects during the past and present grading period of that semester. Student grades shall be substituted for the final grading period grades. Scholastic eligibility may be checked weekly or at mid-grading periods, etc. by schools desiring to prevent failures at end of grading periods.

Q.18 If a student fails to pass in four regular high school subjects during the last grading period of a semester but earns credits in four regular high school subjects for the semester, will he be eligible at the beginning of the first grading period of the next semester?
A. He will be eligible on the date previously certified by the principal for checking eligibility at the end of that semester. See Rule 19, Section 3 Note.

Q.19 If a student passes in four regular high school subjects during the last grading period of a semester but fails to earn credits in four regular high school subjects for the semester, will he be eligible at all for the next semester?
A. No.

RULE 20 — SEMESTER
One half of a school year constitutes a semester and parts of two semesters or a part of one semester does not make a semester.

RULE 21 — TRANSFERS
Also see Rule 12—Enrollment and Attendance.

Section 1.
No student who has transferred from another school shall be certified for interschool athletics until the principal has on file an
IHSAA Athletic Transfer Blank signed by the principal of the school from which the student transferred.

Section 2.

When a student transfers from one school to another member school his residence eligibility shall be determined as follows:

a. From a school of a city or school corporation to another school of the same city or school corporation—he shall be ineligible for 365 days unless there are definitely marked districts or territories and his parents make a bona fide change of residence to the new district or territory.

b. From a public school to another public school—he shall be ineligible for 365 days or until his parents make a bona fide change of residence to the new district, whichever transpires first.

c. From a public school to a non-public school whose territory does not include public school district—he is ineligible for 365 days or until his parents make a bona fide change of residence to the new school territory, whichever transpires first.

d. From a public school to a non-public school located in the same district—he shall be ineligible for 365 days.

e. From a public school to a non-public school located in a territory serving the same district, he shall be ineligible for 365 days.

f. From a non-public school to a public school located in the same territory, he shall be ineligible for 365 days.

g. From a non-public school to another non-public school serving the same territory, he shall be ineligible for 365 days.

h. From a non-public school to a public school located outside that territory, he is ineligible for 365 days or until his parents make a bona fide change of residence to the new district, whichever transpires first.

i. From a non-public school to another non-public school located in a different territory, he is ineligible for 365 days or until his parents make a bona fide change of residence to the new territory, whichever transpires first.

j. From a school located outside the district or territory in which his parents reside and subsequently transfers to a school in his home district or territory, he is ineligible for 365 days. This includes military schools which offer work on the secondary school level. The Board must review all cases in which the previous school was discontinued.

Q.1 If a student transfers from a member school located in one city or school district to a school in another city or school district, how is his eligibility determined?

A. By applying Rule 21 above. Following are some statements which will help to clarify this rule:

a. Under normal circumstances, a student usually attends high school in the district or territory where his parents reside.

b. If the parents move to another school district or territory, the student is eligible as follows (1) if he changes schools at the same time parents change residence, (2) if parents change during a semester, the student may change at the end of that semester, but no later and (3) student need not change schools at all, provided no undue influence is used to retain him there. An underclassman who does not transfer is ineligible until a "Residence Eligibility After Parents Move From District" form has been reviewed by the Association.

c. It is the duty of the principal to check carefully the record of every student who transfers from another school. The principal should also advise the students who contemplate making a change of schools as to the rules of eligibility regarding transfers.

Section 3.

A student, whose parents are separated or divorced and reside in separate school districts or territories, may choose residence with either parent. Once his place of residence has been determined, either by order of the court, or mutual agreement of the parents, he cannot change residence to the home of the other parent without losing eligibility for one calendar year.

Section 4.

A student who has been enrolled in a correctional school may return to his home school with the same residence eligibility as when he left. Credits earned in the state school are considered the same as those earned in any other high school so far as eligibility is concerned.

Section 5.

When the possible Unavoidable Change of Residence occurs, the Board shall have discretionary power to waive the transfer requirements in case of (a) orphans, (b) unavoidable circumstances necessitating a change of residence in order to have a home, (c) school board policies which provide for or require a change. No such student, however, shall be eligible to participate until written referral has been made by the principal's involved (See Rule 3, Section 7 for needed information and documents) and Board approval has been obtained.

Q.1 May practices in one school be counted as such in another school where a student changes schools?

A. Yes, provided definite proof of the practices are on file from the principal of the school in which the practices were held.
Q.2 When parents contemplate changing their residence soon to another school district or territory, may a student transfer in advance and be eligible for competition?
A.(1) He may transfer but will be ineligible for competition until parents definitely change their residence to the second school district or territory.
A.(2) In such cases the Principal shall inform the student and parents that, if for any reason they do not move and student returns to first school, he shall be ineligible for one calendar year.

RULE 22 — UNDUE INFLUENCE

Section 1.

The use of undue influence by any person or persons to secure or to retain a student or to secure or to retain one or both of the parents or guardians of a student as residents, may cause the student to be ineligible for high school athletics for a period subject to the determination of the Board and shall jeopardize the standing of the high school in the Association.

NOTE: By action of the Council and Board, this rule is interpreted to include any undue influence that may be exerted by anyone on a student who has not yet entered the ninth grade, to enroll in a school other than his home school or the one he ordinarily would be expected to attend or any school where he and/or his parents previously had filed a choice of subject matter card or other written evidence of preliminary enrollment or registration.

Section 2.

No member school student shall be eligible to participate in any interschool contest under the rules of the Association, if it shall be shown that he or any member of his family is receiving any remuneration, either directly or indirectly, to influence him or his family to reside in a given school district in order to establish eligibility on the team of said school, and any school permitting such participation shall, upon satisfactory evidence, submitted to the Board, be suspended from membership in the Association for a term of not less than one year.

NOTE: This rule shall not interfere with the right of high school pupils to work during vacation or during out of school hours in order to earn their way through high school. It shall apply to the use of any funds created by gift, or by subscription with the intent of offering them parts of them for the free use of the player or any member of his family as an inducement to get them to change their residence to the district of the said school and to maintain residence therein.

Q.1 Is it the duty of the Association to prove that undue influence has been used?
A. No, the member school principal has agreed to conduct his athletic activities according to the rules and regulations of the Association. Where there is a question, it is the duty of the high school principal to meet the question. He cannot certify that his students are eligible unless he knows that they are eligible.

Q.2 Why should a school be penalized because some person outside of school uses undue influence?
A. Usually a school is not penalized unless it is involved or uses the student in question in athletics. In the second place, the results are the same whether some person in school or some person outside of school uses undue influence: An athlete that has been retained or secured through the use of undue influence and the school that uses such an athlete on teams in interschool athletic competition profits by the use of undue influence.

Q.3 What constitutes the use of undue influence?
A. An all-inclusive answer for all time and under all conditions cannot be given, but the use of any of the following inducements may come under the rule:
1. Offer or acceptance of money or other valuable consideration.
2. Reduction or remission of regular tuition.
3. Waiving the requirement of legal transfers according to law.
4. Offer or acceptance of board, room or clothing.
5. Offer or acceptance of remuneration for work in excess of amount regularly paid for such service.
6. Free transportation.
7. Transportation by coach, principal, teacher or school official.
8. Offer of acceptance of school privileges or considerations not granted to other students.
9. Making home with coach, principal, teacher or school official.
10. Free rent or reduced rent for parents.
11. Offer or payment of moving expenses of parents.
12. Any inducement to get parents or students to change residence for athletic reasons.

RULE 23 — BASEBALL

Note: See Rule 9 which applies to all sports.

Section 1.

The National Alliance Edition of Baseball Rules shall govern in baseball except as modified by the Association.

Section 2.

The baseball season is defined as beginning and ending with the school year. (Exceptions—See Rule 22, Sections 5 and 7)
Section 3.
There shall be ten separate days or organized baseball practice under the direct supervision of the high school coaching staff by each player preceding participation in interschool contests. Only one practice may be counted for any one day.

Section 4.
A pitcher may not pitch in more than ten innings in any three consecutive calendar days. This period begins when he officially enters the game as a pitcher and includes season and tournament games.

Section 5.
Independent Summer Baseball

a. High school students may play on independent baseball teams during the summer when school is not in session without jeopardizing their standing or the standing of their school in the Association provided they do not play under assumed names, provided they do not accept remuneration, directly or indirectly, for their playing, and provided their school is not still competing for conference awards.

b. Reasonable meals, lodging and transportation may be accepted by the students if such are accepted in service rather than in money or in some other material form. The Association expects all high school students to so conduct themselves at all times that they, their high school and the Association will be honored.

c. All such playing should be checked carefully and frequently. The requirements should be extended to all students. Managers of independent teams should be warned of the dangers of using high school boys on baseball teams. A professional in one sport is a professional in all sports as far as eligibility in the Association is concerned.

d. High school students, who play on baseball teams other than their high school teams during the school year, make themselves ineligible for baseball in high school in that school year.

e. High school students, who play on baseball teams other than their high school teams during the school year, must have written permission of their high school principal on file in the principal's office prior to the participation. The responsibility of securing and filing this written permission rests with the student, the manager of the non-high school team and finally with the high school principal. See Note at end of next subsection.

f. The Association considers that a member school is entitled to the high school students in baseball during the school year and that participation in baseball elsewhere should not take place except by the written permission of the high school principal in each case.

Note 1: Permission granted by a principal to a boy to play baseball on a team other than his school team during the school year makes the boy ineligible for the school team in baseball. No permit can be issued to violate any of the rules of the Association.

The purpose of the permit is to keep the principal informed about his students.

Note 2: It is not considered a violation of present Association rules for a member school, during the summer vacation period, to sponsor a team composed entirely of its own students in such sports as baseball, softball, tennis and golf. While an athletic contest conducted under this interpretation would be similar to that of other independent amateur organizations, it is recommended that participating schools, through their principals, mutually agree to abide by Association rules except for modifications as may be necessary.

Section 6.
A member school student shall not be considered as violating his amateur standing if he participates, during the summer vacation, in baseball schools and clinics sponsored by professional major and minor league baseball clubs.

Note—Any employee or school official of a member school who acts as an agent or encourages any negotiations between a high school student and representatives of Organized Baseball prior to the student's graduation, is violating the Agreement between the National Federation and Organized Baseball. Such action on the part of any employee or school official may cause his school to be suspended from the Association for a period to be determined by the Board.

Any evidence that a representative of Organized Baseball is attempting to or has signed a student prior to graduation should be reported to the Association at once. This is a violation of the Agreement between the National Federation and Organized Baseball, and the penalty for such action is under the jurisdiction of Organized Baseball.

Section 7.
High school students playing on their high school baseball team during the summer while their team is still competing for conference awards make themselves ineligible by participating on any other baseball team during that time.

Q.1 Does a high school student violate the rules of the Association by playing independent baseball during the summer?

A. High School students may play independent baseball during the summer months when school is not in session without jeopardizing their standing in high school, provided they do not accept remuneration, directly or indirectly, provided they do not play under assumed names, and provided their school is not still competing for conference awards. Reasonable meals, lodging and transportation may be accepted by such players if accepted in service and not in any other way. All such playing should be checked by principals. (See Rule 23, Section 5).

(Note: This answer applies to other summer sports, not having definite seasons, provided other rules and regulations of the Association are observed.)
Q.2 Is a student who plays on an independent baseball team during semester one, ineligible for high school baseball during semester two?
A. Yes, such a student is ineligible for baseball for semester one and two, as baseball is a school year sport.

Q.3 If a student plays on an independent team in basketball or softball during the school year, does he make himself ineligible for baseball in high school?
A. No, he makes himself eligible only in the sport in which he participates on an independent team, provided he does not violate his amateur standing in any way.

RULE 24 — BASKETBALL

Note: See Rule 9 which applies to all sports.

Section 1.
The Official Rules of the National Basketball Committee of the United States and Canada shall govern basketball.

Section 2.
All games other than first-team games shall be played in quarters of six minutes in length.

Section 3.
The maximum number of games for the regular schedule of any team in basketball shall be eighteen. (The penalty is suspension.)

a. A player may participate in a maximum of seventy-two quarters of interschool basketball, and one invitational tourney during any one season. No player may participate in more than four quarters in any one season. If a player participates in two invitational tourneys, the quarters played in one tourney shall be included in the seventy-two quarters permitted during the season.

b. A record of the quarters played in basketball by individual players shall be kept on file in the principal's office at all times for his information in certifying eligibility of players.

