1. Definitions Page ix
Reword: Controlled Scrimmage – An approved activity whereby two member schools work out against one another under IHSAA guidelines and the supervision of their respective coaches. While game conditions may be simulated, this event shall be structured as a teaching opportunity for coaches and shall be shorter and less demanding physically than a regular season contest. In order to be eligible for a scrimmage, a player must have participated in five days of organized practice under the direct supervision of the high school coaching staff. A controlled scrimmage does not count as a practice toward meeting the minimum number of practices required to play in a regular season contest. Licensed officials must be used in sports where officials are required.

A motion to define a scrimmage as an approved activity rather than an official practice was made by Michael Powell; seconded by Geoff Penrod; motion approved 17-0.

2. Definitions Page x