Section 4.
"Donkey Basketball," "Skrubball," "Skateball" or any similar game in which a basketball and/or basketball goals are used shall be considered a game of basket ball. High school students who participate in "Donkey Basketball," "Skrubball," "Skateball" or similar games, shall be subject to Association eligibility rules as in regular basketball games.

Section 5.
No inter-school basketball games shall be played by students or schools prior to November 1 of each year or after the closing date of the sectional tourneys of the State Basketball Championship Series each year, except by such students and such schools as are participants in the tourneys of the State Basketball Championship series; and the close of the basketball season for these students and schools shall be not later in any event than the date of the Final Tourney or not later than the elimination of the school in one of these tourneys if earlier than this final tourney date. The penalty is suspension.

Students playing independent, league, recreation or organized basketball games, before November 1 or after the closing date of the Sectional Basketball Tourney of the State Basketball Championship series, make themselves ineligible for all interschool athletics until the closing date of the State Basketball Championship Tournament of the following year. A prospective student-athlete who engages in a practice, scrimmage, tryout or otherwise demonstrates his athletic ability either on or off the campus for a college shall be considered in violation of this rule.

Section 6.
All organized or formal basketball practices by players or teams shall be limited to the period beginning October 1 and ending with the date of the State Final Championship Basketball Tourney each school year.

Section 7.
There shall be ten separate days of organized practice in basketball under the direct supervision of the high school coaching staff by each player preceding participation in interschool contests. Only one practice may be counted for any one day.

Section 8.
All interschool basketball tourneys, other than the State Championship Tourney series, shall be held prior to February of each year. (Exception—See b below)

a. No interschool basketball tourney which involves more than four schools, shall be held without the sanction of the Association, except where all the schools are located in a single county.

b. Basketball tournaments for ninth grade and tournaments composed entirely of associate member teams shall be completed prior to the week of the sectional basketball tournament each year. Players who compete in the ninth grade tournament played after January 31, will not be eligible to compete in the State Championship Tourney Series.

Section 9.
Teams and players may participate in two basketball tourneys in addition to the tourneys of the State Basketball Championship Series under the following provisions:

a. The games in one tourney may be in addition to the regular schedule.

b. The games of the other tourney shall be included within the eighteen game limitation for the season's schedule.
The penalty for violation of this section is suspension.

Section 10.
A high school shall not be considered eligible to enter a sectional basketball tourney any year unless the team representing the high school has played eight (8) or more interschool games during that season before the Official Entry List for Tournaments is filed in the Association office.

Note: The following apply to the IHSAA tourney games:

a. Semi-state and State Final Tourney games will be played on floors 50 x 84 feet. Sectional and regional tourney games may be played on the floors of the same dimensions where conditions permit.
b. Playing floors shall be marked with a four foot end line wherever deemed practical.
c. The backboards shall be rectangles, six feet horizontally and four feet vertically in all IHSAA tourneys, but fan shaped boards as described in the official rules may be used in single games by mutual consent prior to the game.
d. If the backboard is transparent, it shall be marked as follows:
   A rectangle shall be centered behind the ring and marked by a two-inch white line. The rectangle shall have outside dimensions of twenty-four inches horizontally and eighteen inches vertically. For the rectangular backboard, the top edge of the baseline shall be level with the ring. Borders of the backboard should be marked with a white line three inches in width.
e. The regulation type of baskets, as described in the official rules, shall be used in all IHSAA tourneys, but other types of baskets may be used in single games by mutual consent prior to the game. The regulation type of basket shall be used in all IHSAA tourneys. Other types and other colors may be used in single games by mutual consent prior to the game.
f. The molded type of basketball, tanned in natural or orange leather color shall be used in all IHSAA tourneys. Other types and other colors may be used in single games by mutual consent prior to the game.

c. Teams or players participating in a tourney which extends into a second week shall not be permitted to enter a second tourney.
d. No tourney shall be scheduled to extend over more than two consecutive weekends.

Q.1 When may students practice basketball?
A. Organized or formal practices in basketball by players or teams may be held within the school from the period beginning October 1 and ending on the date of the State Final Championship Basketball Tourney each school year.

Q.2 Does the game limitation apply to the first team only?
A. The game limitation applies to any team—first, second, third, etc.

Q.5 Would a tourney held during two different weeks count as one tourney or two tourneys?
A. Two tourneys.

Q.6 May a high school have a complete schedule for the second team in any sport?
A. Yes, each school team can and should be considered a representative team of the high school and, as such, be governed by all of the Association rules and privileges.

Q.7 Has the Association established the size of a regulation basketball floor?
A. No, but the Association uses 50' x 84' in the Semi-State, and State Final, and recommends all floors to be marked with the four foot end-line.

Q.8 Is there a limit to the number of players a coach may use in a basketball game?
A. No; except in games and tourneys sponsored and managed by the Association.

Q.9 What is considered a game of basketball?
A. A game of any kind in the Association is an "inter" contest as distinguished from an "intra" contest. An "inter" scrimmage is a game.

Q.10 Must a boy, who has participated in football during the season, have ten days of organized practice in basketball before he is eligible to play in a game of basketball?
A. Yes.

Q.11 Are "Donkey Basketball," "Skruball," "Skateball" or other similar games considered basketball in the Association?
A. Yes, and all Association rules are binding.

Q.12 When does the basketball season begin and end for teams and individuals?
A. See Section 6 of this Rule.

Q.13 May member school players and teams play independent basketball in the interim between the sectional tourneys and the final tourney if the season in the school is closed?
A. No, such playing would constitute a violation.
Q.14 May more games than are allowed under the game limitation be played by a team by juggling the players on the teams?
A. No, the game limitation requirement holds for teams.

Q.15 May an “A” team or “first” team be designated as “B” team and thus evade the rule?
A. No, the wording of the rule and the spirit of the rule are clear and binding.

Q.16 Are vocational, agricultural and similar teams and players bound by the rules and regulations of the Association?
A. Yes, all member school teams and players are subject to these rules and regulations. The member school principal is responsible for all players and teams representing the high school in any way.

A. Yes, but players are limited to only four quarters in any one session.

Q.18 If a “practice” game of basketball is played is it to be counted as one of the eighteen games on the regular schedule?
A. Inter-“practice” games are regular games and must be counted as such. Intra-“practice” games are not counted as regular games.

While an athletic contest conducted under this interpretation would be similar to that of other independent amateur organizations, it is recommended that participating schools, through their principals, mutually agree to abide by Association rules except for such modifications as may be necessary.

Section 3.
The Tennis season is defined as beginning with the opening day of school, or September 1 if school is not in session, and ending with the last day of school each year.

PART III — GIRLS’ INTERSCHOOL ATHLETICS

POLICIES AND STANDARDS GOVERNING THE ADMINISTRATION OF GIRLS’ INTERSCHOOL ATHLETICS

Competitive sports are an important part of the total physical education program and opportunities for instruction and participation should be included in the educational experiences of every girl.
in the secondary school. Sports are an integral part of the culture in which we live and are valuable social tools which may be used to enrich the lives of girls in our society. Sports opportunities of all levels of skill should be available to girls who wish to take advantage of these experiences.

In the secondary schools, a program of intramural participation should be arranged to augment a sound and comprehensive instructional program in physical education for all girls. Interschool programs should not be organized until after there are broad instructional programs and a sufficient allotment of time, facilities, and personnel for new programs. The interschool program should not be promoted at the expense of the instructional or intramural programs.

When properly organized and conducted, interschool athletics should provide numerous opportunities for girls to participate in activities which promote self-confidence, growth and development, leadership qualities, and the establishment of desirable interpersonal relationships. These values are more readily attained when the program is based upon accepted standards and practices. When favorable conditions are present, competitive experiences may be wholesome and beneficial and result in acceptable conduct and attitudes. The adoption of practices best suited for the attainment of desirable outcomes is the responsibility of all associated with competitive events. Schools, players, teachers, coaches, officials, and spectators must share the responsibility for valid practices in competitive sports for high school girls.

The rules and regulations for girls' interschool athletics of the Association are based upon the following principles and policies. Those schools who wish to offer an interschool program in grades nine through twelve must adhere to these policies.

INDIANA LEAGUE OF HIGH SCHOOL GIRLS' ATHLETIC ASSOCIATION

-Purpose-

Many girls in high school are interested in a more extensive program of physical education than can be provided in the regular physical education classes. This desire for a more extensive physical education program has led many high schools to organize some type of girls' athletic association. In 1931 the Indiana League of High School Girls' Athletic Association was formed, with the purpose of stimulating the co-curricular phase of the high school girls' physical education program. Membership in the League is open to any high school in the State of Indiana. The League has the endorsement of the Indiana High School Athletic Association and the Division of Health and Physical Education of the Indiana State Board of Health.

The State League offers much to both physical education teachers and students. It provides opportunities for sponsors and students to exchange ideas, share problems, receive encouragement, and engage in a variety of learning activities. The enthusiasm generated through the enjoyment of learning and doing things with people of like interests is one of the main reasons the League is steadily growing.

Activities

Each organization carries on its own program of varied activities for which points are given. The purpose of awarding points is to encourage regularity of attendance and to furnish a uniform basis for awards, if a school desires to use awards. The Sponsor's Handbook explains the suggested point system.

The State League sponsors activities on both a state and a district basis. Each spring the League, with the co-operation of a state college or university physical education department as host, sponsors a Wall Plaque Winners' Playday. Attending this playday is perhaps as great an honor as winning the wall plaque, for here outstanding girls from all over Indiana come together for a day of fun and sport.

Each fall the League sponsors a State Leadership Camp—training girls and inspiring both girls and sponsors to be better leaders in their organizations, schools and communities. District activities include dance days, playdays, basketball clinics, and week-end camps—usually two or three such activities each year.

Q.3 May men coach girls in athletic games?
A. Yes. It is recommended, however, that women coaches and women officials be employed for girls' athletics.

Q.4 May girls' basketball teams play in state tournaments or national tournaments?
A. No.
PART IV — NATIONAL FEDERATION OF
STATE HIGH SCHOOL ASSOCIATIONS

Indiana was admitted in 1924. The National Federation was organized in 1920 and now consists of 50 member state high school associations. Canadian provinces of Manitoba, New Brunswick, Nova Scotia, Ontario, Prince Edward Island and Saskatchewan are affiliated.

These state associations have united to secure the benefits of cooperative action which eliminates unnecessary duplication of work and which increases efficiency through the pooling and coordinating of efforts of all who are engaged in high school athletic activities.

The legislative body is the National Council made up of one representative from each member state association. Such representative must be an officer or a member of his state board of control. The executive body is the Executive Committee of eight members elected by the National Council from the membership of the Boards of Control, Commissioners and executive secretaries of member state associations from eight territorial sections as outlined in the constitution. Terms are staggered and for three years.

The growth in size and influence of the state high school associations and their National Federation insures some degree of teamwork on the part of 20,100 high schools and this teamwork has enabled them to formulate policies and plans for improving high school athletic conditions and to make these plans function. The National Federation probably represents the largest closely knit organized body of athletes in the world. The opportunities for contributing to the welfare of the high school athletic program are unlimited.

The Federation was organized primarily to secure proper adherence to the eligibility rules of the various state associations in interstate contests and meets. As the prestige of the national organization grew, a program for the sanctioning of interstate meets was developed. This later led to definite action relative to national and sectional athletic events. At the present time, no national athletic meet or tournament is sanctioned. Meets or tournaments, which involve the schools of more than one state, are sanctioned in accordance with definite limitations in connection with the distance to be traveled, the type of sponsor, the amount of school time involved, and extent to which such events interfere with smaller meets which insure participation by greater numbers of those who need the training. The scope of the National Federation work has broadened so that all high school athletic and many non-athletic groups profit through an exchange of experiences and a pooling of interests.

The activities of the National Federation are based on the belief strong state and national high school athletic organizations are necessary to protect the athletic interests of the high schools, to promote an ever increasing growth of a type of interscholastic athletics which is educational in both objective and method and which can be justified as an integral part of the high school curriculum, and to protect high school boys from exploitation for purposes having no educational implications. To accomplish these things, it is necessary for high school men to exercise teamwork on a nationwide scale.
HISTORY OF IHSAA

The first attempt to organize the high schools of Indiana in a single Association for the purpose of handling athletic activities was made in a meeting of the Northern Indiana Teachers' Association held at Richmond in April, 1903. At this time there was a conference of high school principals, and the conference ended with a body of suggested rules and regulations, called the Richmond Agreement. Due to the fact that there was no central organization having executive power, the Richmond Agreement did little more than point the way toward something better.

Principal J. B. Pearcy, of Anderson, issued a call for a meeting of high school principals interested in a State Athletic organization for December 5, 1903. At this meeting a provisional constitution was adopted. At a similar meeting on December 29, 1908, a final constitution was adopted and a Board of Control of three members was chosen to administer the affairs of the IHSAA.

The first Board of Control was made up of Principal George W. Benton, Shortridge High School, Indianapolis; Superintendent Lotus D. Coffman, Salem, and Principal J. T. Giles, Marion. These men thought and planned well, and we are enjoying the fruits of their vision.

There were fifteen (15) high schools belonging to the IHSAA, March 1, 1904. The membership had a gradual growth through the years, and now includes almost all of the high schools in the state. The peak membership of eight hundred twenty (820) was reached in 1942, the year that private, parochial and institutional schools were admitted to the Association.

In the beginning, one member of the Board of Control served as Secretary, but it soon became very evident that this office furnished enough work for a special man. It was also seen that the future of this organization demanded that the office of Secretary be made more permanent than the office of Board Member. Accordingly, at the annual meeting in 1906 the office of Permanent Secretary was established, and Principal J. T. Giles of Marion was chosen by the principals to be the first Permanent Secretary. Principal Giles resigned on December 26, 1912, and Principal Isaac E. Neff, South Bend, was chosen by the principals to succeed him. Principal Neff resigned March 15, 1913, and the Board of Control appointed Principal Arthur L. Trester from Alexandria to serve as Permanent Secretary until the next annual meeting in December, 1913. At this meeting, Principal Trester was chosen by the principals as Permanent Secretary.

The Board of Control consisted of three members, chosen by the principals in their annual meetings, until the annual meeting of October 27, 1915. At this meeting it was decided to divide the State into five districts for administrative and representative purposes, and that each district should have one representative on the Board of Control, chosen by mail ballot from his own district by the principals of his district.

In September, 1925, by a referendum vote the principals passed a legislative body proposal calling for four members from each of the five (5) IHSAA districts. The five members of the Board of Control, serving ex officio, and the fifteen other members elected by the principals in a mail vote constituted this legislative body. Prior to this plan all legislation was done at the annual meeting or by referendum voting by mail. This Legislative Body of twenty members passed on all proposals submitted by the high school principals. It was the law making body of the Association. The plan was considered a step in advance in state administration and legislation in athletic activities.

On December 13, 1930, the Legislative Body considered and passed without a dissenting vote the provisions for an Athletic Council. The plan in full continued the five IHSAA districts in the state and arranged for five representatives on the Athletic Council from each district by classes determined by enrollments in the high schools, thus making the Athletic Council a body of twenty-five members representing all sizes of high schools and all districts of the state at all times and elected by the high school principals in the membership. A provision was included for the selection of a 5-man Board of Control from the membership of the Athletic Council by the members of the Athletic Council. The Athletic Council took over the duties of the former Legislative Body and is considered the law making body of the Association.

The title "Permanent Secretary," established in 1906, was changed to "Commissioner of High School Athletics" in October, 1929, by the Legislative Body, and the Commissioner was granted the powers and duties belonging to a Commissioner of Athletics. Mr. Trester continued to serve as commissioner until the date of his death, September 18, 1944. The Board of Control designated Superintendent Morris E. McCarty of Lafayette to serve as Acting Commissioner. In December, 1944, Principal L. V. Phillips of Vincennes was chosen Commissioner to take office January 1, 1945. In 1944, the Board of Control was given authority to employ an Assistant Commissioner. Robert S. Hinshaw, Director of Athletics in Rushville High School, was appointed to November 1945 to take office December 10, 1945 to become the First Assistant Commissioner of Athletics for the IHSAA. In July, 1961, Herman F. Keller of Evansville Bosse High School became the second Assistant Commissioner of Athletics after the death of Mr. Hinshaw. On the retirement of L. V. Phillips, July 31, 1962, the Board of Control selected Phil N. Eskew, Superintendent, Huntington Public Schools, as the third Commissioner of Athletics. The Board conferred the title of "Honorary Commissioner" on L. V. Phillips, on August 1, 1969, Ward E. Brown, Principal of Crawfordville High School, was selected as Assistant Commissioner to work with Mr. Eskew and Mr. Keller, and on January 1, 1972, Miss Patricia Roy of East Gary was selected as Director of Girls' Athletics for the Association.

The primary purpose of the organizers of the IHSAA, to manage and to foster high school athletics on a high plane, has been upheld as an ideal by the Association through the life of the IHSAA. New and advanced steps have been taken whenever conditions made
them necessary. In the beginning, the Association concerned itself largely with track and football. As time went on it became increasingly evident that the IHSAA should assume the initiative for a well-balanced athletic program to meet the demands of all schools and all students desiring to participate in athletics. The Association now sponsors football, baseball, cross country, basketball, swimming, wrestling, golf, tennis, gymnastics, track and field, and girls' play days. State championships are determined in tennis, cross country, swimming, wrestling, basketball, track, golf, gymnastics and baseball.

A study of the men who have served on the Board of Control through the years will show clearly that the activities of the IHSAA have been in good hands. The titles and addresses are given as they were when the men were Board of Control members. A complete list of former Board members follows:

The minutes of the previous meeting were approved as written.

POWERS AND DUTIES
As is the custom at the August Meeting of the Board of Control, the Commissioner reviewed in detail the powers and duties of the Board, the Commissioner and the Assistant Commissioners as set forth in the IHSAA Constitution and By-Laws.

IHSAA OFFICE
Ernst and Ernst, certified public accountants, had completed the audit of the IHSAA finances for the year, July 1, 1970 to June 30, 1971. Each member of the Board was provided with a copy of this audit. It is understood that a copy of the audit will be published in the 1971 Handbook.

All members of the Board of Control, the Commissioner and the Assistant Commissioners visited the safe deposit vault at the American Fletcher National Bank and Trust Company where the securities of the IHSAA were checked. It is understood that a listing of these securities will be printed in the 1971 Handbook.

IHSAA SECURITIES
The Commissioner reported that U. S. Treasury Bonds due August 15, in the amount of $15,000.00 were exchanged for U. S. Treasury Bonds due August 15, 1981 at 7% interest.

ANNUAL MEETING
Tentative plans for the annual meeting of the IHSAA, November 4, 1971, at the Fairgrounds were discussed. The Commissioner reported that he had secured Mr. Bernie Saggaue, Commissioner of the Iowa High School Association as the speaker.

SECONDARY SCHOOL PRINCIPALS ASSOCIATION
Approval was given for the payment of $75.00 to the Indiana Association of Secondary School Principals to be applied on the expenses of the Association’s annual program.

HEALTH, PHYSICAL EDUCATION AND RECREATION
As has been the custom for several years, the Board voted to make available upon request a sum not to exceed $50.00 to each of the divisions of Indiana Health, Physical Education and Recreation Association for securing a speaker outside Indiana for their meetings held at the time of the Indiana State Teachers’ Association Meeting.

RULES CLINICS AND FILMS
Assistant Commissioner Keller reported to the Board on the rules clinics and films being sponsored for the IHSAA and local officials associations throughout the state.

The Board unanimously approved required attendance at a minimum of one rules clinic for football, basketball, baseball and wrestling coaches.

CROSS COUNTRY
The Board approved work done on the Cross Country Meet Series and directed the Commissioner’s office to proceed with other details and publish all information in the August Bulletin.

TENNIS
Plans for the State Tennis Meet Series were approved by the Board with instructions to publish all information in the August Bulletin.

SUPERVISOR FOR GIRLS’ ATHLETICS
On July 9, a letter was mailed to all member school principals notifying them that the Board plans to employ a lady to serve as supervisor for girls’ athletics and suggesting if they knew anyone who was interested to have them make application. The GAA Committee asked Sally Dill, the President of IHSLGA, to write her district chairmen and ask them to submit names of qualified persons.

The Board instructed the Commissioner to send letters to all persons whose names were suggested. This letter is to instruct those persons to make formal application to the IHSAA not later than September 15, if they are interested in being considered for such a position.

COURT CASES
The Commissioner reviewed the status of the pending court cases for members of the Board.

GYMNASTICS CLINIC
Approval was given for the IHSAA to sponsor a gymnastics clinic. Coach John Hinds of Columbus, who is chairman of the National Rules Committee, is to assist the IHSAA in details of the clinic.
ATHLETIC COUNCIL MEMBERSHIP

An interpretation was requested on Article IV, Section 3 d. If a member of the Athletic Council was employed by the State Department of Public Instruction and was assigned to the district which he represents would he maintain his eligibility for membership on the Council?

It was the opinion of the Board he would not be eligible under such circumstances to continue membership since he represented no specific school and was not paid by any school corporation.

EAST NOBLE HIGH SCHOOL (KENDALLVILLE)—DAVID McCLISH

This student lived with his mother in the Garrett school district and attended school there. During the summer he moved to the East Noble school district to live with his father. Principal Tritch asked the Board to determine David's eligibility.

DECISION

Under rule 22, section 6g, David is ineligible for one calendar year from the date of his enrollment in East Noble High School.

EDGEOOOD HIGH SCHOOL (ELLETTSVILLE) — DONALD WARTHAN

Due to an oversight in checking scholastic requirements, this student participated in interscholastic athletics during the second semester of the 1970-71 school year while ineligible. When this was discovered Donald was declared ineligible for the remainder of that semester and his next semester in school. Principal McConnell asked the Board to review the case and declare Donald eligible for the fall semester of the 1971-72 school year.

DECISION

Under rule 16, section 3, Donald is ineligible for the first semester of this school year (1971-72).

EDINBURG HIGH SCHOOL—TERRY MOSIER

Terry has been living with his mother in Columbus, where he attended school through the ninth grade. During this summer he moved to live with his father in Edinburg. Principal McCullum of Edinburg asked the Board to determine his eligibility.

DECISION

Under rule 22, section 6g, Terry is ineligible for one calendar year from the date of his enrollment in Edinburg High School.

INDIANAPOLIS NORTHWEST HIGH SCHOOL — TIMOTHY KEVIN

Due to a mixup in this boys' schedule he only took three and one-half credits during the second semester of the 1970-71 school year. He did not take any courses during the summer to make up the one-half credit. Principal Kenneth Smartz asked the Board to determine Timothy's eligibility.

DECISION

Under rule 20, section 1, Timothy is ineligible this entire semester as he did not meet the scholastic standards for eligibility.

MARION HIGH SCHOOL—BARTON SMITH

This student attended Marion Community Schools from kindergarten through the tenth grade. During the eleventh grade he withdrew and enrolled in Culver Military Academy. He has now returned to Marion High School for the 1971-72 school year. Principal William McColy of Marion asked the Board to determine the student's eligibility.

DECISION

Since this is a violation of rule 22, section 6d, Barton is ineligible for one calendar year from the date of his re-enrollment in Marion High School.

SPEEEDWAY HIGH SCHOOL—MIKE S. WALKER

This student is a ward of the Tippecanoe County Welfare Department. During the 1970-71 school year he was in a home in Lafayette where he attended Tecumseh Junior High School. IHSAA BOARD OF CONTROL MEETING

Indianapolis, Indiana, September 9, 1971

PRESENT: President R. M. Liechty, Cecil R. Erwin, Lester J. Page, Fred F. Park, Clifford Swim, Commissioner Phil N. Eskew and Assistant Commissioners Herman F. Keller and Ward E. Brown

COURT CASES

Harold Bell, IHSAA attorney, discussed the litigation in which the IHSAA is involved.

VALPARAISO DECISION

By unanimous vote the Board instructed Mr. Bell to file an appeal in the decision of Judge Eschbach in the Charles Weilands vs. Valparaiso and IHSAA Case.

93
MARRIAGE RULE

1. The Board authorized the following statement to member schools: After a thorough discussion with our attorney regarding the Valparaiso High School case decision made by U. S. District Court Judge Eschbach—your Board of Control has decided that this rule is presently unenforceable and an appeal will be made to a higher court.

2. Therefore, a student presently CANNOT be declared ineligible solely because of marriage.

3. Where additional known facts would apply you may want to consider Rule 3, Section 5, which states: “The principal has the authority to exclude any contestant who because of bad habits or improper conduct, would not represent his school in a becoming manner.”
   a. This relates not to eligibility but to the principals’ responsibility in selecting students to represent his school in interscholastic athletics.
   b. Just remember that such reason would be required under oath in case of litigation.

BLOOMINGTON UNIVERSITY HIGH SCHOOL — WARREN STURRUP

The IHSAA Board of Control was notified of a hearing scheduled with Judge James M. Dixon in Monroe County Superior Court at Bloomington on behalf of Warren Sturrup who is a junior football player and wrestler enrolled in University High School.

Sturrup lived with his parents in Miami, Florida and attended Palmetto High School last year before moving to Bloomington to reside with his brother. After participating in three football games at University High School this year he and his brother were informed, in writing, by Dr. Robert Mahan, University High School Principal, that according to IHSAA Rule 22, Warren would be ineligible; the rule further provides that further written evidence may be obtained from his former high school principal stating that the change was unavoidable in order that the student have a home; and that after additional evidence is acquired, according to the rule, such must be referred to the Board of Control for final disposition.

The requested evidence was never acquired.

On Wednesday, October 6, Principal Mahan was served a legal notice of the hearing on a preliminary injunction scheduled for Friday, October 8.

Every effort was made by Commissioner Eskew in gathering accumulated evidence from the University High School principal and additional evidence was obtained from the parent, former principal and assistant principal of Palmetto High School. According to Rule 22, all such evidence is to be required by University High School principal before permitting the student to compete.

DECISION

According to Rule 22, Warren Sturrup cannot be considered eligible as to residence until he has been enrolled in University High School for one calendar year.

If and when additional pertinent evidence is received by the Board of Control, it will review the case.

The Commissioner reported that Judge William T. Sharp of Owen County refused to grant an injunction in the Sturrup case.

Judge Sharp's decision included the following statements:

"... Participation as a representative of University High School in interscholastic athletic contests is a privilege and not an exercise by the plaintiff of a fundamental right which is protected by the constitution."

"The rule of the defendant association distinguishing between eligibility of students whose residence changes along with that of their parents and those students who change their residence without their parents' corresponding residency change is not inherently suspect and irrational, but is with impartiality and considered judgment directed toward the legitimate concern of defendant association that the student athletes of its members not transfer from one school to another because of any preoccupation with their interscholastic athletic activities or because of any recruitment activities of the schools themselves or their enthusiastic community supporters."

"The granting of an injunction against the defendants barring enforcement of the existing residency rules of defendant association because the interests of plaintiff would be enhanced would be a substitution of this court's judgment for that of the member schools of defendant association and would create chaos in the administration of its affairs and greatly hamper its effectiveness in carrying out its worthwhile program and objectives.

Conclusions of Law

"1. The plaintiff has not shown an irreparable injury to plaintiff's civil or property rights."

104
2. This court should not substitute its judgment for that of defendant association in the making and interpreting of its rules.
3. The law is with the defendant.
   "It is therefore ordered, adjudged and decreed that plaintiff's application for preliminary injunction in this cause be and it is hereby denied."

DECISION
Rule 22, section 2, states:
"If a student transfers from one school of a city or school corporation to another of the same city or school corporation, he shall be ineligible for participation for one calendar year unless there are definitely marked districts and his parents actually change their residence to the new school district."

for interscholastic athletics for one calendar year from the date of his enrollment in St. Joseph's High School.

When he was placed in the brother's home in the Washington district, his eligibility at Washington High School could have been established under the unavoidable change of residence rule; however, since he has enrolled in St. Joseph's High School he could not now enroll in any high school in the St. Joseph's attendance district or in the South Bend attendance district with residence eligibility before one calendar year from the date of his enrollment in such school.

A map showing the newly established dividing line between the two remaining school districts was enclosed and is on file in the IHSSA Office.

The three Catholic high schools in Fort Wayne had definite boundaries within the city limits for enrollment into the three schools. Those who lived outside the city limits were free to attend any one of three schools. With the merging of the three schools into two, a new boundary line has been set. Basically, the boundary line will divide Fort Wayne into North and South. Those who reside in the northern section will attend Bishop Dwenger and those who live in the southern section will attend Bishop Luers high school. The boundary line going from west to east, from city limits to city limits, highway 14, which becomes the Illinois Road, to highway 24, which becomes Jefferson Street and then Washington Street which is the northern most part of highway 24 since Jefferson and Washington are one-way streets through Fort Wayne. The boundary line continues on Washington through town to Coliseum Boulevard which is the eastern city limits for Fort Wayne.

Reverend Seculoff has asked the Board to determine the eligibility of the students attending Central Catholic High School.

DECISION

1. Beginning with the 1972-73 school year grade nine students and 1971-72 Central Catholic High School grade nine, ten and eleven students living north of the boundary line, but within the Fort Wayne city limits, may be considered eligible as to residence at Bishop Dwenger High School.

2. Beginning with the 1972-73 school year grade nine students and 1971-72 Central Catholic High School grade nine, ten or eleven students living south of the boundary line, but within the Fort Wayne city limits, may be considered eligible as to residence at Bishop Luers High School.

3. Beginning with the 1972-73 school year grade nine students and 1971-72 Central Catholic High School grade nine, ten or eleven students living outside the city limits of Fort Wayne may choose either Bishop Luers or Bishop Dwenger High Schools. With residence eligibility provided there is no undue influence involved. Such students will not be considered eligible in any other high school unless their parents actually move to a new school district.

That, in spite of said routine supervision and precautions, the Gary West Side student personnel and followers were not controlled and engaged in damage to property and inflicted physical injury to other spectators, largely as an apparent expression of disappointment at losing the final game of the tournament.

IHSAA BOARD OF CONTROL MEETING
Indianapolis, Indiana, June 23 & 24, 1972

ABSENT: Incoming Board Member Lowell McGlothlin.

NORTH VERMILLION HIGH SCHOOL (Cayuga)—STEVE WIREMAN
This student lived with his parents in the Turkey Run school district and attended school there. On April 12, 1972, he moved to live with an aunt, who had been appointed his legal guardian. The aunt lived in the North Vermillion district. The reason for the move, as stated by Principal Tilford, was that the aunt’s husband had died and someone was needed to help in transporting the aunt’s daughter to school as the daughter suffered from tuberculous sclerosis and was unable to ride the school bus. Principal Tilford asked the Board to consider Steve’s eligibility under the unavoidable change of residence rule.

DECISION
Steve Wireman is ineligible for 365 days from the date of his enrollment at North Vermillion High School this spring.

NEWS MEDIA MEETINGS
Approval was given for seven area meetings with members of the news media during September, 1972.

IHSAA OFFICE
A salary schedule was adopted for office secretaries which included a $5.00 per week increase for all full time employees.

The Board instructed the Commissioner to prepare new three-year contracts with an increase in salary of $1,000.00 each for the Commissioner and two Assistant Commissioners.

L. V. PHILLIPS AWARD
Nominations submitted by the principal and coach of each competing school were carefully analyzed by the Board Members. After observing all three games of the 1972 State Final Baseball Tournament it was the unanimous decision of the Board of Control that the L. V. Phillips Award be presented to Alan Beiter of South Adams High School.

The Board of Control adjourned to meet again in St. Charles, Illinois on June 30, 1972.

IHSAA BOARD OF CONTROL MEETING
St. Charles, Illinois, June 30, 1972

The minutes of the June 10, 13, and 19, meetings were approved as written. Minutes of the June 24, meeting were approved as corrected.

FINANCIAL REPORTS OF TOURNEYS
Financial reports of tourneys held during the past year were presented, examined, approved and ordered published in the 1972 Hand-
BUDGET AND FINANCES

Careful consideration was given to a budget recommended by the Commissioner for 1972-73. Three new items were added to the budget this year. These items are: Professional Services (which includes legal fees and audit); Testing and Observing Officials and Public Relations (which is primarily for expenses in the area principals meetings). The Board gave approval to a few expenditures in excess of the 1971-72 budget. The Commissioner presented a statement of receipts and expenditures over the past twelve months together with an itemized statement of government securities owned by the IHSAA at present. It is understood that an independent audit will be made by Ernst and Ernst Accountants soon after July 1. Results of this audit will be published in the 1972 Handbook.

The recommended budget was approved with additional funds added to the Professional Services Account.

The Commissioner was authorized to deposit with the American Fletcher National Bank and Trust Company of Indianapolis for exchange or credit as needed to keep a safe balance in the bank, such securities as may come due. It is understood that all transactions in securities are to be reported at the next Board of Control meeting following such transactions.

SPECIAL DISTRIBUTION OF FUNDS

After giving careful consideration to the amount of funds on hand, estimated expenditures during the coming year, and the need for adequate reserve in the IHSAA Treasury, the Board set $80.00 as the maximum amount of surplus funds to be paid any member school in the special distribution, October, 1972. Because there was a regular distribution in 1971, all the money to be distributed was earned during the current year.

It was decided to make the distribution according to the following plan:

1. Sixty dollars for participation in the 1972 sectional basketball tourney.
2. Twenty dollars for membership in the IHSAA during the 1971-72 membership year.
3. No school shall receive credit for a years' membership unless it was a member of the IHSAA on January 1, 1972.
4. Any school sharing the special distribution must be a member in good standing and existing as a high school at the time of the distribution.
5. A combination or consolidation of two or more high schools shall count as one school only in this distribution. The check for one share shall be sent to the principal of the new or resulting school.

OFFICIALS

A detailed report was presented on the registration of officials in the various sports. The report showed that for 1971-72 year the IHSAA had licensed a total of 4452 officials and had received a total of $47,184.00 from officials payment of fees.

COMMISSIONER AND ASSISTANT COMMISSIONERS

The Board signed new three year contracts with the Commissioner and Assistant Commissioners.

CROSS COUNTRY

The Board voted unanimously to make the following changes in the cross country regulations:

1. Distance—from two to two and one-half miles.
2. For the tournament series, a maximum of seven contestants may participate as a team with the team score being determined by totaling the points scored by the first five finishing contestants on each team.

TENNIS

The Commissioner presented some proposals from the Tennis Committee for reorganization of the state tennis meet series. Due to the time element, the Board did not adopt these proposals as they want to further study the plans.

The Board of Control set up sixteen sectional tennis tournaments. *Schools from these counties did not compete in 1970.

SCHOOLS ELIGIBLE—These meets are open to all members of the Association except to schools holding preparatory, junior or associate memberships.

ELIGIBILITY OF ENTRIES—The eligibility of each participant shall be certified by the principal of his school. The official entry blank must be used and all data given. ENTRIES WILL CLOSE WEDNESDAY, SEPTEMBER 22, 1971 at 4:00 P.M. The entry lists must be in the IHSAA Office and sectional center principal's office complete in every detail by 4:00 p.m. on that date.

ENTRANTS—Only two teams of doubles and two competitors in singles from any one school will be permitted to compete. No competitor will be permitted to compete in both doubles and singles. A school may enter either singles players or doubles teams or both. Two alternates may be entered for the singles and two alternates for the doubles teams. Singles alternates may substitute only for singles players. Doubles alternates may substitute only for doubles. The same alternates may not be used for both singles and doubles.

MANAGEMENT—The management of these meets rests solely with the Board of Control. Responsibility of local arrangements has been delegated to the Center Principal.

RULES—Unless otherwise specifically provided in the IHSAA instructions, the U. S. Lawn Tennis Association rules shall govern in all tournaments.

TYPE OF BALL—Any standard brand ball manufactured by a reputable manufacturing firm.

AWARDS—Suitable ribbons will be presented to the two boys who place first and second in the singles and to the members of the two teams which place first and second in the doubles.

A trophy will be awarded to the winning school.

EXPENSES—There will be no entry fee. Traveling expenses and meals are to be paid by the competing schools.

EQUIPMENT—Each competitor will be required to appear fully equipped with rackets, two or more good balls, preferably new ones, and all other necessary equipment.

New balls shall be provided by the host manager for all matches. Competitors should be provided new balls if a match goes into a third set.

DRESS—A player shall wear a shirt at all times on the court.

INTERRUPTED MATCHES—in case of bad weather, play should be continued on the first fair day, excluding Sunday, thereafter.

A disrupted or postponed match should be resumed at the point where it was discontinued. No matches should be replayed nor the schedule of games altered in any way. It is recommended that a student play no more than two matches per day.

198
METHOD OF PAIRING—The tournament manager shall call a meeting in advance of the meet for the purpose of drawing the playing schedule. Each school may have a representative at the meeting. The two top seeded singles players and the two top seeded doubles teams should be placed in opposite brackets.

The No. 1 and No. 2 singles players and doubles teams from the same school shall be drawn by lot. The first drawn shall be placed at the top of the upper half and the second at the top of the lower half.

The No. 1 singles players and doubles teams shall be paired with No. 2 singles and doubles teams in the first round.

At least thirty minutes shall lapse between the semi-final and final matches.

SCORING—Singles—Two points shall be awarded to the winner of the first round and two additional points shall be awarded for each round won thereafter.

Doubles—Three points shall be awarded the winner of the first round and three additional points shall be awarded for each round thereafter.

A bye or default will be counted as a win and the proper number of points will be awarded to the player who draws a bye or wins by default. However, no points for byes shall be awarded unless the player or team wins the next match following the bye.

When the score becomes 6-6 in set one or two the nine-point tie breaker system will be used. The player who receives five points is declared the winner 7-6. The procedure for using this system is: "A" serves the first two points; "B" serves the next two points; opponents change sides and "A" serves the next two points, if needed; "B" serves the next three points, if needed; "B" would serve the next game.

FACULTY REPRESENTATIVE—Contestants must be accompanied by a coach or a faculty member designated by the principal.

SECTIONAL SUBSTITUTIONS—In sectional play any substitutions may be made until actual play has started; however, the substitute must play in the original assigned position of the player he replaces. UNDER NO CIRCUMSTANCES SHALL THE SCHEDULE OF PLAY BE REDRAWN.

REGIONAL AND STATE SUBSTITUTIONS—The only eligible substitutes for players who qualify in the singles for the regional or state tournament shall be the singles runners-up. Substitution may be made for a doubles player in case of illness or injury if made prior to the beginning of the regional meet. He must be taken from the doubles alternate list certified on the original entry blank.

REGIONAL MEET QUALIFICATIONS—(1) The first place winner in singles and the first place winning doubles team shall qualify for a Regional Meet. (2) The second place winners in each of above shall be the alternates.

WARNING—Entries close at 4:00 p.m. Wednesday, September 22, 1971. Send all entries to the IHSAA, 312 Circle Tower, Indianapolis, Indiana, 46204. It is suggested that entries be mailed at least two school days prior to the deadline due to the mail service.

Cross Country

Southport High School won its second straight State Cross Country Championship in a most convincing manner. This was the twenty-sixth annual cross country championship meet and one of the most colorful. The weather was beautiful and the competition keen. Another record crowd was in attendance.

Southport, which has not lost in the last two seasons, ran away with the meet by scoring the unusually low total of 56 points. On the team scoring basis, Southport runners placed first, third, thirteenth, eighteenth and twenty-first. This great team balance provided the easy victory.

Robin Shipman of Bedford High School, one of Indiana's finest high school distance runners, defeated the defending individual state champion, Phil Wysong of West Noble. These two runners ran stride for stride until near the end at which time Shipman took the lead and won going away. He won in a record clocking of 9:20.0. Wysong's time for second was 9:33.6. In third place was Dirk Berard of Crawfordsville in 9:36.5, fourth was Brant Bennett of Southport—9:36.9 and fifth was Jim Rasch of Munster—9:38.5.

Sixteen complete teams and twelve individuals participated in the state cross country meet. Three hundred sixty teams participated in sixteen sectionals.

There were 4 regional cross country meets. North Vigo of Terre Haute won at Bloomington, Elkhart at Fort Wayne, Griffith at LaPorte and Southport at Richmond.

Final team standings were as follows:

1. Southport .......... 56 9. Elmhurst (Ft. Wayne) .219
2. Northwestern (Kokomo) 129 10. Northrop (Ft. Wayne) .229
3. Griffith ............134 11. Madison (Ft. Wayne) .222

CROSS COUNTRY SECTIONAL MEETS

The Board of Control set up sixteen sectional cross country meets to be held Friday, October 15, 1971 after 4:00 P.M. These meets are conducted as an elimination series in order to select teams and individuals for the regional meets.

Sixteen sectional centers have been chosen over the state. The following bases were used in selecting these centers: schools competing in cross country in 1970, travel distance, number of teams in that area, and a willingness on the part of high schools to make their facilities available for the promotion of these meets. THE BOARD MAY FIND IT NECESSARY TO ALTER THIS PLAN IF A GREATER NUMBER OF SCHOOLS ENTER THAN IS ANTICIPATED.

Schools have been assigned by counties and the accompanying plan gives the Center Principals and the counties assigned to each center.

Official entry lists are necessary and accompany this bulletin to the principal.

ASSIGNMENT OF SCHOOLS TO CENTERS BY COUNTIES

1. BLOOMINGTON—(John T. Jones, Principal) Brown, Daviess, Greene, Knox, Lawrence, Orange, Owen, Martin, Monroe, Morgan.

MANAGEMENT—The management of these meets rests solely with the Board of Control. Responsibility for local arrangements has been delegated to the center principals. All meet officials will be selected by the center principals except the referee-starter, who will be assigned by the Board of Control.

The meet must be held Friday afternoon, October 15 after 4 p.m. unless previous arrangements have been made by the center principal. The center principal shall notify all participating schools and the IHSAA office by Tuesday, October 12, as to the time and place of holding the meet. The center principal shall arrange a program for his meet from the entries sent to him and confirmed by the Commissioner. Team positions at the start are to be drawn by lot.

OPEN CONTEST—These meets are open to all members of the IHSAA except to schools holding junior, preparatory or associate memberships. A school may certify twelve students, with no more than six participating as a team for the championship. Schools that do not enter a team may enter one or more students to compete for the individual awards.

NOTE: Each year some schools file entry blanks, then fail to participate in the meet. You are requested not to file an entry blank unless you fully intend to enter a sectional meet. If for any reason, after filing an entry blank, it becomes necessary to withdraw, please notify the IHSAA office and the sectional center principal immediately.

ENTERTAINMENT—The center principal shall provide adequate dressing rooms, lockers and shower facilities for all contestants.

EXPENSES—There will be no entry fee. Traveling expenses, meals and lodging are to be paid by the competing schools.

ELIGIBILITY—The eligibility of each player shall be certified to the principal of his school. The official entry list must be used, and all data given. Entries positively will close Wednesday, October 6. The entry lists must be in the hands of the Commissioner and the center principal, complete in every detail, by 4 p.m. on that date. Twelve students may be certified for the meet, with six or fewer participating on the date of the meet.

LENGTH OF COURSE—The course must be approximately two miles in length. If possible, it should be laid out on rolling terrain.

SCORING—All competitors who complete the race shall be ranked and tallied in accordance with their placement at the finish. Individuals are ranked and tallied in the placement column, but their position is dropped and not recorded in the team scoring column. The team score shall be determined by totaling the points scored by the first five finishing contestants on each team. The team which scores the lowest number of points will be the winner. In the event of a tie, the tie is to be broken by adding the position of the sixth place man on each of the tied teams. The team with the lower score will then be awarded the proper place.

In case one of the teams involved in the tie has only five participating members, the team with six participating members, will be awarded the higher ranking position. (Example: In case of a tie for third place, the five-man team will be automatically awarded fourth place.)

RULES—Each contestant shall wear numbers on both the front and back of his shirt. The rules of cross country running as found in the 1971 National Alliance Edition of the Track and Field Rules shall govern—with IHSAA exceptions, the length of course and limit of contestants. Shoes which have rubber or leather soles must be worn by all contestants during the entire event.

PRIZES—Suitable ribbons will be presented by the IHSAA to the members of the teams qualifying for the regional meet, provided they finish the race. The first five individual winners will receive ribbons. The IHSAA will award a trophy to the winning school.

QUALIFICATIONS FOR REGIONAL MEETS—The first four teams to finish in each sectional shall be eligible to advance to the regional meets. The first five individuals to finish shall be eligible for the regional meet regardless of their team position.

*A school must have five or more boys finishing the race to be considered a team competing in that sectional.

CROSS COUNTRY REGIONAL MEETS

HAROLD F. MUMBY AWARD

After being a member of the 1924 Indiana University Big Ten championship wrestling team, Harold F. Mumby taught and coached at Bloomington High School from 1926 to 1946. During the twenty years of coaching, he attained many outstanding feats including the coaching of ten state championship wrestling teams. His dedication to youth, as he inspired them to succeed through hard work and fair play, was recognized and respected by everyone.

The Indiana High School Wrestling Coaches Association presented the Harold F. Mumby Award from 1966-71 to the outstanding wrestler in the State Meet.

The IHSAA Board of Control will sponsor the HAROLD F. MUMBY AWARD FOR MENTAL ATTITUDE to an outstanding participant in the State Wrestling Meet beginning this year. The recipient of this plaque must be a senior who excels in mental attitude, scholarship, school citizenship and athletic ability in wrestling.

**Basketball**

Connersville High School won the sixty-third annual State Basketball Championship tournament. Their record was 20-3.

The State Tournament was held for the first time in spacious new Indiana University Assembly Hall. A record crowd of 17,427 was in attendance.

In the championship game the underdog Connorsville Spartans led all the way except for a few seconds near the end of the first quarter. Their lead was 14-11 at the quarter, 45-38 at halftime and 58-46 going into the final quarter. The final score was 80-63. The meticulous and well-drilled Spartans executed well during the entire game. The play of the guards, Larry Miller and Gary Redelman with 26 and 20 points respectively was particularly outstanding. Phil Cox added 18 points and 9 rebounds.

In the first afternoon game Gary West with a blistering 15 of 28 first half shooting defeated Madison Heights of Anderson by a score of 75-67. The score at the quarter was 20-12, 45-28 at halftime; 61-45 at the three quarter mark and the final score 75-67 with Gary West leading all the way. Madison Heights gamely charged back, but due to the large lead built up by Gary West in the first half and inability to hit free throws could never close the gap.

The second game of the afternoon was a nerveshattering, heartstopping double overtime game in which Connersville defeated Jeffersonville 76-69. Connersville led 14-12 at the quarter; 35-32 at halftime and 50-49 going into the final quarter. However Jeffersonville outscored Connersville 22-15 in the final quarter and tied the score at 65 all. In the first overtime, each team tallied 4 points to remain deadlocked at 69. However, in the second overtime Connersville scored 7 points to 0 for Jeffersonville, making the final score 76-69 in favor of Connersville.

The Board of Control selected Mark Inman of Jeffersonville High School as the recipient of the coveted Arthur L. Trester Award for Mental Attitude.

Consolidations again decreased the number of participants from 485 the previous year to 427.

**ANNOUNCEMENT OF STATE BASKETBALL TOURNAMENT SERIES**

**THE SIXTY-SECOND ANNUAL**

The Board of Control has completed the details for the State Championship Basketball Tourneys and announces the plan in full;
GENERAL INFORMATION CONCERNING SECTIONAL, REGIONAL, SEMI-STATE AND STATE TOURNAYS

1. TYPE OF BALL—The molded type basketball approved orange or natural tan has been legalized for the State Championship Series. See pages 17 and 39 for Semi-State and State balls.

2. PRIZES—No prizes of any kind are to be awarded to any school or individual from any source, other than the IHSAA. The IHSAA will present a trophy to each sectional winner.

3. RADIO AND TELEVISION COVERAGE—Radio and television stations in Indiana may broadcast or telescast IHSAA tournaments provided the requirements in the “IHSAA Rules and Regulations Governing Broadcasting and Telecasting” are observed. Station managers and Center Principals will have copies of these rules and regulations. No delayed broadcasts of these games will be permitted during school hours. Television stations may be permitted to telescast only the final game of Sectional and Regional Tournaments as well as all games of Semi-State and State Tournaments. Advanced written approval must be obtained from the Center Principal for broadcasting or telescasting all tournaments except the State Final. Telecasting restrictions are: 1. Stations may telescast in their home area only. 2. Delayed telescasts will not be permitted. 3. A guarantee must be posted to cover costs of unsold seats for the sessions telescast.

4. PICTURES—Flashlight pictures of the players shall not be taken during the progress of the games, except where photographers use speed light cameras. This ruling is meant to protect the vision of the players. Photographers desiring to take pictures shall make previous arrangements with the management of the tourney. The number of photographers and their locations shall be determined by the Center School management. Filming of tournament games will not be permitted.

5. SOUVENIR PROGRAMS—Souvenir programs other than those provided by the IHSAA shall not be distributed or sold at any tourney, and no solicitation of advertisements shall be made. Neither the Board of Control nor the Commissioner’s Office will approve the distribution of such material at any tourney. Any one claiming to have such approval should be reported to the IHSAA office immediately. All principals should notify their business men now.

6. SUGGESTIONS—Sectional Center Principals and participating principals should work with each other prior to the tourney, during the tourney and after the tourney. A conference of all principals, several days prior to the tourney, would result in an agreement on all points such as meals, transportation, rest rooms, seating, tickets, reports, etc. Agreements reached prior to tourneys prevent difficulties during and after tourneys. Make and keep copies of all agreements.

7. MANAGEMENT—The exclusive control of all these tourneys rests solely with the Board of Control according to the IHSAA Constitution. Local arrangements have been delegated to the Center Principals. Officials for each tourney will be selected and assigned by the Board of Control, and every effort will be made to choose only fair, interested, and competent men. All schedules and assignment of officials will be made and distributed by the Board. All schedules will be drawn by lot by the Board of Control, and no changes will be made in them. Representatives of the press will be invited.

8. TIME SCHEDULE—All sectional tourneys will be held on the prevailing time of the community in which the center is located. Game times will be 7:00 & 8:30 PM for two-game sessions, 7:00 PM for first game session and 8:30 PM for second game session. All tourney games will be held at 8:00 PM.

9. OFFICIALS—The assignment of game officials and their decisions will be considered final. Schools enter the tourneys with this understanding. Give this information to your students and others now.

10. PRIVILEGES—Twelve competing players, coaches, principal and student manager for each team (16 in all) shall be admitted free to all games.

11. OVERTIME GAMES—The same rules apply in tourneys as used during the regular season games.

12. WARM-UP PERIOD—There shall be fifteen minutes allowed between games for warm-up practice. During a session, this period shall start with the ending of the previous game. The first two teams playing in a session shall also be limited to the fifteen minute warm-up period. If one or both teams are delayed, the fifteen minute period shall be exclusive of announcements and opening ceremonies.

13. CHEER LEADERS—Only the cheer leaders from the two participating schools may be used in connection with any one game. They shall use only that portion of the floor which is immediately in front of their fans and shall remain outside the boundary lines at all times while the game is in progress.

14. RESTRICTIONS—Please inform your students and others about the following tourney restrictions:
   a. Balloons, banners, posters, etc., that are objectionable in the wording or which obstruct the view of others, are not allowed.
   b. Cow-bells, and other such noise instruments are not allowed.
   c. The use of bands at IHSAA tourneys is not sanctioned.
   d. No live animal mascots are permitted.
e. "Line-up" lanes of fans shall not be permitted on the playing floor at any time.

It shall be the responsibility of each high school principal to see that his fans (adult & student) abide by the above restrictions.

NOTE: Card sections as part of the cheering block are permitted.

15. HOME TEAM—The first named team in each game throughout the entire tournament is always designated as the "Home Team." It shall wear white uniforms and have a choice of bench (exception—host team shall have choice of home bench).

The second named team in each game shall have choice of basket and wear colored uniforms. In the event the Host Team is the second named team, it shall wear colored uniforms but have choice of bench only.

SECTIONAL TOURNEYS
February 21-26

The following bases were used in selecting sectional, regional and semi-state centers:

(1) Invitations filed by the principals. (2) Locations considered but not necessarily the determining factor. (3) Transportation facilities. (4) General conditions—attitude of local authorities, floors, seating capacities and entertaining facilities. (5) Rotation. (6) Success and satisfactory management of previous tourneys. (7) Adjustment because of reorganization and consolidation.

Many schools have been assigned by counties but there are a number of exceptions which are clearly indicated. Some changes were made to equalize the number of participating teams resulting in better balanced schedules or the use of less school time. The plan arranged is to have no less than 4 teams and no more than 8 teams in each tourney, and the assignment of all schools is given in the list which follows. The number of schools that probably will enter the tourneys is indicated. No doubt these numbers will be very nearly correct for this year. Correct information will not be available until the entry blanks have been received and accepted by the Board of Control. The numbers are tentative. The winners will constitute the teams in the Regional Tourneys according to assignment. Entry blanks are necessary. An entry blank is enclosed with the Principal's copy of this bulletin.

MANAGEMENT—Four officials will be assigned by the IHSAA to all tourneys. Two officials will work each game. One official will be present and ready for work while the fourth official will be unassigned and shall not report at that session.

TOURNEY REQUIREMENTS—A high school shall be considered eligible for entering an IHSAA sectional basketball tourney in any year unless the team known as the first team and representing the high school has played eight (8) interscholastic games during that season before filing an entry blank. Schools holding associate, junior or preparatory membership are not eligible to enter.

ENTERTAINMENT—Twelve men may be certified and in uniform. The Center Principals have contracted with the Board of Control to entertain sixteen men (which must include two coaches, principal and student manager) from each competing school according to the following plan:

1. Transportation—All schools are entitled to one round-trip mileage allowance each day the tourney is in session.

2. Meals—All schools are entitled to one meal for each day the tourney is in session.

3. Due to the variations of time schedules of “One-Site Two-Bracket” tourneys, the time schedules, entertainment schedules and admission prices will be set up by the IHSAA and sent to all Center Principals concerned. It will be the obligation of the Center Principal to send copies to all schools in his sectional area. The time schedules of all tourneys will be published as usual at the time of the drawings.

4. No lodging shall be paid.

Fairness by all parties must prevail in this matter of entertainment. Money spent for entertainment decreases the amount to be divided among the schools.

EXPENSES—An entrance fee of one dollar ($1.00) for each team must accompany the entry blank. The Center Schools have contracted to make settlement out of the receipts of the tourneys according to the following plan and in the following order:

1. All legitimate expenses, such as meals, officials, etc., except for team transportation, shall be paid from the gross receipts.

2. The Center High School shall receive two hundred dollars ($200).

3. The transportation shall be paid (The Board of Control has decided on four (4) cents per mile per man (limited to 16 men) for each round trip. Mileage should be considered as the most direct distance between the school building of the participating school and the gymnasium in which the tourney is held.)

4. The Center High School shall receive one hundred dollars ($100).

5. The IHSAA shall receive one percent (1%) of the fourth balance.

6. (a) One-half of the fifth balance shall be divided equally among the participating schools, the Center School sharing.

(b) One-half of the fifth balance shall be divided among the participating schools on an enrollment basis.

7. The Board of Control shall pass on all reports by the Center School and all reports by the participating schools.

8. The Center School shall furnish a complete financial report to the IHSAA and to each participating school by Thursday, March 2.

ELIGIBILITY—The eligibility of each player must be certified by the principal of the school sending the team. The Official Entry List must be used and all data given. Entries will close Wednesday, February 9, 1972, at 4:00 P.M. The entry lists must be in the hands of the Commissioner and the Center Principal COMPLETE IN
EVERY DETAIL BY 4:00 P.M. ON THAT DATE. Do not mail entry blanks before January 31. All students must be eligible when they participate as well as when they are certified. It is advisable to mail the entry blanks early as changes can be made by telephone, telegram or letter any time up to 4:00 p.m. Wednesday, February 9. Registered or certified letters are not recommended, as they are a slow form of delivery. Regular or special delivery mailing is the most satisfactory. A notification from this office will acknowledge receipt and correctness of your entry. The Board of Control has ruled that late entry blanks will not be accepted.

ADMISSION—The admission fees in all sectional tourneys shall be as indicated below and the tickets shall be printed with the following information on them:

Session ticket (all regular tourney) ....................... $1.50

ONE-SITE TOURNEYS:

Season ticket:

a. Three-session tourney .................................... $3.00
b. Four-session tourney .................................... $4.00

Tickets shall not be sold for more nor less than the prices listed. Season tickets only shall be sold prior to the opening session of the tourney. Any remaining tickets may be sold as session tickets.

ONE-SITE TWO-BRACKET TOURNEYS:

Due to the variation in the number of sessions, season ticket prices shall be established by the Board of Control through the IHSAA office and the center Principal.

No more tickets shall be sold than the seating capacity of the gymnasium will justify. Standing room shall not be sold or used. All requirements of the State and City Fire Marshals shall be met in all tourneys.

RESERVED SEATS—The Board strongly recommends that all seats be reserved.

DISTRIBUTION OF TICKETS—The following plan for the division of sectional tourney tickets was adopted by the Board of Control:

1. Deduct from the total number of tickets available, sixteen tickets for each competing school, press and complimentary tickets. Each Athletic Council Member and each Ex-Board member shall be granted two tickets to the sectional in his area upon request by Wednesday, February 16.

2. Ten percent of the remaining tickets shall be divided equally among the competing schools. (Every school regardless of enrollment, has a certain "must" list; such as assistant coaches, trainers, student managers, cheerleaders, etc. This allotment is intended primarily for this use.)

3. The remaining ninety percent shall be divided among the competing schools on the basis of enrollment of each participating school in grades 9 through 12 as certified to the State Department of Public Instruction, September 17, 1971, or the third day of school if the opening day is later than September 17.

No tickets shall be distributed by the Center Principal until his tourney schedule has been released. Season tickets must be ready for distribution by Thursday, February 17. The IHSAA will furnish Center Principals with enrollments of all high schools participating in their tourneys. Season tickets unsold shall be returned by 8:00 a.m. on the day the tourney begins, except that in "one-site two-bracket" tourneys, they shall be returning by 1:00 p.m. the day before the tourney if the tourney begins with an evening session; and by 8:00 a.m. on the day of the tourney if the tourney begins with an evening session. The Center Principal is under no obligation to accept the return of tickets after these hours, unless previous arrangements have been made with him.

WARNINGS—Entries close at 4:00 p.m. Wednesday, February 9 and cannot be changed or accepted afterward. An entrance fee of one dollar ($1.00) must accompany IHSAA copy of entry list. Send only the IHSAA copy of entry list and your check to IHSAA, 812 Circle Tower, Indianapolis. Send "Tournament Copy" of entry list to Center Principal. Get all data right the first time and on time, but do not mail lists before January 31. Late or incomplete entry lists cannot be accepted.

CONDUCT OF PERSONS DURING STATE TOURNY—The IHSSA endeavors to secure proper conduct of all persons attending the tourney, while in hotels and elsewhere, and instructs principals, superintendents, coaches, teachers, parents and communities that the receipt of tickets by their high school principal places the direct and immediate responsibility on him for the conduct of the persons attending the tourney.

TYPE OF BALL—Rawlings RLO

OFFICIALS—See Page 4.

RADIO AND TELEVISION COVERAGE—See Page 3.

SOUVENIR PROGRAMS—See Page 3.

PICTURES—See Page 3. (Note: Local official school photographers cannot be admitted to the State Tournament.)

TIME OF GAMES—12:00, 1:30, and 8:00 p.m. (E.S.T.)

Management—The board of Control has designated Phil N. Eskew, Commissioner, as Manager with Herman F. Keller and Ward E. Brown, Assistant Commissioners, as Assistant Managers of this tourney. Their telephone number is 637-1519. Fred R. Gorman, Indiana, will assist with the arrangements for the tourney at the Assembly Hall.

Press and Radio reservations will be made directly to the IHSSA Office. Requests should be filed not earlier than February 17, and not later than Thursday, March 9. An identification plan will be used for press representatives, who must be properly certified by their managers at the time requests are made. School newspapers, and school radio stations are not included.

Tickets—All tickets will be handled by the IHSSA Office according to the following plan:

1. Season tickets only will be sold prior to Saturday, March 18. In recent years all tickets were sold prior to this date. If the capacity of the Assembly Hall is not sold in season tickets, session tickets will be sold on the day of the tourney. The seating capacity is estimated at approximately 16,662.

2. Each high school principal having a team entered in an IHSSA Sectional Basketball Tourney in 1972 may order tickets according to their enrollment in grades 9 through 12 as submitted to
the Inspection Office of the State Department of Public Instruction on September 17, 1971. Post graduates shall not be counted.

- Enrollments of 242 or less—are limited to eight tickets.
- Enrollments of 243 to 1000—are limited to 3.5% of enrollment.
- Enrollments of over 1000—are limited to 3.5% of enrollment to 1000 and one (1) additional ticket for each additional 300 students enrolled, or fraction thereof.

A fraction of one-half or more may count for a ticket. Principals shall observe the limitations as listed and if there are questions, ask them now as all enrollments will be checked. A chart showing ticket allotments, according to enrollment, is printed on the reverse side of the ticket order form.

3. Each junior and preparatory member school principal may order from two to six tickets according to their enrollment in grade 9 only. See ticket order form for exact number.

4. Tickets will be sold by mail order only. Telephone, telegraph and personal call orders will not be honored. A ticket order blank is enclosed with this bulletin. It is official and you should use it according to instructions.

5. Ticket orders must be specific as to number of tickets and a check for the correct amount payable to the IHSAA must accompany each order. Tickets purchased cannot be returned. Please do not send cash. The limitations below must be observed as given:

   a. Orders for tickets having official postmarks on the envelopes from and including Thursday, February 17, to and including Friday, February 25, will be accepted if received not later than Saturday, February 26. Ticket orders mailed prior to February 17 will be returned for proper mailing. The IHSAA reserves the right to check the mailing of all ticket orders and to act on the findings.

6. Principals are obligated to distribute these tickets properly to persons in their own school districts before distributing any tickets elsewhere. Each principal will be required to keep on file the full names and addresses of all ticket purchasers for the information of the Board of Control, should such be desired for checking purposes. Tickets distributed by principals in an improper way or at a price higher than the price on the ticket will jeopardize the standing of their schools.

7. All tickets remaining unsold after the high school principals have ordered, according to the privilege of their enrollment quotas, will be distributed pro rata among the principals of the 64 sectional tourney winning schools if ordered by them. Principals should state on their order blank, ordering their quota of tickets according to enrollment, whether or not they would accept and pay for any tickets that may be distributed to them if they are sectional tourney winners. No tickets, other than those remaining after the enrollment quota orders are honored, are offered in this paragraph. There may be only a few or no tickets so remaining. None is guaranteed. Tickets purchased cannot be returned.

8. In order that all may know how ticket orders are filled, the following statements are made:

   a. Ticket orders from principals must be postmarked any time from February 17 to February 25, inclusive. Postmark will determine mailing date.
   b. Upon receipt of ticket orders in the IHSAA office, they are checked. All correct orders are arranged alphabetically according to the name of the school, numbered and filled. ORDERS WILL BE FILLED IN ALPHABETICAL ORDER.
   c. Incorrect orders are returned with instructions.
   d. The method of filling ticket orders is entirely by lot and the plan automatically assigns the seats. The location of seats of any particular school depends upon date of receipt of order, number of orders received in same mail, number of tickets covered by the orders received in the same mail, alphabetical order of the school name among the orders received, correctness of ticket order, station reached in the drawings determined by the orders received, etc.

MISCELLANEOUS

1. All seats will be reserved and tickets sold to principals as outlined above.

2. Blocks of seats, when sold, will be arranged from front to back rather than around the playing floor, about twenty percent of the number in each block being assigned to the front of the block.

3. No pass-out tickets will be issued. Holders of tickets may leave the Assembly Hall when they choose in any session, but they cannot re-enter until the next session. The Assembly Hall will be cleared between sessions.

4. All tickets will be printed in coupon form, carrying the statement that coupons will not be good if detached. The IHSAA tickets will be printed in a way that will make duplication very difficult, but a warning is given against bogus tickets.

5. Ticket holders will be seated prior to the opening game in each session, between halves and between games only. All persons must remain seated in their own seats during the games. All games will be started on scheduled time and will be played in quarters of 8 minutes each.

6. Rest Rooms will be found on each floor of the Assembly Hall.

7. Tickets will indicate the Entrance, Ramp, Section, Row and Number. As you approach the Assembly Hall look for the Gate Number above the door corresponding to the one on your ticket.

8. Two blocks of seats near the middle on the west side of the playing floor and two blocks near the middle on the east side of the playing floor, having 1250 seats to the block, will be reserved until Monday, March 13, for the four schools whose teams are in the tournament. Twelve blocks of seats, at one end of the playing floor with 25 seats to the block, will be reserved for the other twelve schools participating in the semi-state tourneys. The high school principals, whose teams are represented, should contact the IHSAA office by
Monday, March 13, about these tickets or they will be sold to other eligible schools. These blocks will be assigned by lot by the Board of Control.

9. The First Aid Room is located on the first floor of the Assembly Hall. Look for the sign. A tourney physician and a nurse will be available during the tourney.

10. Principals are asked to instruct all ticket holders to refrain from smoking in the Assembly Hall. This precaution is taken for the benefit of the players and the safety of the spectators.

THE ARTHUR L. TRESTER AWARD

The Gimbel Medal for Mental Attitude was given each year by Mr. Jake Gimbel, now deceased, until the 1943 State Basketball Tourney. In 1944 it was known as the IHSAA Medal for Mental Attitude. In 1945 the Board officially named the award "The Arthur L. Trester Award for Mental Attitude."

The IHSAA Board of Control used the following data card this year to assist them in selecting the winner of the Arthur L. Trester Award for Mental Attitude.

Name of Boy  High School  Date of Birth
Year in High School: (Check) First  Second  Third  Fourth
(Please use the following ratings below: (1) Excellent, (2) Very Good, (3) Good, (4) Fair, (5) Poor.)

Signed
By High School Principal  By High School Coach

The Principals and Coaches of the four schools filed with the IHSAA these cards for their players before the tourney was held. The Board of Control did not see the cards until Saturday afternoon after the second game of the Final Tourney when they had observed the playing of all of the teams. In the meeting to select a winner of the mental attitude award the data cards were studied carefully and were given careful consideration along with the opinions of the Board of Control members as a result of their observation of the playing of the boys in the afternoon. Several boys received very favorable consideration.

Contrary to the opinions often expressed this medal has not been given as a consolation prize through the years. It is true that few boys on the winning teams have received the award but it is not true that the IHSAA has ever had a policy of giving the medal as a consolation prize. Such a policy would remove the value of the award and would make the winners feel that they had not won anything. The winners of the award have legitimately won the award and have the right to be proud of it. It will be interesting to follow these boys down through the years. Schools should take an interest in these boys, as the IHSAA desires to be proud of them always.

Management—The management of these meets rests solely with the Board of Control. Local arrangements have been delegated to the Center Principals. All meet officials will be selected by the Center Principal, except the Referee-Starter, and he will be assigned by the Board of Control. He will be in complete charge of the meet and shall assume the duties of a Referee and Starter as a representative of the IHSAA.

Meet must be held Thursday afternoon or evening. Postponements due to weather must be scheduled on the following day if possible. The Center Principal shall notify all schools participating in his sectional, and the IHSAA office by Tuesday, May 2, as to the time and place of holding the meet. The Center Principal shall arrange a program for his meet from the entry lists sent to him by the assigned schools.

Admission Fee—Admission fee to all meets shall be not less than fifty cents (50¢) or more than one dollar ($1.00)

Open Contest—These meets are open to all members of the Association, except to schools holding preparatory, junior or associate memberships.

Entertainment—The Center Principal shall provide adequate dressing rooms, lockers and shower facilities for all contestants.

Expenses—There will be no entry fee. Traveling expenses must be paid by the competing schools.

Privileges—All actual contestants in uniform, one student manager, one coach, one assistant coach and principal for each team are admitted free to the meet.

Entrance Requirements—The minimum standards of performance which contestants must achieve to be eligible to enter sectional track and field meets shall have been equalled or bettered in actual competition in regularly scheduled interschool meets during the present outdoor track season. These performance standards may be established by competent timing of the first three, four or five places in interschool outdoor meets.

Eligibility—The eligibility of each participant who equalled or bettered the standards of performance in actual competition must be certified to by the principal of the school sending the team. The best performance for each contestant must be indicated for each event or events in the regular IHSAA entry list. (Unless the best performance is indicated in the proper space the contestant will not be considered entered in that event.) Entries positively will close Wednesday May 10 at 4:00 P.M. This means entry lists must be in the hands of the Commissioner and the Center Principal complete in every detail, on this date. See warnings below.

Official Rules—The current National Alliance Edition of the Track and Field Guide as published by the National Federation is official in the IHSAA. A few modifications have been made by the IHSAA and they are given in the present Bulletin. In both relays "off the curve" method of exchange shall be used. Both relays may be run in lanes the first 220 yards with a staggered start if lanes have been marked. When the half mile relay is run with the first 220 yards marked in lanes the first and second runners will exchange in their own lane.

Scoring—Winning first place in any event in the sectional meet counts five points; second place, three points; third place, two points; and fourth place, one point. Points in the relays will be counted in determining the winning team, the points for each place in each relay to be double the points in each place in other events. In case of a tie in a track event, the points shall be divided equally and the prizes awarded by lot. Ties in the high jump and pole vault shall be decided by awarding the position, with its points, to the contestant with the lowest number of trials for the tied height. If the tie still is not broken, the fewest total misses in the entire competition is the determining factor. Existing ties at this state shall be decided by the method outlined in Rule 6, Section 2, I (a, b, c, d, and e) pages 22 and 23 of the 1972 Track Rules Book. No misses shall be charged to a competitor for a passed height.

In case of a tie in the shot put or long jump, position and points are awarded according to Rule 6, Section 2, II (a and b) "determined by distance," page 23 of the 1972 Track Rules Book.

In case two or more contestants tie for fourth place the above method shall be applied to this place for determining the contestant who advances to the Regional and wins the place. This means that ties for the last qualifying position for the Regional must be broken by applying Rule 6-2-I to insure that no meet will send more qualifiers to the Regional than they are permitted. Be sure the contestants are notified of any ties immediately after the event so they will be available for any runoff for the qualifying position. Points are not affected.

Limitations—No contestant may be certified in more than 3 events (including relay) and no contestant may be certified for both relays. A contestant may be certified in the 880 yard run, mile run and/or two mile run but may participate in only one.

It is recommended, especially in the 440 yard dash, that this race be run in heats, no more than 12 contestants in a heat. Referring to the best performance, the 12 contestants having the fastest times
shall be placed in the first heat, the next 12 fastest in the second
heat, etc. Four places shall be timed in each heat. It is suggested that
there be three watches on each of the four winners.

The start shall be staggered and the first 220 yards run in lanes for both relays, using “off the curve” method of exchange. In the half-mile relay the first and second runners will exchange in their own lane. Scoring—Winning first place in any event in the regional meet counts six points; second place, four points; third place, three points; fourth place, two points; and fifth place one point. Points in the relays will be counted in determining the winning team, the points for each place in each relay to be 10-8-6-4-2. In case of a tie in a track event, the points shall be divided and the prizes awarded by lot. Ties in the high jump and pole vault shall be decided by awarding the position with its points to the contestant with the lowest number of trials for the tied height. If the tie still is not broken, the fewest total misses in the entire competition is the determining factor. Existing ties at this stage shall be decided by the method outlined in Rule 6, Section 2, II (a and b), “determined by distance,” page 28 of the 1972 Track Rules Book.

In case two or more contestants tie for fourth place the above method shall be applied to place this to determining the contestant who advances to the State and wins the ribbon. This means that ties for the last qualifying position for the State must be broken by applying Rule 6-2-1 to insure that no meet will send more qualifiers to the State than they are permitted. Be sure the contestants are notified of any ties immediately after the event so they will be available for any run-off for the qualifying position. Points are not affected.

Prizes—Suitable ribbons shall be provided by the IHSAA to the winners of first, second, third, fourth and fifth places in each event. No other prizes shall be given.

Anders on High School won its fourth Indiana High School state championship golf meet. This was the thirty-sixth meet sponsored by the IHSAA. The meet was again held at the beautiful old Oakland Golf Course at Oaklandon.

The Indians turned in two 18 hole rounds of 312-293 for a 605 total. This was a 10 stroke bulge over the runnerup. The team was led by James Cue with 76-72-148. Jeff Roberts 74-75-149, Dick Peck 82-74-156 and Scott Stager 80-72-152 completed the team.

South Bend Adams High School placed second with 615. In third place was Carmel, the defending state champion with 617.

James Cue of Anderson High School took low medalist honors with 76-72 for a total of 148. Carmel's John O'Neal and Anderson's Jeff Roberts tied for medalist honors with 149. However, in a sudden death one hole play-off, O'Neal won second place honors.

Craig Light of Warsaw High School, only Indiana high school player to score a hole-in-one in the state finals (he did it as a sophomore two years ago) was presented the second Fred A. Keesling Award for mental attitude, scholarship and school citizenship, as well as athletic ability in golf. It was the third successive year he had helped bring Warsaw High School to the state golf finals.

Twelve complete teams and three low medalists participated in the state meet. A total of 310 teams entered the sixteen sectionals.

Management—The management of these meets rests solely with the Board of Control. Local arrangements have been delegated to the Center Principals. All meet officials will be selected by the Center Principals.

Instructions and starting time schedule will be sent to each competing school prior to the meet by the Center Principal.

Eligibility—The rules and regulations of the IHSAA shall govern. An entry list is required. There will be no entry fee. Entry lists must be in the hands of the Commissioner and the Center Principal COMPLETE IN EVERY DETAIL on or before 4:00 p.m. Wednesday, May 31, 1972, and cannot be accepted afterwards.

Note—Each year some schools file entry blanks, then fail to participate in the tournament for some unknown reason. The management makes all arrangements for these teams, and of course the arrangements are upset by the non-appearance of the entrants. You are requested not to file an entry list unless you fully intend to enter a sectional meet. If for some reason, after filing an entry list, it becomes necessary to withdraw, please notify the IHSAA Office and the Sectional Center Principal immediately.

Transportation—This will be an obligation of the participating school in each case.

Medal Play—The meets will be conducted as Medal Play and 18 holes will be played. Summer rules are to be used, unless it is decided by the manager of the meet and the Center Principal that the condition of the course makes the use of winter rules necessary.

Scoring—Each threesome or foursome will be made up of players from different schools. The players will count and keep score for each other.

Prizes—The IHSAA will award a trophy to the winning team in each sectional. In case of a tie an additional hole or holes shall be played until a winner is determined.

Suitable ribbons will be provided by the IHSAA, for the members of the three teams qualifying for the Regional meet and the three low medalists.

Teams—Each school may enter six (6) players and the team must consist of four (4) of these six. The four players must be designated prior to the beginning of the tournament. A number less than four from a school cannot participate. Players should be listed on the entry list according to team position.

QUALIFICATIONS FOR REGIONAL MEET

Teams
The top three teams to finish in the sectionals shall advance to the Regional Meet.

Only schools posting a team score at the completion of a Sectional Meet are eligible for placement or advancement.

Individuals
The three low medalist players in each sectional meet are eligible to compete as individuals in the regional meet competition.

Ties—In all cases of ties, either low-medallists or teams, an additional hole or holes shall be played until the tie is broken. These play-offs will be used to determine the trophy winner as well as determining the low-medallists or teams who will advance to the Regional Meet. Only 3 teams and 3 individuals are to advance to the Regional meet.

Baseball

The Bloomington High School Panthers won the sixth annual Indiana High School Athletic Association baseball tournament series by defeating South Adams (Berne) High School by a score of 3-0 in the title game. Four hundred twenty high schools participated in the 64 sectional tournaments. This represented more than 98 percent of the entire membership.

The state tournament was returned to Bush Stadium after an absence of one year. Bloomington, Hammond Morton and South Adams High Schools made their first appearances in the final four.

In the first game South Adams defeated Boonville 4-0. Kevin Lehman accounted for three Starfire runs with two hits and Davey Neuenschwander pitched a two hitter.

Bloomington High sent home three runs against Hammond Morton in the bottom of the first inning to promptly take a 3-0 lead in the second game. Morton tied the game in the top of the second inning. However, in the sixth inning, Bloomington scored 2 more runs for a 5-3 lead. Morton scored a lone run in the top of the seventh inning to make the final score 5-4 in favor of the Bloomington Panthers.

In the final game for the state championship, the Bloomington Panthers defeated the South Adams Starfires 3-0. The Panthers scored lone runs in the first, second and fifth innings. Rick Carmichael pitched one of the finest games of his career in allowing the hard-hitting Starfires only two hits. He fanned only 23 batters at the plate. The championship ended the Bloomington High season with a 28-3 mark and South Adams finished with 22-5.

The Board of Control unanimously selected Alan Beitler of South Adams as the recipient of the sixth annual L. V. Phillips Award. The recipient of this award must excel in scholarship, mental attitude and school citizenship as well as ability in baseball.

STATE BASEBALL TOURNAMENT SERIES

THE SIXTH ANNUAL

The Board of Control has completed the details for the State Championship Baseball Tournament and announces the plan in full; with the understanding that the Board of Control reserves the right to readjust the plan and arrangements for any and all tournaments if conditions arise making changes advisable or cancellations necessary.

The following bases were used in selecting sectional, regional and semi-state centers: (1) Location—geographical with reference to

schools desiring to participate; (2) Transportation accommodations; (3) General conditions—attitude of local authorities, fields, entertaining facilities, etc.; (4) Invitation.

GENERAL INFORMATION

1. BALL—The Board of Control has selected the Rawlings #R.O. ball as the official ball for the 1972 tournament series. Practice balls must be furnished by competing schools.

2. LENGTH OF GAME—All Tournament games are scheduled for seven innings, unless shortened by weather conditions or the game ends in a tie, in which case the game will continue until one team is the winner.

A game shall also end when, if after five innings, a team is 10 or more runs behind and has completed its turn at bat. (Exception—the final state championship game).

3. OFFICIAL RULES—The Baseball Rules 1972 National Alliance Edition, will be the Official Rules in all games and tournaments, except as modified by IHSAA.

4. SCHOOLS ELIGIBLE—All schools having full membership in the IHSAA are eligible to enter teams in the tournament series. Each eligible school may enter a team in the tournament series even though its second semester may end before or during the tournaments.

However, only those students who are eligible at the close of school may be used on the tournament team. Seniors who may have graduated at the close of the second semester may participate in the tournament provided they meet all other eligibility requirements.

5. SINGLE ELIMINATION—All phases of the IHSAA Tournament are based on the single elimination plan.

6. MEN IN UNIFORM—In each of the tournaments, no school shall have more than eighteen players, the team coach (or coaches) and two managers (one of whom must be the bat boy). The eighteen players shall be the ones certified for the tournament. Trainers not in uniform may be permitted on the bench.

The only representatives of a school allowed on the bench are the players, coaches, managers, and a trainer.

7. COACHER’S BOXES—The Coacher’s Boxes may be occupied by two coaches, one coach and one member of the team or two members of the team and all must be in uniform.

8. PITCHING REGULATION—A pitcher may not pitch in more than ten (10) innings in any three consecutive calendar days. This period begins when he officially enters the games as a pitcher.

9. DECISIONS OF UMPIRES FINAL—The decisions of the umpires are final and protests arising from the decisions of the umpires or any inadvertent misinterpretation of the rules will not be considered by the IHSAA.
10. HEAD PROTECTOR REQUIRED—The catcher, each batter and runner in all IHSAA games and tournaments is required to wear a head protector. "LINER-TYPE" HEAD PROTECTORS WILL NOT BE PERMITTED.

11. HOME TEAM—The first named team in each game throughout the entire tournament is always designated as the "Home Team". It shall have a choice of dugout except when participating against the host team.

12. PRE-GAME PRACTICE—Each team will be allowed 15 minutes practice before each game to be used as the coach sees fit. Prior to the championship game the winner of the first game has the option of taking 20 minutes of batting practice to be followed by 20 minutes of batting practice by the winner of the second game. The two teams will then take 10 minutes of infield practice in the same order allowing a 10 minute period prior to game time for the preparation of the diamond.

13. CONDUCT OF COACHES AND PLAYERS:
   A. No coach, player or other person officially connected with the team shall be permitted to smoke on the bench or playing field either during practice or while a game is in progress.
   B. No coach or other school official shall, during the progress of a game, be allowed on the field of play except by permission of the game officials.
   C. Except for those coaches or eligible players who may be serving as coaches at first or third base and players legally in the "next batter" boxes, all other coaches, managers, substitutes and players awaiting their turn at bat shall remain on the players' bench. Umpires will be instructed to enforce this rule to the limit.
   D. The captain and the head coach shall be the official spokesmen and the sole representatives of their team in all communications with the officials.
   E. Abusive remarks to game officials by coaches or players shall be regarded as unsportsmanlike conduct. The offender or offenders shall be disqualified and removed from the bench and playing field.

14. INTERRUPTED GAMES—Interrupted tourney games shall start at the point of interruption until it is an official game in accordance with Rule 4, Section 2, Article 4 (a) & (b) of the Official Rules.

Example: At the end of the second inning, game is interrupted by rain. When play is resumed either on that day or a following day the same line-ups shall be used and the game will proceed from the point of interruption. Runs, count on batter, baserunners, etc. shall be the same when the game is resumed.

If 5 innings or more have been played at the time of interruption, it is a regulation game.

15. COACHES CONFERENCES—Each team may be granted not more than three charged conferences during a game, without penalty, to permit a coach or his representative to confer with a defensive player or players. PENALTY—For any charged conference in excess of three, the pitcher must be removed as pitcher for the duration of the game.

Each team when on offense may be granted not more than one charged conference per inning to permit the coach or any of that team's personnel to confer with base runners and/or the batter. The umpire shall deny any subsequent offensive team requests for charged conferences.

Time granted for an obviously incapacitated player shall not constitute a charged time out.

16. FIELD MARKINGS—The playing field shall be marked in accordance with Rule 1, Section 2, Article 1. The foul lines should be extended a minimum of 250 feet from home base.

17. UMPIRES—Three umpires will be assigned by the IHSAA to all sectional tournaments.

18. PLANNING SCHEDULES—All pairings for all tournaments will be made by a chance drawing by the Board of Control on May 19, 1972. Games will be played according to the way they are drawn on the schedule.

Weather permitting, a minimum of one and one-half hours is strongly recommended between the end of the second semi-final game and the beginning of the championship game.

19. The Re-entry Rule 3-1-3 will NOT be used in any of the State Sponsored Baseball Tournaments. A Withdrawn Player shall not re-enter the game.

SECTIONAL TOURNAMENTS
May 29 or 30 to June 5, 1972

Many schools have been assigned by counties but there are a number of exceptions. Some changes were made to equalize the number of participating teams resulting in better balanced schedules or the use of less school time. The plan is to have no fewer than 5 teams and no more than 8 teams in each tournament, and the tentative assignment of all schools is given in the list which follows. The winners will constitute the teams in the Regional Tournaments according to assignment. ENTRY LISTS ARE NECESSARY. AN ENTRY BLANK IS ENCLOSED.

Board of Control

Athletic Association
Indianapolis, Indiana

We have examined the statement of cash receipts and disbursements and the schedule of meeting expenses of The Indiana High School Athletic Association for the year ended June 30, 1972, and the schedule of securities owned at June 30, 1972. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We previously made a similar examination for the preceding year.

We reconciled the balance of cash on deposit at June 30, 1972, with the amount reported directly to us by the American Fletch er National Bank and Trust Company, Indianapolis, Indiana. Our examination included reconciliation of recorded cash receipts for the year with deposits as evidenced by bank statements on file. Canceled checks returned by the bank were compared with the record of cash disbursements and the cash disbursements were supported on a test basis by examination of invoices, expense reports, and other data. Securities owned by the Association at June 30, 1972, were inspected.

In our opinion, the accompanying statement of cash receipts and disbursements, and schedules of meeting expenses and securities owned present fairly the recorded cash transactions of The Indiana High School Athletic Association for the year ended June 30, 1972, and the securities owned by the Association at June 30, 1972.
